Manual *Cyber Security Using Modern Technologies* Om Pal, Vinod Kumar, Rijwan Khan, Bashir Alam, Mansaf
Alam, 2023-08-02 The main objective of this book is to introduce cyber security using modern technologies such as Artificial
Intelligence Quantum Cryptography and Blockchain This book provides in depth coverage of important concepts related to
cyber security Beginning with an introduction to Quantum Computing Post Quantum Digital Signatures and Artificial
Intelligence for cyber security of modern networks and covering various cyber attacks and the defense measures strategies
and techniques that need to be followed to combat them this book goes on to explore several crucial topics such as security
of advanced metering infrastructure in smart grids key management protocols network forensics intrusion detection using
machine learning cloud computing security risk assessment models and frameworks cyber physical energy systems security a

biometric random key generator using deep neural network and encrypted network traffic classification In addition this book provides new techniques to handle modern threats with more intelligence It also includes some modern techniques for cyber security such as blockchain for modern security quantum cryptography and forensic tools Also it provides a comprehensive survey of cutting edge research on the cyber security of modern networks giving the reader a general overview of the field It also provides interdisciplinary solutions to protect modern networks from any type of attack or manipulation The new protocols discussed in this book thoroughly examine the constraints of networks including computation communication and storage cost constraints and verifies the protocols both theoretically and experimentally Written in a clear and comprehensive manner this book would prove extremely helpful to readers This unique and comprehensive solution for the cyber security of modern networks will greatly benefit researchers graduate students and engineers in the fields of cryptography and network security
