Among The Creationists Dispatches From The Anti Evolutionist Front Line:

Among the Creationists, 2015 **Among the Creationists** Jason Rosenhouse, 2012-04-02 Why does creationism universally reviled by scientists retain such popularity among the public Seeking answers mathematician Jason Rosenhouse became a regular attendee at creationist conferences and other gatherings He tells his story through anecdotes personal reflections and scientific discussion thereby painting a more realistic and human picture of modern creationism **Science and Christianity** J. B. Stump, 2016-10-17 Science and Christianity is an accessible engaging introduction to topics at the intersection of science and Christian theology A philosophically orientated treatment that introduces the relationship of science to Christianity and explores to what extent the findings of science affect traditional Christian theology Addresses important theological topics in light of contemporary science including divine action the problem of natural evil and eschatology Historically oriented chapters and chapters covering methodological principles for both science and theology provide the reader with a strong foundational understanding of the issues Includes feature boxes highlighting quotations biographies of major scientists and theologians key terms and other helpful information Issues are presented as fairly and objectively as possible with strengths and weaknesses of particular interpretations fully discussed **The Failures of Mathematical Anti-Evolutionism** Jason Rosenhouse, 2022-05-12 Anti scientific misinformation has become a serious problem on many fronts including vaccinations and climate change One of these fronts is the persistence of anti evolutionism which has recently been given a superficially professional gloss in the form of the intelligent design movement Far from solely being of interest to researchers in biology anti evolutionism must be recognized as part of a broader campaign with a conservative religious and political agenda Much of the rhetorical effectiveness of anti evolutionism comes from its reliance on seemingly precise mathematical arguments This book the first of its kind to be written by a mathematician discusses and refutes these arguments Along the way it also clarifies common misconceptions about both biology and mathematics Both lay audiences and professionals will find the book to be accessible and informative **Righting America at the Creation Museum** Susan L. Trollinger, William Vance Trollinger, 2016-05-15 In *Righting America at the Creation Museum* Susan L. Trollinger and William Vance Trollinger Jr take readers on a fascinating tour of the museum The Trollingers vividly describe and analyze its vast array of exhibits placards dioramas and videos from the Culture in Crisis Room where videos depict sinful characters watching pornography or considering abortion to the National Selection Room where placards argue that natural selection doesn't lead to evolution The book also traces the rise of creationism and the history of fundamentalism in America

Handbook of the History and Philosophy of Mathematical Practice Bharath Sriraman, 2024-04-26 The purpose of this unique handbook is to examine the transformation of the philosophy of mathematics from its origins in the history of mathematical practice to the present It aims to synthesize what is known and what has unfolded so far as well as to explore directions in which the study of the philosophy of mathematics as evident in increasingly diverse mathematical practices is

headed Each section offers insights into the origins debates methodologies and newer perspectives that characterize the discipline today Contributions are written by scholars from mathematics history and philosophy as well as other disciplines that have contributed to the richness of perspectives abundant in the study of philosophy today who describe various mathematical practices throughout different time periods and contrast them with the development of philosophy Editorial Advisory Board Andrew Aberdein Florida Institute of Technology USA Jody Azzouni Tufts University USA Ot vio Bueno University of Miami USA William Byers Concordia University Canada Carlo Cellucci Sapienza University of Rome Italy Chandler Davis University of Toronto Canada 1926 2022 Paul Ernest University of Exeter UK Michele Friend George Washington University USA Reuben Hersch University of New Mexico USA 1927 2020 Kyeong Hwa Lee Seoul National University South Korea Yuri Manin Max Planck Institute for Mathematics Germany 1937 2023 Athanase Papadopoulos University of Strasbourg France Ulf Persson Chalmers University of Technology Sweden John Stillwell University of San Francisco USA David Tall University of Warwick UK 1941 2024 This book with its exciting depth and breadth illuminates us about the history practice and the very language of our subject about the role of abstraction of proof and manners of proof about the interplay of fundamental intuitions about algebraic thought in contrast to geometric thought The richness of mathematics and the philosophy encompassing it is splendidly exhibited over the wide range of time these volumes cover from deep platonic and neoplatonic influences to the most current experimental approaches Enriched as well with vivid biographies and brilliant personal essays written by and about people who play an important role in our tradition this extraordinary collection of essays is fittingly dedicated to the memory of Chandler Davis Reuben Hersch and Yuri Manin Barry Mazur Gerhard Gade University Professor Harvard University This encyclopedic Handbook will be a treat for all those interested in the history and philosophy of mathematics Whether one is interested in individuals from Pythagoras through Newton and Leibniz to Grothendieck fields geometry algebra number theory logic probability analysis viewpoints from Platonism to Intuitionism or methods proof experiment computer assistance the reader will find a multitude of chapters that inform and fascinate John Stillwell Emeritus Professor of Mathematics University of San Francisco Recipient of the 2005 Chauvenet Prize Dedicating a volume to the memory of three mathematicians Chandler Davis Reuben Hersch and Yuri Manin who went out of their way to show to a broader audience that mathematics is more than what they might think is an excellent initiative Gathering authors coming from many different backgrounds but who are very strict about the essays they write was successfully achieved by the editor in chief The result a great source of potential inspiration Jean Pierre Bourguignon Nicolaas Kuiper Honorary Professor at the Institut des Hautes tudes Scientifiques American Stew Stephen James, 2015-11-25 America is in desperate need of new ideas In the richest most powerful nation in history Americans are profoundly troubled The level of fear anger and dissatisfaction with life in 21st century America is reflected in our many social ills and questionable national behavior exacerbated by the general lack of insight to explain what is wrong Where will

