American Sniper Xenophobia:

American Xenophobia and the Slav Immigrant Josephine Wtulich, 1994 *The Films of Clint Eastwood* Matt Wanat, Leonard Engel, 2018-05-15 The indefatigable Clint Eastwood the great old man of American film is still controversial after all these years Many of the critical essays in this collection focus on Eastwood's 2014 *American Sniper* a particularly controversial film and a devastating personal account of the horrors of war Additional essays within the collection address his films that deserve more recognition than they have received to date The chapters vary by topic and identify themes ranging from aging race and gender to uses of Western conventions and myth to the subtleties of quieter themes and stylistic choices in Eastwood's body of cinematic work As a collection these essays show that none of these themes account for Eastwood's entire vision which is multifaceted and often contradictory dramatizing complex issues in powerful character driven narratives

Origins of the Warfare State Carl Boggs, 2016-08-12 The post World War II emergence of a full blown state of perpetual war is arguably the most important feature of contemporary American politics This book examines the warfare state in terms of a broad ensemble of structures policies and ideologies permanent war economy national security state global expansion of military bases merger of state corporate and military power an imperial presidency the nuclear establishment and superpower ambitions Carl Boggs makes the argument that the Good War led to an authoritarian system that has expanded throughout the post war decades undermining liberal democratic institutions and values in the process He goes on to suggest that current American electoral politics show no sign of rolling back the warfare state and in fact may push it to a new threshold bordering on American fascism

Xenophobia, Nativism and Pan-Africanism in 21st Century Africa Sabella Ogbobode Abidde, Emmanuel Kasonde Matambo, 2021-12-14 This edited volume systematically analyzes the connection between xenophobia nativism and Pan Africanism It situates attacks on black Africans by fellow black Africans within the context of ideals such as Pan Africanism and Ubuntu which emphasize unity The book straddles a range of social science perspectives to explain why attacks on foreign nationals in Africa usually entail attacks on black foreign nationals Written by an international and interdisciplinary team of scholars the book is divided into four sections that each explain a different facet of this complicated relationship Section One discusses the history of colonialism and apartheid and their relationship to xenophobia Section Two critically evaluates Pan Africanism as a concept and as a practice in 21st century Africa Section Three presents case studies on xenophobia in contemporary Africa Section Four similarly discusses cases of nativism Addressing a complex issue in contemporary African politics this volume will be of use to students and scholars interested in African studies African politics human rights migration history law and development economics

Handbook of Racism, Xenophobia, and Populism Adebowale Akande, 2022-12-08 This handbook presents the roots of symbolic racism as partly in both anti black antagonism and non racial conservative attitudes and values representing a new form of racism independent of older racial and political attitudes By doing so it homes in on certain historical incidents and episodes

and presents a cogent analysis of anti black Jim Crowism anti people of color Black Latino Native Americans and prejudice that exists in the United States and around the world as a central tenet of racism The book exposes the reader to the nature and practice of stereotyping negative bias social categorization modern forms of racism immigration law empowerment racialized incarceration and police brutality in the American heartland It states that several centuries of white Americans negative socializing culture marked by widespread negative attitudes toward African Americans are not eradicated and are still rife Further the book provides a panoramic view of trends of racial discrimination and other negative and desperate challenges that Black Indigenous and People of Color face across the world Finally the volume examines xenophobia racism prejudice and stereotyping in different contexts including topics such as Covid 19 religion and racism information manipulation and populism The book therefore is a must read for students researchers and scholars of political science psychology history sociology communications media studies diplomatic studies and law in general as well as ethnic and racial studies American politics global affairs populism and discrimination in particular

Monstrous Fantasies Leila K. Norako, 2024-08-15 *Monstrous Fantasies* asks why medieval romances reimagining the crusades ending in a Christian victory circulated in England with such abundance after the 1291 Muslim reconquest of Acre the last of the Latin crusader states in the Holy Land and what these texts reveal about the cultural anxieties of late medieval England Leila K Norako highlights the impact that the Ottoman victory and subsequent massacre of Christian prisoners at the battle of Nicopolis in 1396 had on intensifying the popularity of what she calls recovery romance These two episodes inspired a sense of urgency over the fate of the Holy Land and of Latin Christendom itself resulting in the proliferation of romances in which crusading English kings like Richard I and anachronistic legends like King Arthur not only reconquered Jerusalem but committed genocidal violence against the Muslims These romances which as Norako argues also influenced Geoffrey Chaucer's *Canterbury Tales* conjure fantasies of an ascendant global Christendom by rehearsing acts of conquest and cultural annihilation that were impossible to realize in the late Middle Ages Emphasizing the tension in these texts between nostalgia and anticipation that fuels their narrative momentum *Monstrous Fantasies* also explores how the cultural desires for European and Christian hegemony that recovery romances versified were revived in the wake of the so called wars on terror in the twenty first century in such films as *Kingdom of Heaven* and *American Sniper*

