G. Strasman, 1990 **Everyday Lifestyles and Sustainability** Fabricio Chicca, Brenda Vale, Robert Vale, 2018-04-09 The impact of humanity on the earth overshoots the earth's bio capacity to supply humanity's needs meaning that people are living off earth's capital rather than its income However not all countries are equal and this book explores why apparently similar patterns of daily living can lead to larger and smaller environmental impacts The contributors describe daily life in many different places in the world and then calculate the environmental impact of these ways of living from the perspective of ecological and carbon footprints This leads to comparison and discussion of what living within the limits of the planet might mean Current footprints for countries are derived from national statistics and these hide the variety of impacts made by individual people and the choices they make in their daily lives This book takes a bottom up approach by calculating the footprints of daily living The purpose is to show that small changes in behaviour now could avoid some very challenging problems in the future Offering a global perspective on the question of sustainable living this book will be of great interest to anyone with a concern for the future as well as students and researchers in environmental studies human geography and development studies **The Go for It Neighbours** Melissa L. Manning, 2015-03-27 Rain Woodrow is an entrepreneur both at heart and by profession She's not afraid to do whatever it takes to make her company a success It's a work ethic that is about to come in handy at home too One night she and her boyfriend Cullen Dangsi notice something remarkable happen At a gathering of their neighbours each stands up and pledges to work towards their highest aspirations and goals There is power in numbers they realise and soon the neighbours are working together for both individual and community objectives This cooperative spirit does not go unnoticed by the media and soon the spotlight of public attention shines brightly on Sunlit Avenue But that attention comes at a cost It draws focus to those who aren't quite as dedicated to the communal projects as well as those who are jealous of what others are achieving Why can't everyone be supportive of this initiative to make each other's lives better Rain and Cullen work to solve the mystery so that they can achieve their dreams with or without the naysayers The neighbours have a decision to make do they allow themselves to be pulled down by toxic people or do they work even harder to accomplish their goals with renewed ambition *Kiplinger's Personal Finance*, 2008 California. Court of Appeal (2nd Appellate District).