the new ideas come from Cultural critic Stephen James offers a fresh perspective on the problems that plague America as well as much needed solutions By applying modern social science and interdisciplinary thought to contemporary American issues James offers a sweeping and relevant analysis of a culture that has become toxic for its members James proposes that our drive to become the most powerful nation on earth can be understood in terms of the theories of Ernest Becker Becker writes that all human beings dread death and all cultures have developed measures to deny death and create opportunities for immortality Unfortunately our culture offers an inadequate antidote to death anxiety pushing us to success as a nation while leaving us anxious driven and unhappy Our own culture has evolved to oppress and exploit us It is in a word toxic

Designer Science C.W. Howell, 2025-09-09 The history of the intelligent design movement and its legacy Anti science rhetoric in contemporary American politics has become a preoccupying concern for science educators politicians and government employees But why are so many Americans primed to distrust the scientific establishment This book offers a history of the intelligent design movement analyzing the links between the legal contests over United States high school curricula and a radical rejection of contemporary scientific practice Though closely associated with creationism the intelligent design movement has its own story It is related to but different from the various forms of creationism and it has a unique background in natural theology and conservative politics Typically perceived today as defunct after its public defeat in the 2005 Kitzmiller v Dover court case intelligent design did not disappear and this book makes the case that its legacy is far more significant than we might think Though it failed to achieve its goal of remaking contemporary science intelligent design played a crucial role in legitimizing a mindset of suspicion which has taken hold in discussions of climate change COVID 19 and vaccine hesitancy In today's post truth moment where scientific expertise has become increasingly rejected the volume showcases that the intelligent design movement's most lasting effects may not be in its challenge to evolution but in the way it influenced the public's understanding of science and scientists Designer Science makes the case that we are all grappling today with intelligent design's legacy and it offers a history of how we got here

Creationism in Europe Stefaan Blancke, Hans Henrik Hjermitsev, Peter C Kjærgaard, 2014-12-15 A history of Creationism in Europe from its reception to its rise and the response that has followed For decades the creationist movement was primarily situated in the United States Then in the 1970s American creationists found their ideas welcomed abroad first in Australia and New Zealand then Korea India South Africa Brazil and elsewhere including Europe where creationism plays an expanding role in public debates about science policy and school curricula In this the first comprehensive history of creationism in Europe leading historians philosophers and scientists narrate the rise of and response to scientific creationism creation science intelligent design and organized antievolutionism in countries and religions throughout Europe Providing a map of creationism in Europe the authors chart the history of creationist activities and strategies Over the past forty years creationism has spread swiftly among European Catholics Protestants Jews Hindus and Muslims even as anti creationists sought to halt it Anti evolution

messages gained such widespread approval in fact that in 2007 the Parliamentary Assembly of the Council of Europe passed a resolution advising member states to defend and promote scientific knowledge and firmly oppose the teaching of creationism as a scientific discipline on an equal footing with the theory of evolution Creationism in Europe offers an introduction to the cultural history of modern Europe the variety of worldviews in Europe and the interplay of science and religion in a global context It will be of interest to students and scholars in the history and philosophy of science religious studies and evolutionary theory as well as policy makers and educators concerned about the spread of creationism in our time

