The Water Wars By Cameron Stracher

R Bogdan

The Water Wars By Cameron Stracher:

The Water Wars Cameron Stracher, 2011-10-01 Welcome to a future where water is more precious than oil or gold. Hundreds of millions of people have already died and millions more will soon fall victims of disease, hunger, and dehydration. It is a time of drought and war. The rivers have dried up, the polar caps have melted, and drinkable water is now in the hands of the powerful few. There are fines for wasting it and prison sentences for exceeding the quotas. But Kai didn't seem to care about any of this. He stood in the open road drinking water from a plastic cup, then spilled the remaining drops into the dirt. He didn't go to school and he traveled with armed guards. Kai claimed he knew a secret something the government is keeping from us. And then he was gone. Vanished in the middle of the night. Was he kidnapped? Did he flee? Is he alive or dead? There are no clues, only questions. And no one can guess the lengths to which they will go to keep him silent. We have to find him and the truth before it is too late for all of us.

Kings of the Road Cameron Stracher, 2013 For fans of *The Perfect Mile* and *Born to Run*, a riveting three-pronged narrative about the golden era of running in America, the 1970s, as seen through the fascinating lives and careers of running greats Frank Shorter, Bill Rodgers, and Alberto Salazar.

Blue Ecocriticism and the Oceanic Imperative Sidney I. Dobrin, 2021-03-28 This book initiates a conversation about blue ecocriticism, critical ethical, cultural, and political positions that emerge from oceanic or aquatic frames of mind rather than traditional land-based approaches. Ecocriticism has rapidly become not only a disciplinary, legitimate critical form but also one of the most dynamic, active criticisms to emerge in recent times. However, even in its institutional success, ecocriticism has exemplified an ocean deficit. That is, ecocriticism has thus far primarily been a land-based criticism stranded on a liquid planet. Blue Ecocriticism and the Oceanic Imperative contributes to efforts to overcome ecocriticism's ocean deficit. The chapters explore a vast archive of oceanic literature, visual art, television, and film, games, theory, and criticism. By examining the relationships between these representations of ocean and cultural imaginaries, Blue Ecocriticism works to unmoor ecocriticism from its land-based anchors. This book aims to simultaneously advance blue ecocriticism as an intellectual pursuit within the environmental humanities and to advocate for ocean conservation as derivative of that pursuit.

The Cambridge Companion to Twenty-First Century American Fiction Joshua Miller, 2021-09-23 Reading lists, course syllabi, and prizes include the phrase "21st century American literature," but no critical consensus exists regarding when the period began, which works typify it, how to conceptualize its aesthetic priorities, and where its geographical boundaries lie. Considerable criticism has been published on this extraordinary era, but little programmatic analysis has assessed comprehensively the literary and critical theoretical output to help readers navigate the labyrinth of critical pathways. In addition to ensuring broad coverage of many essential texts, *The Cambridge Companion to 21st Century American Fiction* offers state-of-the-field analyses of contemporary narrative studies that set the terms of current and future research and teaching. Individual chapters illuminate critical engagements with emergent genres and concepts, including flash fiction, speculative fiction, digital fiction, alternative

temporalities Afro futurism ecocriticism transgender queer studies anti carceral fiction precarity and post 9 11 fiction

Contemporary Dystopian Fiction for Young Adults Balaka Basu, Katherine R. Broad, Carrie Hintz, 2013-05-02 Winner of the Children's Literature Association Edited Book Award From the jaded wired teenagers of M T Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings As the dark universes of YA dystopias continue to flood the market *Contemporary Dystopian Fiction for Young Adults* *Brave New Teenagers* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon With its capacity to frighten and warn dystopian writing powerfully engages with our pressing global concerns liberty and self determination environmental destruction and looming catastrophe questions of identity and justice and the increasingly fragile boundaries between technology and the self When directed at young readers these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood This collection enacts a lively debate about the goals and efficacy of YA dystopias with three major areas of contention do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature Do their political critiques represent conservative or radical ideologies And finally are these novels high minded attempts to educate the young or simply bids to cash in on a formula for commercial success This collection represents a prismatic and evolving understanding of the genre illuminating its relevance to children's literature and our wider culture

