Tweets From Tahrir By Nadia Idle:

Tweets from Tahrir Alex Nunns, Nadia Idle, 2011 The Twitter posts of the activists who brought heady days of revolution to Egypt in early 2011 paint a picture of an uprising in real time This book brings together a selection of key tweets in a compelling fastpaced narrative allowing the story to be told directly by the people who made the revolution *Arab Spring and Arab Women* Muhamad Olmat, 2013-11-26 This volume examines the role of Arab women in Arab Spring and their contribution to the ongoing process of change sweeping the region The book begins with an examination of the process of democratization and its impediments in the Arab World since the Second World War It then looks at the conditions that led to the upsurge of the so called Arab Spring Finally it underscores women s role as participants organizers leaders but also as victims The main thesis of the book is that while Arab women were an integral part of the revolutionary efforts within the Arab Spring paradigm they did not benefit from their sacrifices Although they continue to be part of the process of change their gains rights and scope for participation are still limited If the expansion of women s participation and the scope of their rights do not seem to be a priority for revolutionary forces women have made remarkable achievements especially in some Arab Spring countries such as Yemen and Libya The book includes case studies of some Arab Spring countries and other countries influenced by developments Egypt Bahrain Kuwait Libya Yemen Algeria Jordan Morocco and Saudi Arabia It calls on revolutionary and reformist forces to give special attention to issues related to Arab women as they are an indispensable pillar in the process of reform development peace and stability in the Middle East Rewriting Narratives in Egyptian Theatre Sirkku Aaltonen, Areeg Ibrahim, 2016-03-31 This study of Egyptian theatre and its narrative construction explores the ways representations of Egypt are created of and within theatrical means from the 19th century to the present day Essays address the narratives that structure theatrical textual and performative representations and the ways the rewriting process has varied in different contexts and at different times Drawing on concepts from Theatre and Performance Studies Translation Studies Cultural Studies Postcolonial Studies and Diaspora Studies scholars and practitioners from Egypt and the West enter into dialogue with one another expanding understanding of the different fields The articles focus on the ways theatre texts and performances change are rewritten when crossing borders between different worlds The concept of rewriting is seen to include translation transformation and reconstruction and the different borders may be cultural and national between languages and dramaturgies or borders that are present in people s everyday lives Essays consider how rewritings and performances cross borders from one culture nation country and language to another They also study the process of rewriting the resulting representations of foreign plays on stage and representations of the Egyptian revolution on stage and in Tahrir Square This assessment of the relationship between theatre practices exchanges and rewritings in Egyptian theatre brings vital coverage to an undervisited area and will be of interest to developments in theatre translation and beyond **Digging the Seam** Ian W. Macdonald, Simon Popple, 2012-11-15 The 1984 5 Miners Strike was one of the

most important political events in British history It was a bitter dispute that polarised public opinion divided nation and families alike and the results in terms of the destruction of centuries of industrial and cultural tradition are still keenly felt The social and political consequences of this dispute which have resonated for the past quarter century have been subject to detailed analysis and reflection The consequences for the arts and popular culture are less clearly mapped This book attempts to begin to redress this imbalance and signal the importance of popular cultural activity both during and after the strike The essays that appear in this book represent diverse and multidisciplinary responses to the questions raised by the strike and its relationships to a broad range of cultural forms which include literature film photography music theatre television drama and documentary painting public art and heritage interventions These responses are organised around four themes that map the interrelatedness between cultural representation cultural intervention and historical memory The first deals with the idea of mining culture and pre strike representations in popular sentiment film and literature The second examines the role cultural forms played directly in the context of the strike as a means of political commentary activism and fund raising The third looks at subsequent cultural renderings or reconstructions of the strike and the final section looks at the current process of memorialisation and commemoration The book draws together a range of voices from academia heritage cultural and mining backgrounds and offers both a historical perspective on the range of cultural activities in the course of the dispute and subsequent readings and re readings It aims both to provide a record of cultural intervention and stimulate new dialogues and perspectives

Doing Recent History Claire Bond Potter, Renee C. Romano, 2012-04-25 Recent history the very phrase seems like an oxymoron Yet historians have been writing accounts of the recent past since printed history acquired a modern audience and in the last several years interest in recent topics has grown exponentially With subjects as diverse as Walmart and disco and personalities as disparate as Chavez and Schlafly books about the history of our own time have become arguably the most exciting and talked about part of the discipline Despite this rich tradition and growing popularity historians have engaged in little discussion about the specific methodological political and ethical issues related to writing about the recent past The twelve essays in this collection explore the challenges of writing histories of recent events where visibility is inherently imperfect hindsight and perspective are lacking and historiography is underdeveloped Those who write about events that have taken place since 1970 encounter exciting challenges that are both familiar and foreign to scholars of a more distant past including suspicions that their research is not historical enough negotiation with living witnesses who have a very strong stake in their own representation and the task of working with new electronic sources Contributors to this collection consider a wide range of these challenges They question how sources like television and video games can be better utilized in historical research explore the role and regulation of doing oral histories consider the ethics of writing about living subjects discuss how historians can best navigate questions of privacy and copyright law and imagine the possibilities that new technologies offer for creating transnational and translingual research

opportunities Doing Recent History offers guidance and insight to any researcher considering tackling the not so distant past

