Marina Carr and Greek Tragedy Salomé Paul,2024-03-26 Marina Carr and Greek Tragedy examines the feminist transposition of Greek tragedy in the theatre of the contemporary Irish dramatist Marina Carr Through a comparison of the plays based on classical drama with their ancient models it investigates Carr's transformation not only of the narrative but also of the form of Greek tragedy As a religious and political institution of the 5th century Athenian democracy tragedy endorsed the sexist oppression of women Indeed the construction of female characters in Greek tragedy was entirely disconnected from the experience of womanhood lived by real women in order to embody the patriarchal values of Athenian democracy Whether praised for their passivity or demonized for showing unnatural agency and subjectivity women in Greek tragedy were conceived to re assert the supremacy of men Carr's theatre stands in stark opposition to such a purpose Focusing on women's struggle to achieve agency and subjectivity in a male dominated world her plays show the diversity of experiencing womanhood and sexist oppression in the Republic of Ireland and the Western societies more generally Yet Carr's enduring conversation with the classics in her theatre demonstrates the feminist willingness to alter the founding myths of Western civilisation to advocate for gender equality

Hunting for Justice Kalliopi Nikolopoulou, 2025-03-01 A purely political understanding of justice does not convey the cosmological origins of the ancient conception of justice Dik in Aeschylus's *Oresteia* Drawing from Walter Burkert's anthropology of the hunt in *Homo Necans* which articulates an ancient cosmology and implies a theory of tragic seriousness that parallels Aristotle's naturalist interpretation of tragedy *Hunting for Justice* argues that justice is rooted in predation as exemplified by the Furies Although the *Oresteia* has been read as the passage from the violence of nature to civic justice Kalliopi Nikolopoulou offers an original interpretation of the trilogy the ending of the feud is less an instance of political deliberation as Hegel maintained and more an instance of nature's necessary halting of its own destructiveness for life to resume Extending to contemporary contexts she argues that nature's arbitrariness continues to underpin our notions of justice albeit in a distorted form In this sense *Hunting for Justice* offers a critique of the political infinitization and idealization of justice that permeates our current discourses of activism and social justice

Stoicism and the Gospel of John Fergus J. King, 2025-03-17

[The Biblical Tour of Hell](#) Matthew Ryan Hauge, 2013-08-15 It is difficult to underestimate the significance of the story of the Rich Man and Lazarus in Luke 16 19 31 within the biblical tradition Although hell occupies a prominent position in popular Christian rhetoric today it plays a relatively minor role in the Christian canon The most important biblical texts that explicitly describe the fate of the dead are in the Synoptic Gospels Yet among these passages only the Lukan tradition is intent on explicitly describing the abode of the dead it is the only biblical tour of hell Hauge examines the story of the Rich Man and

Lazarus in Luke 16 19 31 uniquely the only parable that is set within a supernatural context The parables characteristically feature concrete realities of first century Mediterranean life but the majority of Luke 16 19 31 is narrated from the perspective of the tormented dead This volume demonstrates that the distinctive features of the story of the Rich Man and Lazarus are the result of a strategic imitation creative transformation and Christian transvaluation of the descent of Odysseus into the house of Hades in Odyssey Book 11 the literary model par excellence of postmortem revelation in antiquity

Kanellou, 2025-03-19 Despite its small size epigram attracted some of the best poetic talents of antiquity exerting a strong influence on Latin literature and continuing to inspire poetic creativity until today During the last decades research on epigram flourished to an unprecedented degree Greek Erotic Epigram A Diachronic Approach draws on and engages with this renewed scholarly interest in the briefest of the ancient Greek genres By shifting focus away from a particular poet collection and the epigrammatic production of a specific historical period it explores diachronically erotic epigram from various interpretative angles treating the surviving material as an organic whole Four motifs drive diachronic research encompassing a wide chronological span from the Hellenistic up until the early Byzantine era the lamp sea and nautical imagery the beloved's comparison to Aphrodite and Eros and the Erotes By analysing how these motifs were shaped and adapted over the centuries the book illustrates the epigrammatists changing attitudes towards the material inherited from

earlier poetic tradition and leads to a deeper appreciation of the narrative techniques adopted by them as well as of the inner dynamics of poetic imitation and competition. Moreover, the scrutiny of the motifs within wider literary and historical backgrounds reveals the influence exerted by different cultural and sociopolitical environments on the epigrammatists' work in the course of centuries. The book offers a model for the type of diachronic research that can be applied to other epigrammatic subgenres and other motifs and to Latin epigram.