Creating the Creation Museum Kathleen C. Oberlin, 2020-12-15 Investigates how the Christian fundamentalist movement brings Creationism into the mainstream through a Kentucky museum In *Creating the Creation Museum* Kathleen C Oberlin shows us how the largest Creationist organization Answers in Genesis AiG built a museum which has had over three million visitors to make its movement mainstream She takes us behind the scenes vividly bringing the museum to life by detailing its infamous exhibits on human fossils dinosaur remains and more Drawing on over three years of research at the Creation Museum where she was granted rare access to AiG s leadership Oberlin examines how the museum convincingly reframes scientific facts such as modeling itself on traditional natural history museums Through a unique historical dataset of over 1 000 internal documents from creationist organizations and an analysis of media coverage *Creating the Creation Museum* shows how the museum works as a site of social movement activity and a place to contest the secular mainstream Oberlin ultimately argues that the Creation Museum has real world consequences in today s polarized era

[The Oxford Handbook of the Bible in Orthodox Christianity](#) Eugen J. Pentiuc, 2022 *The Oxford Handbook of the Bible in Orthodox Christianity* is designed to demonstrate how Orthodox Christian namely Eastern Greek Slavic Romanian Antiochene and Oriental Syriac Coptic Ethiopian and Armenian communities have received shaped and interpreted the Christian Bible The basic hallmark of Orthodox Christianity a unique mix of strictness tradition and flexibility innovation modernity is detectable at the level of text canon Scripture Tradition relationship and mostly in the area of biblical hermeneutics

The Fall and Hypertime Hud Hudson, 2014 Frequently alleged irreconcilable conflicts between science and religion are instead misdescribed battles concerning negotiable philosophical assumptions conflicts between metaphysics and metaphysics Hud Hudson provides a two stage illustration of this claim with respect to the putative inconsistency between the doctrines of The Fall and Original Sin and the deliverances of contemporary science The tension in question emerges through a study of the many forms the religious doctrines have assumed over the centuries and through a review of some well established scientific lessons on the origin and history of the universe and of human persons The first stage After surveying various paths of retreat which involve reinterpreting and impoverishing Original Sin and minimizing and dehistoricizing The Fall one version of moderate realism about the doctrines is articulated critically evaluated and found both consistent with contemporary science and suitable to play a crucial role in the theist s confrontation with the Problem of Evil The second stage Recent work

in the philosophy of time and in the philosophy of religion provides intriguing support for a Hypertime Hypothesis a species of multiverse hypothesis distinctive for positing a series of successive hypertimes each of which hosts a spacetime block After arguing that the Hypertime Hypothesis is a genuine epistemic possibility and critically discussing its impact on a number of debates in metaphysics and philosophy of religion Hudson reveals a strategy for unabashed extreme literalism concerning The Fall and Original Sin which nevertheless has the extraordinary and delightful feature of being thoroughly consistent with the reigning scientific orthodoxy

Jesusland Joelle Kidd, 2025-08-12 An empathetic funny and sharply critical collection of essays exploring the Christian pop culture of the 2000s and its influence on today's politically powerful evangelicalism Braiding relentless curiosity sharp argument and wry comedy Kidd offers a lucid critique of evangelicalism that is always attentive to and respectful of the mysteries of faith This is cultural criticism at its finest I'll read anything Kidd writes

