Atlas Of Nevada Conifers Atlas Of Nevada Conifers:

Atlas of Nevada Conifers David Alan Charlet, 1996 Atlas of Nevada Conifers is a major scientific contribution to our understanding of the ecology of Nevada It documents in great detail the distribution of all native conifer species in the state critical information because of the primary ecological importance of conifers for all organisms and because of the lack of documentation of these distributions in the scientific literature before now Charlet maps and documents the exact location of herbarium records for 1 600 individual trees The data found in 23 tables and 22 range maps will serve as a primary reference for botanists land managers and conservation biologists for years to come An Atlas of the World's Conifers Aljos

Farjon, Denis Filer, 2013-11-11 A 2014 Choice Magazine Outstanding Academic Title An Atlas of the World's Conifers is the first ever atlas of all known conifer species It is based on locality information of ca 37 000 collected herbarium specimens held in scientific institutions As well as providing natural distribution maps for each species Farjon and Filer give the reader comprehensive insight into the biogeography diversity and conservation status of conifers on all continents dispelling the widely held view that they are primarily a northern boreal plant group Conifer diversity is analysed and presented with a taxonomic and geographic perspective Distribution patterns are interpreted using the latest information on continental drift dispersal and phylogeny The entire dataset supporting the Atlas can be consulted and verified online These data can also be used for further research and are an invaluable resource for anyone working on conifer systematics biogeography or conservation An Atlas of the World's Conifers indicates the known distribution of all conifers including an analysis of their biogeography diversity and conservation status Also available from Brill is Aljos Farjon's A Handbook of the World's Conifers published in 2010 ISBN 978 90 04 17718 5 which is a 2017 Choice Magazine Outstanding Academic Title Conifers Aljos Farjon, 1999 Conifers are one of the world's most important resources of timber If managed wisely and used sustainably these resources will provide wood for a multitude of purposes virtually indefinitely Additional products include resins and their derivatives and even medicinal extracts for example taxol now used in the treatment of cancer Conifers occur on all continents except Antarctica Of the 630 species 355 are listed as of conservation concern with 200 or 25 of species threatened with extinction Although exploitation of these resources is as old as civilization this century has seen a dramatic increase in the exploitation of timber resources This action plan assess conifer diversity and its threats It is unique among IUCN's Plant Action Plans so far published in that it gives the complete global red list of conifers using the 1994 IUCN Red List Categories and criteria Data is analyzed to identify conifer hot spots where conservation should be a priority and a short list of threatened species is prioritized **Terrestrial Vegetation of California, 3rd Edition** Michael Barbour, Todd

Keeler-Wolf, Allan A. Schoenherr, 2007-07-17 This completely new edition of Terrestrial Vegetation of California clearly documents the extraordinary complexity and richness of the plant communities and of the state and the forces that shape them This volume is a storehouse of information of value to anyone concerned with meeting the challenge of understanding

managing or conserving these unique plant communities under the growing threats of climate change biological invasions and development Harold Mooney Professor of Environmental Biology Stanford University The plants of California are under threat like never before Traditional pressures of development and invasive species have been joined by a newly recognized threat human caused climate change It is essential that we thoroughly understand current plant community dynamics in order to have a hope of conserving them This book represents an important well timed advance in knowledge of the vegetation of this diverse state and is an essential resource for professionals students and the general public alike Brent Mishler Director of the University Jepson Herbaria and Professor of Integrative Biology University of California Berkeley

Mammal Community Dynamics Cynthia J. Zabel, Robert G. Anthony, 2003-09-18 Conservation of mammals in the coniferous forests of western North America has shifted in recent years from species based strategies to community and ecosystem based strategies resulting in an increase in the available information on mammalian communities and their management This book provides a synthesis of the published literature on the role of forest mammals in community structure and function with emphasis on their management and conservation In addition to coverage of some of the charismatic megafauna such as grizzly bears gray wolves mountain lions elk and moose the book also provides a thorough treatment of small terrestrial mammals arboreal rodents bats medium sized carnivores and ungulates The unique blend of theoretical and practical concepts makes this book equally suitable for managers educators and research biologists who will find it a valuable reference to the recent literature on a vast array of topics on mammalian ecology

Taxonomy and Ecology of Woody Plants in North American Forests James S. Fralish, Scott B. Franklin, 2002-02-08 Thorough detailed dendrological coverage of North American trees shrubs and vines This comprehensive field guide procedural handbook provides extraordinarily detailed descriptions of trees shrubs and vines of North American forests Written at a more detailed level than most field guides it introduces basic taxonomic concepts and methods and explains the rationale behind taxonomic classification systems Entries include Latin and common names for each species as well as physical descriptions at various levels of maturity and for different seasons Also noted are regional and state distributions soil conditions cover types shade tolerances and common diseases and pests This remarkably thorough and reliable reference includes Detailed descriptions of more than 800 species Hundreds of additional varieties and cultivars 550 exquisitely detailed line drawings of leaves bark fruit and seeds Broad coverage of commercial and noncommercial species An emphasis on the silvical features of each species A unique section on forest community ecology and cover types The new North American Classification System Well organized and practical this authoritative guide is an immensely useful resource for foresters wildlife and field biologists naturalists environmental scientists and land managers

