Note: The panic alarm will only operate when the ignition is off.

Press the button to activate the alarm. Press the button again or switch the ignition on to deactivate.

Remote Start

WARNING

To avoid exhaust fumes, do not use remote start if your vehicle is parked indoors or areas that are not well ventilated.

Note: Do not use remote start if your vehicle is low on fuel.

The remote start button is on the transmitter.

This feature allows you to start your vehicle from outside the vehicle. The transmitter has an extended operating range.

You can configure automatic climate control to operate when the vehicle is remote started. See **Climate Control** (page 139). Manual climate control systems will run at the setting set when you switched off the vehicle.

Many states and provinces restrict the use of remote start. Check your local and state or provincial laws for specific requirements regarding remote start systems.

The remote start system will not work if:

- The ignition is on.
- The alarm system is triggered.
- You disable the feature.
- The hood is open.
- The transmission is not in **P**.
- The vehicle battery voltage is too low.
- The service engine soon light is on.

Remote Control Feedback

An LED on the remote control provides status feedback of remote start or stop commands.