Blast, Corrupt, Dismantle, Erase Brett Josef Grubisic, Gisèle M. Baxter, Tara Lee, 2014-06-16 What do literary dystopias reflect about the times In *Blast Corrupt Dismantle Erase* contributors address this amorphous but pervasive genre using diverse critical methodologies to examine how North America is conveyed or portrayed in a perceived age of crisis accelerated uncertainty and political volatility Drawing from contemporary novels such as Cormac McCarthy's *The Road* Neil Gaiman's *American Gods* and the work of Margaret Atwood and William Gibson to name a few this book examines dystopian literature produced by North American authors between the signing of NAFTA 1994 and the tenth anniversary of 9 11 2011 As the texts illustrate awareness of and deep concern about perceived vulnerabilities ends of water oil food capitalism empires stable climates ways of life non human species and entire human civilizations have become central to public discourse over the same period By asking questions such as What are the distinctive qualities of post NAFTA North American dystopian literature and What does this literature reflect about the tensions and contradictions of the inchoate continental community of North America *Blast Corrupt Dismantle Erase* serves to resituate dystopian writing within a particular geo social setting and introduce a productive means to understand both North American dystopian writing and its relevant engagements with a restricted mapped reality

[The Palgrave Handbook of Utopian and Dystopian Literatures](#) Peter Marks, Jennifer A. Wagner-Lawlor, Fátima Vieira, 2022-03-15 *The Palgrave Handbook of Utopian and Dystopian Literatures* celebrates a literary

genre already over 500 years old Specially commissioned essays from established and emerging international scholars reflect the vibrancy of utopian vision and its resiliency as idea genre and critical mode Covering politics environment geography body and mind and social organization the volume surveys current research and maps new areas of study The chapters include investigations of anarchism biopolitics and postcolonialism and study film art and literature Each essay considers central questions and key primary works evaluates the most recent research and outlines contemporary debates Literatures of Africa Australia China Latin America and the Middle East are discussed in this global cross disciplinary and comprehensive volume

Eco-Teen Films Robin L. Murray, Joseph K. Heumann, 2024-09-06 Illuminating the impacts of environmental disasters and climate crises globally this book examines the experiences of teens grappling with eco disasters and issues in films of the twenty first century With an emphasis on teen activism international settings and filmmakers and marginalized perspectives this book showcases teens on film that are struggling with present and future everyday eco disasters amplified by climate change By highlighting and interrogating diverse genres of teen films in which young adults encounter address and battle environmental issues and calamities while also struggling with adolescent development this book acknowledges the young adult point of view missing from most critical ecocinema research and underlines connections between the more complex coming of age themes found in teen films with ecocinema themes and approaches The films examined navigate increasingly realistic conditions even in fantastical settings as they showcase teens relationships with and responses to environmental issues and eco disasters Emphasizing teen activism and under represented intersectional perspectives outside Hollywood it establishes the eco teen film as a notable subgenre This book will be of interest to students and scholars of film studies ecocriticism and environmental studies especially those with a particular interest in ecocinema and or ecocritical readings of films

Safeguarding Water and Food Supplies Janet Craig, 2012-07-15 Malnutrition due to hunger is the number one risk to human health worldwide greater than malaria AIDS and tuberculosis combined Readers learn how worldwide 70 percent of all freshwater is used for agriculture as well as many other facts During a drought people can t get access to water and food production suffers One billion people in the world do not have access to safe water Half of the world s hospitalizations are because of water related diseases Approximately one and a half million children die every year from water borne diseases Food production and water supplies are inseparably linked to the climate and the Earth s climate is changing Droughts used to occur every six to eight years in East Africa but now they occur every one or two years The average temperature in the United States has risen 2 F in the past 50 years and it continues to rise The coming changes are threatening our food and water supplies higher temperatures and unpredictable rainfall will cause more drought and famine Global stability and millions of lives are at stake and we re responsible Human activities like industry agriculture transportation and deforestation are causing global warming and climate change The brightest minds are working on ways to slow the effects of climate change limit its impact and adapt to the unavoidable changes that are on the way International

cooperation has made it possible to begin saving different seed types in the Svalbard Global Seed Vault in Svalbard Norway as a final safety net against global famine and food extinction As of May 2010 the vault held samples of 526 000 unique crop varieties Engineers are also perfecting methods to conserve water such as special water tanks that harvest rain And there are many promising innovations just around the corner like artificial trees that absorb carbon from the atmosphere Various cutting edge green energy and construction geoenvironmental bioengineering agricultural hydrological and conservation technologies and practices are discussed as are the latest government regulations and international treaties and initiatives What the reader can do to support and further these efforts at home school and around town are is also outlined in this beneficial resource All of these and many more promising technologies intriguing breakthroughs and proactive strategies are examined in this volume which ultimately provides readers with a sense of hope cautious optimism and an urgent call to arms and it continues to rise Polluted Water and Your Vital Organs Bridget Heos,2012-12-15 The human body is over 65% water We drink it We bathe in it We water our crops with it Water is a foundation of human life And yet more and more chemicals are getting into our ground water People are getting sick and even dying from it How this happened and what we can do to prevent these issues in the future are a few of the topics readers will discuss as they take a look at the incredibly disgusting issue of water pollution and contamination and what impact it is having on human life and the environment

