Confucianism as a World Religion Anna Sun,2013-04-21 Is Confucianism a religion If so why do most Chinese think it isn t From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max M ller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a

scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century

Trajectory of the 21st Century

Lawrence J. Terlizese, 2009-01-10 Trajectory of the Twenty first Century explores what many prophets of the twentieth century such as Oswald Spengler Paul Tillich Aldous Huxley Jacques Ellul and others have predicted would transpire in the current century Their vision included an out of control technological system and a return to religious sentiment that will ultimately undermine the system to which it is reacting This book aims to accurately present their positions and draw certain logical conclusions from them that pertain to the course of history in our time The book's theme argues that modernity is a secularized version of millennial Christianity which reaches its fullest development in the twenty first century and will regress into what Russian philosopher Nicholas Berdyaev called the new Middle Ages or a new religious period This will mean the twilight of modern technological society as its values of rationalism give way to a post-rationalist society Ironically decline will come through further technological advance Omnicide threatens through religious world war driven by transcendent values and modern weaponry Jihadist thinking and posthumanist technology both establish the omnicidal

mentality New technologies such as genetic engineering and artificial intelligence created under millennial inspiration to reach for immortality could potentially bring an end to the human species either through a slow steady obsolescence or through environmental catastrophe The titanic forces of technological progress and regress are on a direct collision course in the twenty first century **On Metaphoring** Wu,2022-05-20 On Metaphoring engages in a metaphor way to communicate and inter learn among cultures Bundle A describes how metaphor bundles things similar into a group called a notion a category etc How does metaphor bundle things It familiarizes strange things with things that are familiar to enrich old familiar things with new things newly made familiar Such metaphoric bundling creates a new family of knowledge In this order Bundle B characterizes metaphor as the origin of thinking fit as a highway of intercultural communication where there is no shared way of thinking for each culture is a specific way of thinking Bundle C shows how effective metaphor is in interculturality handling various problems of life and thinking How metaphor works to interculture exhibits in fact what metaphor is Such is how cultures understand one another a cultural hermetic *The American University in a Postsecular Age* Douglas Jacobsen,Rhonda Jacobsen,2008-02-27 For much of the twentieth century it was assumed that higher education was and ought to be a secular enterprise but that approach no longer suffices The culture has shifted and contemporary college and university students are increasingly bringing religious and spiritual questions to campus In response college and university leaders are exploring anew the relationship between religion and higher education The American University in a Postsecular Age grapples with key questions How religious or irreligious are faculty and students today What level of religious literacy should be expected from students Can religion be allowed into the classroom without being disruptive Should colleges and universities help students reflect on their own faith Is religion antithetical to critical inquiry Can religion have a positive role to play in higher education This is a state of the art introduction to the national discussion about religion and higher education Leading scholars and top educators express a wide spectrum of opinions that reflect the best current thinking Introductory and concluding essays by the editors describe the postsecular character of our age and propose a comprehensive framework intended to facilitate ongoing conversation Examine Your Faith! Pamela Christian,2013-07 Well meaning people want to believe that all roads lead to the same God and heaven But wanting something to be true is far different from truth lining up with reality Unless you make an intentional effort to examine what you believe and why you believe it it s quite possible you are living your life on the basis of a lie and don t know it What is truth Is it relative or absolute Is it personal or universal What are the differences among the various religious faiths Can they be blended Are we creating faith a belief system that is impotent by trying to accept all religions as equal **Shopping for College** Douglas Dix,2013-10-21 In order for college students to get what they really want they need to start pursuing their passions and friends and family members need to support them in that pursuit Douglas Dix PhD a longtime college professor takes on the modern higher education system in this guidebook that focuses on being authentic Instead of studying a subject that

Nash,Mary N. MacDonald,Fred Glennon,2013 This introductory text helps students think through the basic questions that arise in the study of religion What is the nature of religious experience How does religion shape the actions of individuals and communities How does religion promote or inhibit human development and well being This 2nd edition has been updated throughout including new examples new themes such as religious fundamentalism and violence and a new emphasis on environmental issues Faith and Force David L. Clough,Brian Stiltner,2007-06-04 This book began in an argument between friends surprised to find themselves on opposite sides of the debate about whether the United States and the United Kingdom should invade Iraq in 2003 Situated on opposite sides of the Atlantic in different churches and on different sides of the just war pacifist fence we exchanged long emails that rehearsed on a small scale the great national and international debates that were taking place around us We discovered the common ground we shared as well as some predictable and some surprising points of difference When the initial hostilities ended our conversation continued and we felt the urgency of contributing to a wider Christian debate about whether and when war could be justified From the Preface So began a dynamic collaboration that developed into a civil but

