Pursuing Citizenship in the Enforcement Era Ming Hsu Chen, 2020-08-25 Pursuing Citizenship in the Enforcement Era provides readers with the everyday perspectives of immigrants on what it is like to try to integrate into American society during a time when immigration policy is focused on enforcement and exclusion The law says that everyone who is not a citizen is an alien But the social reality is more complicated Ming Hsu Chen argues that the citizen alien binary should instead be reframed as a spectrum of citizenship a concept that emphasizes continuities between the otherwise distinct experiences of membership and belonging for immigrants seeking to become citizens To understand citizenship from the perspective of noncitizens this book utilizes interviews with more than one hundred immigrants of varying legal statuses about their attempts to integrate economically socially politically and legally during a modern era of intense immigration enforcement Studying the experiences of green card holders refugees military service members temporary workers international students and undocumented immigrants uncovers the common plight that underlies their distinctions limited legal status breeds a sense of citizenship insecurity for all immigrants that inhibits their full integration into society Bringing together theories of citizenship with empirical data on integration and analysis of contemporary policy Chen builds a case that formal citizenship

status matters more than ever during times of enforcement and argues for constructing pathways to citizenship that enhance both formal and substantive equality of immigrants *Democracy and Exclusion* Patti Tamara Lenard, 2023 In *Democracy and Exclusion* Patti Tamara Lenard deploys a contextual methodology to look at how and when democracies exclude both citizens and noncitizens from territory and from membership to determine if and when there are instances when such exclusion is justified To make her case Lenard draws on the all subjected principle or the idea that all those who are the subject of law that is those who are required to abide by the law and who are subject to coercion if they do not do so voluntarily should have a say in what the law is Including several examples of exclusion Lenard argues that admission to territory and membership is either favored by or required by democratic justice *Becoming British* Thom Brooks, 2016-05-24 From Syrian asylum seekers to super rich foreign investors immigration is one of the most controversial issues facing Britain today Politicians kick the subject from one election to the next with energetic but ineffectual promises to crack down while newspaper editors plaster it across front pages But few know the truth behind the headlines indeed the almost daily changes to our complex immigration laws pile up so quickly that even the officials in charge struggle to keep up In this clear concise guide Thom Brooks one of the UK's leading experts on British citizenship and a newly initiated British citizen himself deftly navigates the perennially thorny path exploding myths and exposing absurdities along the way Ranging from how to test for Britishness to how to tackle EU free movement *Becoming British* explores how UK immigration really works and sparks a long overdue debate about how it should work Combining expert analysis with a blistering critique of the failings of successive governments this is the definitive guide to one of the most hotly disputed issues in the UK today Wherever you stand on the immigration debate Brooks's wryly observed account is the essential road map *Reshaping the Mosaic* Ninette Kelley, Jeffrey G. Reitz, Michael J. Trebilcock, 2025-04-30 Immigration remains a cornerstone of national policy although it has undergone significant transformations across economic family and refugee admission streams in the past two decades *Reshaping the Mosaic* offers an insightful exploration of Canada's immigration policy ranging from its historical roots to contemporary developments The book examines the growth in permanent and temporary immigration to Canada It explores changes in selection criteria and evaluates their impact on key policy objectives contributing to Canadian economic prosperity facilitating family reunification providing refuge for those fleeing persecution and enabling the integration of immigrants and their descendants into Canadian society The book sheds light on the legal political economic and social paradoxes inherent in Canadian immigration policy highlighting shifts in exclusion powers deportation practices settlement support and citizenship rules as well as their implications for Canadian ideals of multiculturalism fairness and integration It documents the lack of transparency and informed public engagement in policy formation and the implications this lack may have on maintaining public confidence and ensuring that immigration policies align with the national interests Driven by a conviction that the contemporary changes in immigration policy need to be examined in a comprehensive and inclusive way

Reshaping the Mosaic looks at recent shifts and their implications for society and offers invaluable insights for policymakers scholars and stakeholders aiming to assist the development of a new immigration policy framework Citizenship in Transnational Perspective Jatinder Mann, 2017-06-15 This edited collection explores citizenship in a transnational perspective with a focus on Australia Canada and New Zealand It adopts a multi disciplinary approach and offers historical legal political and sociological perspectives The two overarching themes of the book are ethnicity and Indigeneity The contributions in the collection come from widely respected international scholars who approach the subject of citizenship from a range of perspectives some arguing for a post citizenship world others questioning the very concept itself or its application to Indigenous nations **Education as the Driving Force of Equity for the Marginalized** Boivin, Jacquelynne Anne, Pacheco-Guffrey, Heather, 2022-01-14 In the USA racism is the most widespread root of oppression Black people in America specifically have suffered from centuries of discrimination and still struggle to receive the same privileges as their white peers In other countries however there are other groups that face similar struggles Discrimination and oppression based on religion ethnicity socio economic status political affiliation and caste are just a few categories However education is a root for widespread societal change making it essential that educators and systems of education enact the changes that need to occur to achieve equity for the groups being oppressed Education as the Driving Force of Equity for the Marginalized highlights international research from the past decade about the role education is playing in the disruption and dismantling of perpetuated systems of oppression This research presents the context ideas and mechanics behind impactful efforts to dismantle systems of oppression Covering topics such as teacher preparation gender inequality and social justice this work is essential for teachers policymakers college students education faculty researchers administrators professors and academicians
