Why Can't Church Be More Like an AA Meeting? Stephen R. Haynes,2021-10-26 Do Christians need recovery Or is recovery something needed by the church itself Addiction whether to a substance or to a behavior is a problem within faith communities just like it is everywhere else But because churches are rarely experienced as safe places for dealing with addiction co addiction or the legacy of family dysfunction Christians tend to seek recovery from these conditions in Twelve Step fellowships Once they become accustomed to the ethos of vulnerability acceptance and healing that these fellowships provide however they are often left feeling that the church has failed them with many asking why can t church be more like an AA meeting Inspired by his own quest to find in church the sort of mutual support and healing he discovered in Twelve Step fellowships Stephen Haynes explores the history of Alcoholics Anonymous and its relationship to American Christianity He shows that while AA eventually separated from the Christian parachurch movement out of which it emerged it retained aspects of Christian experience that the church itself has largely lost comfort with brokenness and vulnerability an emphasis on honesty and transparency and suspicion toward claims to piety and respectability Haynes encourages Christians to reclaim these distinctive elements of the Twelve Step movement

in the process of recovering church He argues that this process must begin with he calls Step 0 which as he knows from personal experience can be the hardest step the admission that despite appearances we are not fine

professionals **Publication** ,1991 **Drunks** Christopher Finan,2017-06-27 Reveals the history of our struggle with alcoholism and the emergence of a search for sobriety that is as old as our nation In *Drunks* Christopher Finan introduces us to a colorful cast of characters who were integral in America's moral journey to understanding alcoholism There's the remarkable Iroquois leader named Handsome Lake a drunk who stopped drinking and dedicated his life to helping his people achieve sobriety In the early nineteenth century the idealistic and energetic Washingtonians a group of reformed alcoholics led the first national movement to save men like themselves After the Civil War doctors began to recognize that chronic drunkenness is an illness and Dr Leslie Keeley invented a gold cure that was dispensed at more than a hundred clinics around the country But most Americans rejected a scientific explanation of alcoholism A century after the ignominious death of Charles Adams came Carrie Nation The wife of a drunk she destroyed bars with a hatchet in her fury over what alcohol had done to her family Prohibition became the law of the land but nothing could stop the drinking Finan also tells the dramatic story of Bill Wilson and Dr Bob Smith who helped each other stay sober and then created AA which survived its tumultuous early years and finally proved that alcoholics could stay sober for a lifetime This is narrative history at its best entertaining and authoritative an important portrait of one of America's great liberation movements and essential reading for anyone involved in the addiction community *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954* United States. Internal Revenue Service,1989 **Recent Developments in Alcoholism** Marc Galanter,1989-01-31 From the President of the Research Society on Alcoholism In the last decade research concerning the causes and consequences of alcohol abuse and alcoholism has come of age We have witnessed a plethora of scientific findings that have shed light on some of the actions of alcohol at the molecular level Interesting new data have been forthcoming on the complexities of the development of tolerance to alcohol It is becoming increasingly appropriate to consider that tolerance to alcohol involves biological as well as psychological factors New scientific insights have been gained concerning the treatment of withdrawal as well as the presence of persistent withdrawal signs that may possibly be involved with relapse More recently new and compelling data indicating that alcoholism is a common familial disorder have appeared Clinical studies indicate that alcoholism is a heterogeneous disorder with multiformity in clinical symptomatology and genetic heterogeneity The heterogeneity of the clinical features and the heritability of the predisposing factors of alcoholism are currently under vigorous scientific investigation In the past several years sophisticated psychosocial studies have provided fundamental information on subjects at high risk for alcoholism Psychosocial and biological studies of families including alcoholics and subjects at high risk are likely to bring new insights to our understanding of etiological factors Moreover as a result of these studies we stand to develop better prevention initiatives and treatment approaches
