FM 2009: Formal Methods Ana Cavalcanti, Dennis Dams, 2009-11-04 th FM 2009 the 16 International Symposium on Formal Methods marked the 10th anniversary of the First World Congress on Formal Methods that was held in 1999 in Toulouse France We wished to celebrate this by advertising and organizing FM 2009 as the Second World Congress in the FM series aiming to once again bring together the formal methods communities from all over the world The statistics displayed in the table on the next page include the number of countries represented by the Programme Committee members as well as of the authors of submitted and accepted papers Novel this year was a special track on tools and industrial applications Submissions of papers on these topics were especially encouraged but not given any special treatment It was just as hard to get a special track paper accepted as any other paper What we did promote however was a discussion of how originality contribution and soundness should be judged for these papers The following questions were used by our Programme Committee

Crimes of the Holocaust Stephan Landsman, 2013-03-01 The problem of prosecuting individuals complicit in the Nazi regime's Final Solution is almost insurmountably complex and has produced ever less satisfying results as time has passed In Crimes of the Holocaust Stephan Landsman provides detailed analysis of the International Military Tribunal prosecution at Nuremberg in 1945 the Eichmann trial in Israel in 1961 the 1986 Demanjuk trial in Israel and the 1990 prosecution of Imre Finta in Canada Landsman presents each case and elaborates the difficulties inherent in achieving both a fair trial and a measure of justice in the aftermath of heinous crimes In the face of few historical and legal precedents for such war crime prosecutions each legal action relies on the framework of its predecessors However

this only compounds the problematic issues arising from the Nuremberg proceedings Meticulously combing volumes of testimony and documentary information about each case Landsman offers judicious and critical assessments of the proceedings He levels pointed criticism at numerous elements of this relatively recent judicial invention sparing neither judges nor counsel and remaining keenly aware of the human implications Deftly weaving legal analysis with cultural context Landsman offers the first rigorous examination of these problematic proceedings and proposes guideposts for contemporary tribunals Crimes of the Holocaust is an authoritative account of the Gordian knot of genocide prosecution in the world courts which will persist as a confounding issue as we are faced with a trial of Saddam Hussein This volume will be compelling reading for legal scholars as well as laypersons interested in these cases and the issues they address Autocar & Motor ,1994-05
