Kenneth D Boffard, Jonathan White, 2024-06-07 Developed for the International Association for Trauma Surgery and Intensive
Care IATSI the Manual of Definitive Surgical Trauma Care 6e is ideal for training all surgeons and anaesthetists who
manage trauma on an infrequent basis The Manual is updated every 4 years and reflects the most recent developments in
patient management based on new evidence based information Its focus is on the importance of the multidisciplinary care of
the trauma surgical patient This sixth edition has evolved and the all important section on the Non Technical Skills which are
required has been expanded A significant number of the original guidelines in trauma have been archived as they are no
longer pertinent or have been superseded The increasing and occasionally harmful role of non operative management NOM
has been recognized The Military Environments and Austere Environments chapters have been substantially revised to
reflect current multinational combat experience and broadened to reflect modern asymmetrical conflicts and the increased
need for humanitarian intervention including military peacekeeping in which only one side wears a uniform Military weapons
are used in major cities against the civilian population More recently urban non military populations have been the targets
and victims of heavy military combat including use of ultra sophisticated weaponry Each situation carries its own spectrum of
injury and responsibility of care Including website access to a selection of videos which provide an anatomic overview of
surgical approaches this resource provides a gold standard educational and training resource to help prepare the relatively
fully trained surgeon to manage the difficult injuries that might present to a major trauma centre *Phlebotomy Essentials*