The Great Basin Donald Grayson, 2011-04-18 The Great Basin centering on Nevada and including substantial parts of California Oregon and Utah gets its name from the fact that none of its rivers or streams flow to the sea This book synthesizes the past 25 000 years of the natural history of this vast region It

explores the extinct animals that lived in the Great Basin during the Ice Age and recounts the rise and fall of the massive Ice Age lakes that existed here It explains why trees once grew 13 beneath what is now the surface of Lake Tahoe explores the nearly two dozen Great Basin mountain ranges that once held substantial glaciers and tells the remarkable story of how pinyon pine came to cover some 17 000 000 acres of the Great Basin in the relatively recent past These discussions culminate with the impressive history of the prehistoric people of the Great Basin a history that shows how human societies dealt with nearly 13 000 years of climate change on this often challenging landscape Provided by publisher **U.S. Geological Survey Professional Paper** ,1984 *Methods and Approaches in Forest History* Mauro Agnoletti,Steven Anderson,2000 A companion to Forest History International Studies on Socioeconomic and Forest Ecosystem Change which includes over 20 papers from the same conference held in Florence in 1998 This volume focuses on the different approaches and methods adopted in the study of forest history The interdisciplinary nature of these studies is emphasized bringing in the different perspectives of anthropologists botanists ecologists foresters historians geneticists and geographers This volume demonstrates the rich diversity of approaches and methods to forest history *Humboldt-Toiyabe National Forest (N.F.), White Pine & Grant-Quinn Oil and Gas Leasing Project* ,2007 *Proceedings RMRS.* ,1998 **Proceedings--shrublands under fire** ,2008 Afoot & Afield: Tahoe-Reno Mike White,2015-08-17 Ever since the Wild West days of Kit Carson and the Comstock Lode visitors have been drawn to Reno Tahoe in search of adventure Today the best adventures are found outdoors where hikers can take lakeside strolls mountain ascents or simple walks with dogs and kids Afoot Afield Reno Tahoe by local author Mike White features more than 175 trips in a diverse range of terrain around Lake Tahoe and the communities of Reno Sparks Carson City and Minden Gardnerville These trips are tailored for every type of hiker and many are suited for mountain bikers This new edition features 26 new hikes and all updated content *General Technical Report RM.* ,1995 *General Technical Report PNW-GTR* ,1987 Landscape Restoration Handbook, Second Edition Donald Harker,1999-02-16 Five years after the first edition of Landscape Restoration Handbook was published its natural landscaping and ecological restoration techniques have become standard and successful practice throughout the nation Now the Landscape Restoration Handbook Second Edition substantially widens the scope of the original work Approximately 250 pages larger than the first edition new and expanded chapters offer guidance on Development of natural landscaping and ecological restoration programs Education regional planning and increased biological diversity Ecological communities species listings Scientific and common plant names associated with ecological communities Nurseries that propagate and sell native plants throughout the United States Naturalization has proven to be a win win situation all around Monetary costs that landowners are saving on maintenance and chemicals also translates to environmental benefits for the greater community Landscape and golf course architects urban planners horticulturists golf course superintendents and consultants have already put the Landscape Restoration Handbook to the test Let the Second Edition bring you up to date on the numerous

benefits of naturalization *Interior West Global Change Workshop* Richard W. Tinus, 1995 **Advances in Threat Assessment and Their Application to Forest and Rangeland Management** John M. Pye, 2010 In July 2006 more than 170 researchers and managers from the United States Canada and Mexico convened in Boulder Colorado to discuss the state of the science in environmental threat assessment This two volume general technical report compiles peer reviewed papers that were among those presented during the 3 day conference Papers are organized by four broad topical sections Land Air and Water Fire and Pests Biota and are divided into syntheses and case studies Land topics include discussions of forest land conversion and soil quality as well as investigations of species responses to climate change Air and water topics include discussions of forest vulnerability to severe weather and storm damage modeling Fire topics include discussions of wildland arson and wildfire risk management as well as how people perceive wildfire risk and uncertainty Pests biota topics include discussions of risk mapping and probabilistic risk assessments as well as investigations of individual threats including the southern pine beetle and *Phytophthora alni* Ultimately this publication will foster exchange and collaboration between those who develop knowledge and tools for threat assessment and those who are responsible for managing forests and rangelands

The Colorado Plateau II Charles Van Riper, David John Mattson, 2005 The publication of *The Colorado Plateau Cultural Biological and Physical Research* in 2004 marked a timely summation of current research in the Four Corners states This new volume derived from the seventh Biennial Conference on the Colorado Plateau in 2003 complements the previous book by focusing on the integration of science into resource management issues The 32 chapters range in content from measuring human impacts on cultural resources through grazing and the wildland urban interface issues to parameters of climate change on the Plateau The book also introduces economic perspectives by considering shifting patterns and regional disparities in the Colorado Plateau economy A series of chapters on mountain lions explores the human wildland interface These chapters deal with the entire spectrum of challenges associated with managing this large mammal species in Arizona and on the Colorado Plateau conveying a wealth of timely information of interest to wildlife managers and enthusiasts Another provocative set of chapters on biophysical resources explores the management of forest restoration from the micro scale all the way up to large scale GIS analyses of ponderosa pine ecosystems on the Colorado Plateau Given recent concerns for forest health in the wake of fires severe drought and bark beetle infestation these chapters will prove enlightening for forest service park service and land management professionals at both the federal and state level as well as general readers interested in how forest management practices will ultimately affect their recreation activities With broad coverage that touches on topics as diverse as movement patterns of rattlesnakes calculating watersheds and rescuing looted rockshelters this volume stands as a compendium of cutting edge research on the Colorado Plateau that offers a wealth of insights for many scholars **Proceedings**, 1999
