Listen to the artists of the Brazilian Northeast Their work they say comes of continuity and creativity Continuity runs along lines of learning toward social coherence Creativity brings challenges and deep personal satisfaction What they say and do in Brazil aligns with ethnographic evidence from New Mexico and North Carolina from Ireland Portugal and Italy from Nigeria Turkey India and Bangladesh from China and Japan This book is about that about folk art as a sign of human unity *Theory of Philosophical Consciencism* Dompere, Kofi Kissi, 2017-09-24 In the Theory of Philosophical Consciencism Professor Dompere establishes how Nkrumah used the theory of categorical conversion housing the necessary conditions of transformation to design strategies for creating the sufficient conditions for socio political transformations The theory of Philosophical Consciencism is about the institutionally destruction creation process for socio political transformation The theory shows the scientific contributions of Nkrumah s thinking to the solution of the transformation problem in science and

its application to social systemicity where Nkrumah's analytical weapons were drawn from African conceptual system. The theory is developed as logico-mathematical foundations that guide the internal management of the command control decision choice systems for creative destruction of socio-political varieties in transformations through the development of qualitative mathematics making possible the construct of qualitative equations of motion for connecting varieties in qualitative transfers. The qualitative equations of motion through the Philosophical Consciencism constitute the sufficient conditions for transformations. The theory links rationality intentionality experiential information structure defective deceptive information structures in the control dynamic games of power and dominance by the duals and poles under the principle of opposites with relational continua and unity relative to decision choice systems that induce negation negation transformations where paths are established by the history of success failure outcomes in the socially control dynamic zero sum games between the duals in any duality and between the poles of any actual potential polarity. The main premise of the monograph is that there exists a set of sufficient conditions in support of the necessary conditions for internal transformation of socio-natural varieties. The theory is useful in understanding developmental processes and multi-polar power zero sum games for global dominance. The necessary conditions constitute the natural necessity that constrains cognitive freedom. The sufficient conditions constitute cognitive freedom that must overcome the necessity in socio-natural systems dynamics. Had this conceptual system been familiar to African leaders the African transformation from colonialism to complete emancipation rather than neocolonialism would have been increasingly successful. This holds for those seeking triumph over injustices oppression imperialism and social change in all systems.

Sacred Art Henry Glassie, Pravina Shukla, 2017-11-20. Sacred art flourishes today in northeastern Brazil where European and African religious traditions have intersected for centuries. Professional artists create images of both the Catholic saints and the African gods of Candomblé to meet the needs of a vast market of believers and art collectors. Over the past decade Henry Glassie and Pravina Shukla conducted intense research in the states of Bahia and Pernambuco interviewing the artists at length photographing their processes and products attending Catholic and Candomblé services and finally creating a comprehensive book governed by a deep understanding of the artists themselves. Beginning with Edival Rosas who carves monumental baroque statues for churches and ending with Francisco Santos who paints images of the gods for Candomblé terreiros the book displays the diversity of Brazilian artistic techniques and religious interpretations. Glassie and Shukla enhance their findings with comparisons from art and religion in the United States Nigeria Portugal Turkey India Bangladesh and Japan and gesture toward an encompassing theology of power and beauty that brings unity into the spiritual art of the world.
