Gill,Robin Geiß,Heike Krieger,Rebecca Mignot-Mahdavi,2022-02-02 This volume of the Yearbook of International Humanitarian Law takes a close look at the role of so called expert manuals in the interpretation and development of the international law of armed conflict and connected branches of international law relating to military operations While these manuals can and do play an undoubtedly useful role their proliferation raises a number of questions What degree of authority do they have and how much weight should be given to the views expressed in them What is the methodology they employ and how effective is it in ensuring an as objective and impartial interpretation of the law as possible What is their place in the doctrine of sources While there is already a considerable body of literature addressing these and other relevant questions this volume aims to contribute further to this discussion with contributions by three experts involved in one or more of these manuals in one capacity or another Alongside these three contributions on this year s special theme the second part of the book comprises three chapters that address timely and relevant issues of International Humanitarian Law These range from starvation as a method of warfare to emerging technologies of warfare and also includes reflections on humanitarian assistance Lastly the volume concludes with the Year in Review describing the most important armed conflict related events and legal developments that took place in 2020 The Yearbook of International Humanitarian Law is a leading annual publication devoted to the study of international humanitarian law It provides a truly international forum for high quality peer reviewed academic articles focusing on this crucial branch of international law Distinguished by contemporary relevance the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars practitioners military

personnel civil servants diplomats human rights workers and students Manual of Definitive Surgical Trauma Care
Kenneth D Boffard, Jonathan White, 2024-06-07 Developed for the International Association for Trauma Surgery and Intensive
Care IATSI the Manual of Definitive Surgical Trauma Care 6e is ideal for training all surgeons and anaesthetists who
manage trauma on an infrequent basis The Manual is updated every 4 years and reflects the most recent developments in
patient management based on new evidence based information Its focus is on the importance of the multidisciplinary care of
the trauma surgical patient This sixth edition has evolved and the all important section on the Non Technical Skills which are
required has been expanded A significant number of the original guidelines in trauma have been archived as they are no
longer pertinent or have been superseded The increasing and occasionally harmful role of non operative management NOM
has been recognized The Military Environments and Austere Environments chapters have been substantially revised to
reflect current multinational combat experience and broadened to reflect modern asymmetrical conflicts and the increased
need for humanitarian intervention including military peacekeeping in which only one side wears a uniform Military weapons
are used in major cities against the civilian population More recently urban non military populations have been the targets
and victims of heavy military combat including use of ultra sophisticated weaponry Each situation carries its own spectrum of
injury and responsibility of care Including website access to a selection of videos which provide an anatomic overview of
surgical approaches this resource provides a gold standard educational and training resource to help prepare the relatively
fully trained surgeon to manage the difficult injuries that might present to a major trauma centre *Phlebotomy Essentials*
