Islam and Christianity in Medieval Anatolia A.C.S. Peacock, Bruno De Nicola, 2016-03-09 Islam and Christianity in Medieval Anatolia offers a comparative approach to understanding the spread of Islam and Muslim culture in medieval Anatolia It aims to reassess work in the field since the 1971 classic by Speros Vryonis *The Decline of Hellenism in Asia Minor and the Process of Islamization* which treats the process of transformation from a Byzantinist perspective Since then research has offered insights into individual aspects of Christian Muslim relations but no overview has appeared Moreover very few scholars of Islamic studies have examined the problem meaning evidence in Arabic Persian and Turkish has been somewhat neglected at the expense of Christian sources and too little attention has been given to material culture The essays in this volume examine the interaction between Christianity and Islam in medieval Anatolia through three distinct angles opening with a substantial introduction by the editors to explain both the research background and the historical problem making the work accessible to scholars from other fields The first group of essays examines the Christian experience of living under Muslim rule comparing their experiences in several of the major Islamic states of Anatolia between the eleventh and fifteenth centuries especially the Seljuks and the Ottomans The second set of essays examines encounters between Christianity and Islam in art and intellectual life They highlight the ways in which some traditions were shared across confessional divides suggesting the existence of a common artistic and hence cultural vocabulary The final section focusses on the process of Islamisation above all as seen from the Arabic Persian and Turkish textual evidence with special attention to the role of Sufism

The Myth of the Andalusian Paradise Dario Fernandez-Morera, 2023-07-11 A finalist for World Magazine's Book of the Year Scholars journalists and even politicians uphold Muslim ruled medieval Spain al Andalus as a multicultural paradise a place where Muslims Christians and Jews lived in harmony There is only one problem with this widely accepted account it is a myth In this groundbreaking book Northwestern University scholar Dar o Fern ndez Morera tells the full story of Islamic Spain The Myth of the Andalusian Paradise shines light on hidden history by drawing on an abundance of primary sources that scholars have ignored as well as archaeological evidence only recently unearthed This supposed beacon of peaceful coexistence began of course with the Islamic Caliphate's conquest of Spain Far from a land of religious tolerance Islamic Spain was marked by religious and therefore cultural repression in all areas of life and the marginalization of Christians and other groups all this in the service of social control by autocratic rulers and a class of religious authorities The Myth of the Andalusian Paradise provides a desperately needed reassessment of medieval Spain As professors politicians and pundits continue to celebrate Islamic Spain for its multiculturalism and diversity Fern ndez Morera sets the historical record straight showing that a politically useful myth is a myth nonetheless

Medical Imperialism in French North Africa Richard C. Parks, 2017-01-01 French colonial Tunisia in the late nineteenth and early twentieth centuries witnessed shifting concepts of identity including varying theories of ethnic essentialism a drive toward modernization and imperialist interpretations of science and medicine As French colonizers worked to realize ideas of a modern city and empire they undertook a program to significantly alter the physical and social realities by which the people of Tunisia lived often in ways that continue to influence life today Medical Imperialism in French North Africa demonstrates the ways in which diverse members of the Jewish community of Tunis received rejected or reworked myriad imperial projects devised to foster the social corporeal and moral regeneration of their community Buttressed by the authority of science and medicine regenerationist schemes such as urban renewal projects and public health reforms were deployed to destroy and recast the cultural social and political lives of Jewish colonial subjects Richard C Parks expands on earlier scholarship to examine how notions of race class modernity and otherness shaped these efforts Looking at such issues as the plasticity of identity the collaboration and contention between French and Tunisian Jewish communities Jewish women s negotiation of social power relationships in Tunis and the razing of the city s Jewish quarter Parks fills the gap in current literature by focusing on the broader transnational context of French actions in colonial Tunisia

A History of Spanish Institutions Thomas Baumert, Carmen Paradinas Márquez, Andrés Sánchez Padilla, 2020-07-03 Institutions and their history matter and not only because they are crucial elements in explaining a country s socio political evolution but also as determinant factors of economic development wealth and prosperity Usually the history of institutions has been taught the point of view of legal science an approach that made the topic little attractive and often difficult to assimilate for students of other fields such as Economics Business Studies Marketing and others And precisely these groups are the ones that this book addresses It presents in a rigorous yet entertaining way the evolution of Spanish institutions the first human settlements in the peninsula to date and does so explaining the main points in a succinct but well contextualised form For this purpose each chapter combines the exposition of a given period s historic facts with the description of its most characteristic institutions Each chapter then complements its content by explaining the history of one notable symbol of Spain its flag the different coat of arms feasts orders etcetera This modular structure together with the presentation of the information according to its degree of relevance allows readers depending on their specific interests and needs to adapt and combine the texts that compose this book as to optimise the results of their study The modern didactic approach followed by the authors their understanding of institutions in a broader sense than usual the extraordinary work of synthesis has produced a basic tool for the study of this subject one that will give students fruitful results even if they have very heterogeneous backgrounds in Spanish history