White Supremacy and the American Media Sarah D. Nilsen, Sarah E. Turner, 2021-11-29 This volume examines the ways in which the media including film television social media and gaming has constructed and sustained a narrative of white supremacy that has entered mainstream American discourse With chapters by today's preeminent critical race scholars the book looks in particular at the ways media institutions have circulated white supremacist ideology across a wide range of platforms and texts that have had significant impact on shaping our current polarized and racialized social and political landscape Systematically scrutinizing every media platform this volume provides readers with an understanding of the ways in which media has provided institutional support for white supremacist ideology

and presents them with the means to examine and analyze the persistence of these narratives within our racial discourse thus offering the necessary knowledge to challenge and transform these racially divisive and destructive narratives White Supremacy and the American Media will be of interest not only to scholars working in critical race studies and popular culture in the United States but also to those working in the fields of Film and Television Studies Sociology Geography Art History Communication and Media Studies Cultural Studies American Studies Popular Culture and Media Studies

Age of Anger Pankaj Mishra, 2025-09-23 A New York Times Notable Book of 2017 Named a Best Book of the Year by Slate and NPR Longlisted for the Orwell Prize One of our most important public intellectuals reveals the hidden history of our current global crisis How can we explain the origins of the great wave of paranoid hatreds that seem inescapable in our close knit world from American shooters and ISIS to Donald Trump from a rise in vengeful nationalism across the world to racism and misogyny on social media In *Age of Anger* Pankaj Mishra answers our bewilderment by casting his gaze back to the eighteenth century before leading us to the present He shows that as the world became modern those who were unable to enjoy its promises of freedom stability and prosperity were increasingly susceptible to demagogues The many who came late to this new world or were left or pushed behind reacted in horrifyingly similar ways with intense hatred of invented enemies attempts to re create an imaginary golden age and self empowerment through spectacular violence It was from among the ranks of the disaffected that the militants of the nineteenth century arose angry young men who became cultural nationalists in Germany messianic revolutionaries in Russia

bellicose chauvinists in Italy and anarchist terrorists internationally Today just as then the wide embrace of mass politics and technology and the pursuit of wealth and individualism have cast many more billions adrift in a demoralized world uprooted from tradition but still far from modernity with the same terrible results Making startling connections and comparisons Age of Anger is a book of immense urgency and profound argument It is a history of our present predicament unlike any other

Islamophobia in Higher Education Shafiqah Ahmadi, Darnell Cole, 2023-07-03 While Islamophobia was present in our society before 9 11 it has become more pervasive in recent years This is evidenced by the current social and political climate hate speech and hate crimes directed at Muslims and the Supreme Court's upholding of Presidential Proclamation 645 that effectively bans Muslim immigration from coming to the U S What does this mean for Muslim students in college and indeed for institutions of higher education as they navigate law and policy on the one hand and adhere to their mission of achieving inclusive and equitable educational environments on the other Two thirds of Muslims in the U S are vexed with current policy and there has been an alarming increase in reports of bigotry and discrimination against them since the 2016 presidential elections The fear of Islam in general and Muslims specifically not only compels non Muslims to differentially treat Muslims but also trade some of their own civil rights and civil liberties under the guise of national security To address these issues institutions require a nuanced understanding of laws and policies that institutionalize Islamophobia and a greater understanding of the diverse college students that identify as Muslim This book fills what has been a dearth of research that explores the experiences and navigation of Muslim students in colleges and universities and addresses the even less studied domain of the experiences of Muslim students who hold multiple marginalized identities such as race ethnicity and LGBTQ status as well as the intersection of those identities that may create multiple burdens of oppression and discrimination This book begins by critically engaging with how current laws and policies institutionalize Islamophobia and affect the intersectionality and diversity within the Muslim community It includes multidisciplinary voices such as an international human rights attorney a civil rights attorney a criminal law attorney student affairs practitioners and research faculty whose work on this marginalized student population is traditionally not recognized within academic settings and brings the voices of female Muslim scholars to the fore Each chapter includes a critical analysis of the literature a legal analysis when