Young,2018-10-15 *Confronting Climate Crises through Education* Reading Our Way Forward envisions the responsibility of public education to engage a citizenry more prepared to address the challenges of a changing world Young advocates a paradigm shift that positions ecopedagogy as the central organizing principle of curriculum and assessment design Each

chapter outlines ways literature can serve as a cultural lens for examining the complex patterns of contexts behind our most pressing climate concerns including potential solutions these patterns may illuminate A focus on fiction and non fiction exemplars that can provide such a lens illustrates practical steps educators can take to develop instruction around the immediately relevant environmental crises we are experiencing and to inspire more ecologically conscious globally minded problem solvers prepared to confront them *Teaching Climate Change to Adolescents* Richard Beach, Jeff Share, Allen Webb, 2017-05-25 THE essential resource for middle and high school English language arts teachers to help their students understand and address the urgent issues and challenges facing life on Earth today this text features classroom activities written and used by teachers and a website <http://climatechangeela.pbworks.com> with additional information and links All royalties from the sale of this book are donated to Alliance for Climate Education <https://acespace.org> **For Younger Readers**, 2014 **Routledge Handbook of Ecocriticism and Environmental Communication** Scott Slovic, Swarnalatha Rangarajan, Vidya Sarveswaran, 2019-02-01 Ecocriticism and environmental communication studies have for many years co existed as parallel disciplines occasionally crossing paths but typically operating in separate academic spheres These fields are now rapidly converging and this handbook aims to reinforce the common concerns and methodologies of the sibling disciplines The Routledge Handbook of Ecocriticism and Environmental Communication charts the history of the relationship between ecocriticism and environmental communication studies while also highlighting key new paradigms in information studies diverse examples of practical applications of environmental communication and textual analysis and the patterns and challenges of environmental communication in non Western societies Contributors to this book include literary film and religious studies scholars communication studies specialists environmental historians practicing journalists art critics linguists ethnographers sociologists literary theorists and others but all focus their discussions on key issues in textual representations of human nature relationships and on the challenges and possibilities of environmental communication The handbook is designed to map existing trends in both ecocriticism and environmental communication and to predict future directions This handbook will be an essential reference for teachers students and practitioners of environmental literature film journalism communication and rhetoric and well as the broader meta discipline of environmental humanities

Backwoodsmen as Ecocritical Motif in French Canadian Literature Anne Rehill, 2016-08-30 In New France and early Canada young men who ventured into the forest to hunt and trade with Amerindians coureurs de bois runners of the woods later traveling in big teams of canoes voyageurs were known for their independence Often described as half wild themselves they linked the European and Indian societies eventually helping to form a new culture with elements of both From an ecocritical perspective they represent both negative and positive aspects of the human historical trajectory because in addition to participating in the environmentally abusive fur trade they also symbolize the way forward through intercultural connections and business relationships The four novels analyzed here Joseph Charles Tach s *Forestiers* et

voyageurs Moeurs et l gendes canadiennes 1863 Louis H mon s Maria Chapdelaine 1916 L o Paul Desrosiers Les Engag s du Grand Portage 1938 and Antonine Maillet s P lagie la Charrette 1979 portray the backwoodsmen operating in a collaborative mode within the realistic context of the need to make money They entered folklore through the 19th century literary efforts of Tach and others to construct a distinct French Canadian national identity then in an unstable and continually disrupted process of formation Their entry into literature necessarily brought their Amerindian business and personal partners thus making intercultural connections a foundation of the national identity that Tach and others strove to construct and also mirror As figures in literature they embody changing ideas of the self and of the cultures and ethnicities that they connect both physically and in an abstract sense Because constructions of self identity result in behavior studying this dynamic contributes to ecocritical efforts to better understand human behavior toward both ourselves and our environment The woodsmen and their Amerindian partners occupy the intriguing position of contributing to both damage and greater acceptance of the cultural Other the latter of which holds the promise of collaboration and joint searches for sustainable solutions Thus coureurs de bois and voyageurs far from perfect models can continue to serve as guides today *Talking Book Topics* ,2014 Fossil Fuels Liz Gogerly,2013 Can you imagine what our lives would be like after we run short of vital fossil fuels What would happen to our transport to the way we produce and distribute food and to the many machines and gadgets we use How would people communities and countries respond to shortages of energy This book traces the possible consequences of a global event on this scale with ideas and evidence based on similar scenarios that are a part of fact and fiction