The Trial of Giordano Bruno Germano Maifreda, 2022-06-16. In 1600 Giordano Bruno, one of the leading intellectuals of the Renaissance, was burned at the stake on the charge of heresy by the Roman Inquisition. He is remembered primarily for his cosmological theories, particularly that the universe was infinite with the Earth not being at its centre. Today he has become a symbol of the struggle for religious and philosophical tolerance. The Trial of Giordano Bruno, originally published in Italian in 2018, provides English audiences with a complete and updated reconstruction of the inquisitorial trial by analysing the accusations, witnesses and legal proceedings in detail. The author also gives a detailed profile of Bruno as well as the body which arrested and accused him, the Inquisition. This book will appeal to all those interested in the life and death of Giordano Bruno as well as those interested in Early Modern legal proceedings, the Roman Inquisition and the history of religious and philosophical tolerance.

Covenantal Thinking Paul E. Nahman, Yaniv Feller, 2024-03-01. The philosophy and theology of David Novak, one of the most prominent and creative contemporary Jewish thinkers, grapples with Judaism, Christian theology, the tradition of natural law and the Western philosophical canon. Never shying away from contested ethical and religious themes, Novak's original insights and intellectual spirit have spanned voluminous publications and inspired Jewish, Christian and Muslim thinkers to engage concepts such as religious liberty, covenantal morality and the importance of theological reasoning. Written primarily by scholars in the field of Jewish thought, *Covenantal Thinking* is a collection of essays dedicated to Novak's work. The book examines topics such as election, natural

law Jewish political thought Zionism and the relation between reason and revelation This collection is unique because it includes Novak s replies to his critics including his clarifications of his philosophical and theological positions Offering a vital contribution to contemporary Jewish thought Covenantal Thinking illuminates Novak s contributions as a scholar who trained conversed with and inspired the next generation of philosophical theologians **Abrahamic Religions** Aaron W.

Hughes,2012-12-06 Although many perceive him as the common denominator of Judaism Christianity and Islam Abraham remains deceptively out of reach An ahistorical figure some contend he holds the seeds for historical reconciliation Touted as a symbol of ecumenism Abraham can just as easily function as one of division and exclusivity **The Oxford History of the Reformation** Peter Marshall,2022-09-08 a vital resource TLS Compelling collection Literary Review The Reformation was a seismic event in history whose consequences are still unfolding in Europe and across the world Martin Luther s protests against the marketing of indulgences in 1517 were part of a long standing pattern of calls for reform in the Christian Church But they rapidly took a radical and unexpected turn engulfing first Germany and then Europe in furious arguments about how God s will was to be saved However these debates did not remain confined to a narrow sphere of theology They came to reshape politics and international relations social cultural and artistic developments relations between the sexes and the patterns and performances of everyday life They were also the stimulus for Christianity s transformation into a truly global religion as agents of the Roman Catholic Church sought to compensate for losses in Europe with new conversions in Asia and the Americas Covering both Protestant and Catholic reform movements in Europe and across the wider world this compact volume tells the story of the Reformation from its immediate explosive beginnings through to its profound longer term consequences and legacy for the modern world The story is not one of an inevitable triumph of liberty over oppression enlightenment over ignorance Rather it tells how a multitude of rival groups and individuals with or without the support of political power strove after visions of reform And how in spite of themselves they laid the foundations for the plural and conflicted world we now inhabit *The Countryside* Kathryn Hinds,2009-01-30 A social history of the Islamic world from the eighth through the mid thirteenth century with a focus on life in the desert and countryside Provided by publisher

Sephardism Yael Halevi-Wise,2012-04-11 In this book Sephardism is defined not as an expression of Sephardic identity but as a politicized literary metaphor Since the nineteenth century this metaphor has occurred with extraordinary frequency in works by authors from a variety of ethnicities religions and nationalities in Europe the Americas North Africa Israel and even India Sephardism asks why Gentile and Jewish writers and cultural figures have chosen to draw upon the medieval Sephardic experience to express their concerns about dissidents and minorities in modern nations To what extent does their use of Sephardism overlap with other politicized discourses such as orientalism hispanism and medievalism which also emerged from a clash between authoritarian progressive and romantic ideologies This book brings a new approach to Sephardic Studies by situating it at a crossroads between Jewish Studies and Hispanic Studies in ways that enhance our

appreciation of how historical fiction and political history have shaped and were shaped by historical attitudes toward Jews and their representation