Tajja Isen author of *Some of My Best Friends* In 1999 after three years of secular living in Eastern Europe Joelle Kidd moved back to Canada and was enrolled in the strange world of an evangelical Christian school Immediately she found herself in a strange world of upbeat Christian pop music purity education and desperately trendy Bible redesigns trying to make sense of this unfamiliar preteen cultural landscape In *Jesusland* Joelle writes about the Christian pop culture that she was suddenly immersed in from perky girl bands to modest styling tips and draws connections between this evangelical subculture and the mainstream a tense yet reciprocal relationship that both disavows the secular while employing its media markers But none of this was just about catchy songs every abstinence quiz in a teen magazine was laying the foundation for what would become a conservative Christian movement that threatens women's healthcare attacks queer and trans rights and drives present day political division Through nine incisive honest and emotional essays *Jesusland* exposes the pop cultural machinations of evangelicalism while giving voice to aughts era Christian children and teens who are now adults looking back at their time measuring the length of their skirts and asking each other if their celebrity crush was Christian enough With care and generosity *Jesusland* shows us how the conservative evangelical movement became the global power it is today by exploring the pop culture that both reflected and shaped an entire generation of young people

origami roulette wheels and even the game of Trouble can teach about math Essays contain new results and the contributors include short expositions on their topic s background providing a framework for understanding the relationship between serious mathematics and recreational games Mathematical areas explored include combinatorics logic graph theory linear algebra geometry topology computer science operations research probability game theory and music theory Investigating an eclectic mix of games and puzzles The Mathematics of Various Entertaining Subjects is sure to entertain challenge and inspire academic mathematicians and avid math enthusiasts alike **Pray the Gay Away** Bernadette Barton,2014-08-22

2013 Finalist for the Lambda Literary Awards LGBT Studies category Barton argues that conventional Southern manners and religious institutions provide a foundation for homophobia in the Bible Belt In the Bible Belt it s common to see bumper stickers that claim One Man One Woman Marriage church billboards that command one to Get right with Jesus letters to the editor comparing gay marriage to marrying one s dog and nightly news about homophobic attacks from the Family Foundation While some areas of the Unites States have made tremendous progress in securing rights for gay people Bible Belt states lag behind Not only do most Bible Belt gays lack domestic partner benefits lesbians and gay men can still be fired from some places of employment in many regions of the Bible Belt for being a homosexual In Pray the Gay Away Bernadette Barton argues that conventions of small town life rules which govern Southern manners and the power wielded by Christian institutions serve as a foundation for both passive and active homophobia in the Bible Belt She explores how conservative Christian ideology reproduces homophobic attitudes and shares how Bible Belt gays negotiate these attitudes in their daily lives Drawing on the remarkable stories of Bible Belt gays Barton brings to the fore their thoughts experiences and hard won insights to explore the front lines of our national culture war over marriage family hate crimes and equal rights Pray the Gay Away illuminates their lives as both foot soldiers and casualties in the battle for gay rights **The Debaters of This Age**

Steven H Propp,2019-02-05 It is June 2018 as an unusual group of scholars professors lecturers and students gather in a California hotel They are all attendees of an Apologetics conference intended to join qualified representatives of Christian Deist and Atheist thought for a two week no holds barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to Apologetics Catholicism liberal Christianity and Deism are also well supported The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students As the participants argue over controversial issues such as cosmology evolution The Bible historical evidence for Jesus the resurrection biblical prophecies and the problem of evil intellectual fireworks result But what will result when such a volatile and eclectic group is placed face to face for more than two weeks The Debaters of this Age is the tale of what happens inside a California hotel in 2018 when a group of intellectuals gather to vigorously discuss the religious issues of our time **Inside Evangelicalism** Mark Ward Sr.,2024-12-15 In Inside Evangelicalism Mark Ward

Sr combines ethnographic autoethnographic and sociolinguistic research to identify and analyze white evangelicals distinctive culture and speech code from a perspective rooted deeply in both communication studies and the evangelical community The Bible emerges as evangelicalism s one dominant symbol that unifies all meaning and divides the world into a cosmic dualism between secular humanism and an all encompassing biblical worldview The associated language of literalism drives evangelical culture cognition and identity creating a system of ordered social relations enacted through patriarchy anti intellectualism authoritarianism and white Christian nationalism Ward s positionality as both an ethnographer of religious communication who has observed white evangelical culture for two decades and a self identified evangelical for four decades makes him uniquely qualified to cast an insider s critical yet balanced eye on conservative white Christian culture Inside Evangelicalism complements existing scholarship within anthropology and sociology where evangelicalism has been studied in conjunction with the rise of the Religious Right while contributing unique insights from religious communication studies The book is also a landmark in its own right a work that demonstrates the productive complementarity of ethnographic and autoethnographic research and the first study to describe evangelical culture through the ethnography of its communication
