A Separate Reality:

Separate Reality Carlos Castaneda, 2013-03-26 One can't exaggerate the significance of what Castaneda has done. The New York Times In this captivating work Carlos Castaneda shares the story of how he returns to don Juan to resume the journey necessary to become a man of knowledge venturing into the world of mystical sensation and perception to see beyond the surface realities of life. As the second volume in the intriguing twelve part series this book invites you to experience a reality beyond the ordinary. Delve into the profound teachings of the wise Yaqui Indian spiritual leader don Juan Matus as anthropologist Carlos Castaneda recounts his incredible apprenticeship. Through the exploration of hallucinogenic substances and ancient wisdom Castaneda challenges conventional perceptions leading readers into a deeply thought provoking journey of self discovery and consciousness exploration. Combining elements of anthropology and mysticism this masterpiece continues to captivate, inspire and influence those seeking deeper understanding and enlightenment. **A**

The Dyophysite Christology of Cyril of Alexandria Hans van Loon, 2009-04-07 The formula one incarnate nature of the Word of God has often been depicted as a summary of Cyril of Alexandria's ca 378-444 christology. But no systematic study into his christological works has been published. Besides there is no consensus regarding the meaning of the key terms and expressions in these works. This book addresses this deficiency by an integral investigation of the archbishop's christological writings during the first two years of the Nestorian controversy and comes to the conclusion that his christology is basically dyophysite. This reappraisal of his christology bears on the understanding of the Council of Chalcedon and on contemporary ecumenical relations, especially those between the Eastern Orthodox and the Oriental Orthodox. *A Different Future - An Introduction to an Esoteric Form of Raja Yoga* Robert Martin Duff, 2006-02-01 An introduction to an esoteric form of raja yoga which defines yoga as the science and art of developing human consciousness. It combines techniques for the body, mind and feeling and adds healing techniques to developmental ones. Apart from a new synthesis of traditional ideas, original material addresses why permanent liberation is so difficult and presents a major development in Harmonic Matrix Cosmology based on triads and octaves. Also the appendix contains a detailed presentation of Non-Thing Theory, a model for the application and implementation of a radical discovery concerning the true nature of negative phenomena. This discovery validates the all positive observations of states of ecstasy while reconciling them with the common sense observations of negatives.

Reality Transurfing Vadim Zeland, 2011 *Transurfing Reality* was one of the top non-fiction bestsellers in the world in 2005 and 2006. Unknown till now in the West, the series has sold over 1 300 000 copies in Russia in three years. This translation by Natasha Micharina describes a new way of looking at reality, indeed of creating it. It provides a scientific explanation of the laws that help you do this, building up a scientific model speaking in detail about particular rules to follow and giving important how-to tips illustrated with examples. The author introduces a system of specific terms, notions and metaphors.

which together make a truly convincing thought provoking theory of creating your own life You are ruled by circumstances and it will always be like that until you learn how to manage your reality says the author Bringing together the cutting edge of modern science and philosophical teaching the book s style is popular scientific metaphorical and conversational Books in the series Reality Transurfing 1 The Space of Variations Reality Transurfing 2 A Rustle of Morning Stars Reality Transurfing 3 Forward to the Past Reality Transurfing 4 Ruling Reality Reality Transurfing 5 Apples Fall to the Sky **The Universe Next Door** James W. Accountability Now! Mark Sasscer with Maureen McNeill,2010-03-04 In an ever changing world it is important to remember that we can control our reactions and responses to other people and the situations that arise in life Accountability Now shares ways we can all learn to become more resilient in the face of change find greater happiness and create an environment where others can learn to do the same Mark Sasscer founder and CEO of an international leadership consulting and training firm relies on ten principles of personal leadership in order to teach others to take ownership for choices decisions outcomes and consequences While exploring these ten principles that encourage others to be authentic model high performance initiate courageous conversations and mentor others Sasscer shares not only the stories of over forty leaders who have faced adversity and change but also details his own personal journey as he coaches others on how to improve their own outcomes in life With a focus on building healthy relationships where expectations are realistic Sasscer guides leaders of all types on a path to creating the kind of self awareness that results in a successful professional career peace of mind and ultimately personal contentment

International Crimes and Other Gross Human Rights Violations Alette Smeulers,Fred Grünfeld,2011-07-27 International crimes such as genocide crimes against humanity and war crimes as well as other gross human rights violations are manifestations of collective violence which endanger international peace and security and warrant our full attention It however takes a multi and interdisciplinary approach to understand the true nature and causes of this type of criminality The aim of this book is to take such an approach and to provide university students scholars professionals and practitioners within the field with the knowledge they need The legal background and particularities of international crimes the social context in which these crimes are committed as well as the perpetrators and bystanders thereof are studied Within the book many case studies are presented as illustrations

The Prevention of Torture Danielle Celermajer,2018-09-06 Moving past theoretical critiques of human rights this book considers how we might translate situational analyses of torture into effective strategies for preventing it Mystery of the Universe Rudolf Steiner,2013-11-06 The ancient mystery saying called on the human being to Know Yourself Rudolf Steiner explains that this maxim is not asking us to study subjectively our own personal character but rather to come to a knowledge of our true

archetypal human nature and with it the position we occupy in the universe In these eloquent lectures formerly published as *Man Hieroglyph of the Universe* Rudolf Steiner speaks of the human being as the model of creation the primary focus of the cosmos In an extensive exposition he talks of the constellation of cosmic forces zodiac and planets amongst which we find ourselves situated Only a true knowledge of our human nature and the spiritual forces which surround us the microcosm within the greater macrocosm can enable humanity to progress he says This book is an important contribution to that goal the development of a contemporary spiritual science of the human being [The Chicago Guide to Communicating Science](#)

Scott L. Montgomery, 2017-02-21 This book is a comprehensive guide to scientific communication that has been used widely in courses and workshops as well as by individual scientists and other professionals since its first publication in 2002 This revision accounts for the many ways in which the globalization of research and the changing media landscape have altered scientific communication over the past decade With an increased focus throughout on how research is communicated in industry government and non profit centers as well as in academia it now covers such topics as the opportunities and perils of online publishing the need for translation skills and the communication of scientific findings to the broader world both directly through speaking and writing and through the filter of traditional and social media It also offers advice for those whose research concerns controversial issues such as climate change and emerging viruses in which clear and accurate communication is especially critical to the scientific community and the wider world