appropriate a set of recommendations for policy and practice and discussion questions **The Sacking of Fallujah** Ross Caputi, Richard Hil, Donna Mulhearn, 2019-08-30 The Iraqi city of Fallujah has become an epicenter of geopolitical conflict where foreign powers and non state actors have repeatedly waged war in residential neighborhoods with staggering humanitarian consequences The Sacking of Fallujah is the first comprehensive study of the three recent sieges of this city including those by the United States in 2004 and the Iraqi led operation to defeat ISIS in 2016 Unlike dominant military accounts that focus on American soldiers and U S leaders and perpetuate the myth that the United States liberated the city this book argues that Fallujah was destroyed by coalition forces leaving public health crises political destabilization and mass

civilian casualties in their wake This meticulously researched account cuts through the propaganda to uncover the lived experiences of Fallujans under siege and occupation and contextualizes these events within a broader history of U S policy in the Middle East Relying on testimony from Iraqi civilians the work of independent journalists and documentation from human rights organizations Ross Caputi Richard Hil and Donna Mulhearn place the experiences of Fallujah s residents at the center of this city s recent history

BOOK
JACKET **Crime and Punishment in America** David B. Wolcott,Tom Head,2010 From the first incident of petty theft to modern media piracy crime and punishment have been a part of every society However the structure and values of a

particular society shape both the incidences of crime and the punishment of criminals When the United States became an independent nation politicians and civilians began the process of deciding which systems of punishment were appropriate for dealing with crime a process that continues to this day Crime and Punishment in America examines the development of crime and punishment in the United States from the criminal justice practices of American Indians and the influence of colonists to the mistreatment of slaves as well as such current criminal issues as the response to international terrorism Fascism Old and New Carl Boggs, 2018-06-12 Deep historical trends suggest the United States could be moving toward a distinctly novel form of fascism embracing elements of the historical phenomenon as it appeared in such countries as Italy Germany Japan and Spain while departing in significant ways A twenty first century fascism would hardly be revolutionary or totalitarian as it would involve no dramatic break with the past following a logic of continuity and building on firmaments of entrenched power going back to World War II This new type of fascist regime would be driven by a tightening confluence of sectoral interests in American society corporate state military and cultural interests favoring oligarchy authoritarianism the warfare system and surveillance order within an expanding globalized matrix of power The dominant historical forces emphasized by such theorists as C Wright Mills The Power Elite and Sheldon Wolin Democracy Inc an important foundation of this book have grown stronger and more pervasive across the decades An integrated power structure has been fueled by new advances in technology a money saturated political system and neoliberal globalism bolstered by the spread of right wing populism that among other things has catapulted Donald Trump into the U S presidency In this book Carl Boggs explores new political and ideological terrain in systematically considering the prospects for a gradual development of fascism in contemporary American society and by extension elsewhere across the advanced industrial world He persuasively argues that modern fascistic trends arguably most visible in the U S demonstrate a closer affinity with Mussolini s Italy corporate state than with the more extreme Nazi German model of tyranny and genocide A very timely scholarly enterprise this book will be of interest to students of contemporary radical politics fascism more broadly US political history ideologies and party politics *U.S. Marines in Vietnam: The defining year, 1968* United States. Marine Corps. History and Museums Division, 1977 **The OSS and Ho Chi Minh** Dixee Bartholomew-Feis, 2006-05-12 Some will be shocked to find out that the United States and Ho Chi Minh our nemesis for much of the Vietnam War were once allies Indeed during the last year of World War II American spies in Indochina found themselves working closely with Ho Chi Minh and other anti colonial factions compelled by circumstances to fight together against the Japanese Dixee Bartholomew Feis reveals how this relationship emerged and operated and how it impacted Vietnam s struggle for independence The men of General William Donovan s newly formed Office of Strategic Services closely collaborated with communist groups in both Europe and Asia against the Axis enemies In Vietnam this meant that OSS officers worked with Ho Chi Minh and the Viet Minh whose ultimate aim was to rid the region of all imperialist powers not just the Japanese Ho for his part did whatever he could to encourage the OSS s negative view of the French who

were desperate to regain their colony Revealing details not previously known about their covert operations Bartholomew Feis chronicles the exploits of these allies as they developed their network of informants sabotaged the Japanese occupation s infrastructure conducted guerrilla operations and searched for downed American fliers and Allied POWs Although the OSS did not bring Ho Chi Minh to power Bartholomew Feis shows that its apparent support for the Viet Minh played a significant symbolic role in helping them fill the power vacuum left in the wake of Japan s surrender Her study also hints that had America continued to champion the anti colonials and their quest for independence rather than caving in to the French we might have been spared our long and very lethal war in Vietnam Based partly on interviews with surviving OSS agents who served in Vietnam Bartholomew Feis s engaging narrative and compelling insights speak to the yearnings of an oppressed people and remind us that history does indeed make strange bedfellows