provocative debate over matters of war and peace that is Faith and Force From the ancient battles between Greek city states to the Crusades to the World Wars of the twentieth century to the present day wars in Afghanistan and Iraq and the Middle East aggressors and defenders alike have claimed the mantle of righteousness and termed their actions just But can the carnage of war ever be morally grounded And if so how These are the questions that David L Clough a Methodist proponent of pacifism and Brian Stiltner a Catholic theologian and just war adherent have vowed to answer together With one voice Clough and Stiltner outline and clarify issues of humanitarian intervention weapons proliferation and preventative war against rogue states Their writing is grounded in Christian tradition and provides a fresh and illuminating account of the complexities and nuances of the pacifist and just war positions In each chapter Clough and Stiltner engage in debate on the issues demonstrating a respectful exchange of ideas absent in much contemporary political discourse whether on television or in the classroom The result is a well reasoned challenging repartee that searches for common ground within the Christian tradition and on behalf of the faithful promotion of justice yet one that also recognizes genuine differences that cannot be bridged easily Intended for a broad audience Faith and Force is the perfect foil to the shrill screeching that surrounds partisan perspectives on military power and its use To help with using the book in a classroom context the authors have provided Questions for Reflection and Discussion for each chapter You can download these questions in PDF format at press.georgetown.edu

God Is Not One Stephen Prothero, 2010-09-20 fascinating guide to religion and its place in the world today In *God Is Not One* bestselling author Stephen Prothero makes a fresh and provocative argument that contrary to popular understanding all religions are not simply different paths to the same God Instead he shows that the differences between the major religions are far greater than we think they each ask different questions tackle different problems and aim at different goals *God Is*

Not One highlights the unique aspects of the world's major religions with chapters on Islam Christianity Confucianism Hinduism Buddhism Yoruba religion Judaism Daoism and atheism Lucid and compelling God Is Not One offers a new understanding of religion for the twenty first century **African Intellectuals and the State of the Continent** Olayiwola Abegunrin, Sabella Abidde, 2018-07-26 This festschrift is composed in honor of a distinguished scholar and Pan Africanist Professor Sulayman S Nyang whose career and intellectual pursuits spans more than 45 years much of it at Howard University Nyang's contributions to African affairs transcend the scope of the academic world as he served as First Secretary and Head of Chancery of the Gambian Embassy in Saudi Arabia from 1975 to 1977 and consultant to the World Bank and United Nations agencies In addition Professor Nyang served as the President of the Interfaith Conference of Metropolitan Washington DC and a member of the boards of many academic journals and organizations of Islamic Studies in the USA He has published copiously on a variety of issues affecting continental Africans Africans in the Diaspora and beyond He has published and collaborated on dozens of books and book chapters and more than 100 articles in referred journals *The Psychology of World Religions and Spiritualities* Timothy A. Sisemore, Joshua J. Knabb, 2021-09-20 This compendium of introductory essays invites scholars and clinicians to better understand people of various faiths from around the world It is intended to correct the tendency among scientists to study religious behavior without accounting for its human dimension For example a psychologist describes a religious ceremony in a certain community as a sociological phenomenon Such a technical description is likely to strike members of that community as an attempt by science to explain away their beliefs This is counterproductive In order to work effectively and empathetically with people of faith psychologists should seek an intimate knowledge of how religion operates in the hearts and minds of living breathing human beings With this goal in mind editors Timothy Sisemore and Joshua Knabb have made one of the world's major religions the subject of a separate chapter In addition they have arranged for each chapter to be written by a psychologist who practices or is culturally connected with that religion This marks the book's unique contribution to the field it is the product of people who have lived the world's religions not merely studied them By taking such a respectful approach the book promotes an appreciation for the ways that religious belief animates inspires and instructs its adherents Moreover the indigenous point of view of these essays will help scholars identify their own biases when researching religious groups allowing them to produce more accurate and holistic analyses Psychologists understand that religion and spirituality provide meaning and purpose to billions of people around the globe But the actual experience of these beliefs eludes the grasp of the reductionistic methods of science With this resource at their side psychologists in academic and clinical settings will be equipped to understand religious experience from the bottom up and honor the beliefs and practices of the people they are trying to help **The Curve of the Sacred** Constantin V. Ponomareff, 2006 This book is about life's meaning a spiritual dimension about which by nature all persons wonder The book follows the human journey in works of art literature music medicine theology philosophy psychology and religion Book
