This book asks How can legal doctrine be turned into filmic art By legal doctrine Stanley Fish does not mean the sonorous abstractions that usually accompany the self presentation of law Justice Equity Equality Liberty Autonomy and the like Rather he has in mind the specific rules and procedures invoked and analyzed by courts on the way to declaring a decision lawyer client confidentiality the distinction between interdicted violence and the violence performed by the legal system the interplay of positive law and laws rooted in morality the difference between civilian law and military law the death penalty the admissibility of different forms of evidence In the movies he discusses these and other points of doctrine and procedure do not serve as a background occasionally visited to the substantive issues that drive the plot and provide the characters with choices they declare the plot and character is formed and tested in relationship to their demands Apparently technical matters are pressed until they occupy both foreground and background and become the movie s true subject If large abstract concepts emerge they emerge at the back end of doctrine and are in effect produced by doctrine These are not law themed movies they are movies about the unfolding of legal process **Thinking Through the Test A Study Guide for the**