Experiencing Childhood in Ancient Athens Emma Gooch, 2025-03-26
Experiencing Childhood in Ancient Athens uses literary sources and archaeological and iconographic evidence to investigate children's identities throughout the ninth to fourth centuries BCE in Athens and Attica, the city's surrounding hinterland. The book presents detailed analyses of mentions of children in ancient sources, scenes showing children on Geometric black figure red figure and white ground painted pottery and carved marble grave markers as well as child burials. Examples of each are thoroughly catalogued and extensively illustrated. The analyses conducted identify material cultures of children and childhood objects used by children themselves and objects used when caring for children that can be used to investigate children's identities in houses and in society across the extended life course, so in life and after death. The research presented compares the range of objects associated with children at different times and in different contexts to suggest how children's identities and how Athenian society conceptualised them and childhood changed throughout the Geometric, Archaic and Classical periods as the Greek polis system was established and Athenian democracy developed. The evidence considered suggests childhood became an increasingly distinct stage in the ancient Greek life course throughout the period 900 to 323 BCE, but it also demonstrates that children did not necessarily become more prominent in Attic society as a consequence. It suggests that children's identities and the symbolism of them in many ways remained constant, with children always prized for the stability and continuity they represented but appreciated for their role in perpetuating society with increasing frequency over time and more when society was under threat. Ultimately, the author suggests major socio-political change impacted children's experiences of childhood and what it meant to be a child in ancient Athens, primarily because of how it affected the agency of their family members, especially the women responsible for caring for them. Warfare and political transformation concentrated in the Classical period gave women more agency to influence the range of material culture made for children, making characterisations of them in art at once more realistic and more common, even when other evidence suggests children were in fact probably less visible in society.

A Psychoanalytic Exploration of Female to Male Transition Serena Heller, 2024-12-27
 Drawing on theory from a range of schools of psychoanalytic thought, this timely book addresses and explores the phenomenon of the increasing number of people who were assigned female at birth and now

identify as male and what might underly the cultural pull to remove femaleness from self and body In A Psychoanalytic Exploration of Female to Male Transition Serena Heller considers how early recognition of the difference between the sexes might evoke a melancholic attitude towards one's anatomy as being one sex and not the other She considers the ramifications of the developing sexual bodies of young women at a time when they are having great difficulty accepting them addressing the complexity of female sexual development in relation to sexual aim and object and how manifestations of early bisexuality can resurface during puberty Focusing solely on the experience of female to male transition rather than making broad assumptions of a universal trans experience Heller provides a depth of theoretical analysis of biological and psychic aspects of female sexuality and trans gender identifications Empathetic in its approach and thorough in its conceptualisation this volume is a vital resource for psychodynamic and psychoanalytic psychotherapists working directly with trans patients and with those experiencing gender dysphoria and issues of sexual identity The book assumes no prior expertise in analytic thought and is designed to help mental health practitioners students and researchers engaged in queer studies gender studies and the intersection of psychoanalytic thought and gender identity

Pursuit of Perfection Seth M. Simisi, 2016-11-01 Pursuit of Perfection explores the significance of the perfection motif in the Epistle to the Hebrews It addresses the controversial interpretation of teleios perfection in Hebrews where this notion is so central to the argument of the book The investigation examines the meaning of perfection in an attempt to discover its significance on Hebrews theology The need for the study is the lack of adequate treatment of the subject in the last three decades The discussion focuses on the precise meaning to be attached to the notion of perfection and its significance for Hebrews interpretation Through an exploration of major interpretative approaches to the notion of perfection and its usages in classical world Second Temple Judaism and New Testament literature especially Hebrews The author argues that the notion of perfection has an eschatological significance and is linked to better provisions of the new covenant which guarantee believers salvation and eternal inheritance The author sums up his argument that the call to pursue the goal of perfection is a call for commitment to the gospel message as Christians of all ages follow the example of the Christ the one who endured suffering of the cross and its despised shame in order to bring many followers to their future eternal glory
