American Pottery And Porcelain Antique Hunters Guides:

Historical Archaeology of Gendered Lives Deborah Rotman, 2009-07-25 During the last half of the nineteenth century a number of social and economic factors converged that resulted in the rural village of Deerfield Massachusetts becoming almost entirely female This drastic shift in population presents a unique lens through which to study gender roles and social relations in the late nineteenth and early twentieth century The lessons gleaned from this case study will provide new insight to the study of gender relations throughout other historical periods as well Through an intensive examination of both historical and archaeological evidence the author presents a clear picture of the gendered social relations in Deerfield over the span of seventy years While gender relations in urban settings have been studied extensively this unique work provides the same level of examination to gender relations in a rural setting Likewise where previous studies have often focused only on relations between married men and women the unique case of Deerfield provides insight into the experiences of single women particularly widows and spinsters This work presents a unique contribution that will be essential for anyone studying the historical archaeology of gender or gender roles in the Victorian era and beyond [The Antique Hunter's Guide to Murder](#) C.L. Porcelain Analysis Howell G. M. Edwards, 2020-07-13 This book addresses the contributions made by analytical chemistry to the characterisation of 18th and early 19th Century English and Welsh porcelains commencing with the earliest reports of Sir Arthur Church and of Herbert Eccles and Bernard Rackham using chemical digestion techniques and concluding with the most recent instrumental experiments which together span more than a hundred years of study From the earliest experiments which required necessarily the sacrifice of significant portions of each specimen which may already have been damaged to the latest experiments which needed only microsampling or the non destructive interrogation of valuable perfect specimens a comprehensive survey is undertaken of more than twenty manufactories of quality porcelains The correlation is made between the quantitative elemental oxide determinations of the scanning electron microscopic diffraction and X-ray fluorescence data and the qualitative molecular spectroscopic Raman data to demonstrate their complementarity and use in the holistic forensic assessment of the origin of the fired porcelains this will form the groundwork for the adoption of analytical techniques for the attribution of unknown or questionable porcelains to their potential source factories The book will also examine the perception of what constitutes a porcelain and its definitions and examines the assignment of porcelains to types which currently employs the definitions of hard paste soft paste hybrid magnesian and bone china from the conclusions derived from the analytical data and a consideration of the raw materials employed in their manufacturing processes During the discussion of this analytical evidence several themes and protocols have been established for its utilisation in the potential identification of porcelains and several case studies undertaken for this purpose are cited The book will be of interest to analytical scientists to museum ceramics curators and to ceramics historians **Warman's Antiques and Collectibles Price Guide** Harry L.