Martyrs and Tricksters Walter Armbrust, 2019-08-06 An important look at the hopeful rise and tragic defeat of the Egyptian Revolution of 2011 The Egyptian Revolution of 2011 began with immense hope but was defeated in two and a half years ushering in the most brutal and corrupt regime in modern Egyptian history How was the passage from utmost euphoria into abject despair experienced not only by those committed to revolutionary change but also by people indifferent or even hostile to the revolution In *Martyrs and Tricksters* anthropologist and Cairo resident Walter Armbrust explores the revolution through the lens of liminality initially a communal fellowship where everything seemed possible transformed into a devastating limbo with no exit To make sense of events Armbrust looks at the martyrs trickster media personalities public spaces contested narratives historical allusions and factional struggles during this chaotic time Armbrust shows that while martyrs became the primary symbols of mobilization no one took seriously enough the emergence of political tricksters Tricksters appeared in media not the vaunted social media of a Facebook revolution but television and they paved the way for the rise of Abd al Fattah al Sisi In the end Egypt became a global political vanguard but not in the way the revolutionaries intended What initially appeared as the gateway to an age of revolution has transformed the world over into the age of the trickster Delving into how Egyptians moved from unprecedented exhilaration to confusion and massacre *Martyrs and Tricksters* is a powerful cultural biography of a tragic revolution **From the 1919 Revolution to the 2011 Arab Spring**

Uzi Rabi, Mira Tzoreff, 2024-05-08 Focused on three Egyptian revolutions in 1919 1952 and 2011 this edited book argues that each of these revolutions is a milestone which represents a meaningful turning point in modern Egyptian history Revolutions are typically characterized by a fundamental change in political and social infrastructures as well as in the establishment of new values and norms However it should be noted that this may not be entirely applicable when examining the context of the three Egyptian revolutions the 1919 revolution failed to liberate Egypt from British colonial hegemony the 1952 revolution failed to rework the country's social and economic systems and unify the Arab world and the Arab Spring revolution of 2011 culminated in a chaotic economic and social catastrophe thus failing to solve the young generation's crisis Nevertheless by revisiting and re-defining these revolutions through diverse theoretical frameworks the book proposes that each of them played a significant role in shaping Egypt's political social and cultural identity This book is specifically of interest for students historians and social scientists with a keen interest in Egyptian history and the Middle East offering fresh perspectives and insights into these transformative moments in Egypt's history *Arab Media in a Turbulent World* Barrie

Revolution without Revolutionaries Asef Bayat,2023-05-25 A study of the Arab Spring and its aftermath alongside the revolutions of the 1970s The revolutionary wave that swept the Middle East in 2011 was marked by spectacular mobilization spreading within and between countries with extraordinary speed Several years on however it has caused limited shifts in structures of power leaving much of the old political and social order intact In this book noted author Asef Bayat whose Life as Politics anticipated the Arab Spring uncovers why this occurred and what made these uprisings so distinct from those that came before Revolution without Revolutionaries is both a history of the Arab Spring and a history of revolution writ broadly Setting the 2011 uprisings side by side with the revolutions of the 1970s particularly the Iranian Revolution Bayat reveals a profound global shift in the nature of protest as acceptance of neoliberal policy has spread radical revolutionary impulses have diminished Protestors call for reform rather than fundamental transformation By tracing the contours and illuminating the meaning of the 2011 uprisings Bayat gives us the book needed to explain and understand our post Arab Spring world Praise for Revolution without Revolutionaries Bayat is in the vanguard of a subtle and original theorization of social movements and social change in the Middle East His attention to the lives of the urban poor his extensive field work in very different countries within the region and his ability to see over the horizon of current paradigms make his work essential reading Juan Cole University of Michigan An astute analyst of the Middle East Asef Bayat is one of the very few researchers equipped to historicize the region s contemporary uprisings In Revolution without Revolutionaries he deftly and sympathetically employs his own observations of Iran immediately before and after the

1979 revolution to reflect on the epochal shifts that have reworked the political regimes economic structures and revolutionary imaginaries across the region today Arang Keshavarzian New York University Bayat provocatively questions the Arab Spring's apparent moderation tracing its softness to decades of neoliberalism that have undermined the national state and discarded old fashioned forms of revolutionary violence This groundbreaking book is not an obituary for the Arab Spring but a hopeful glimpse at its future Olivier Roy author of *The Failure of Political Islam* **Mobilizing for Democracy** Donatella della Porta, 2014-03 Mobilizing for Democracy compares two waves of protests for democracy in Central Eastern Europe in 1989 and in the Middle East and North Africa in 2011 **The Awakening of Muslim Democracy** Jocelyne Cesari, 2014-04-14 Why and how did Islam become such a political force in so many Muslim majority countries In this book Jocelyne Cesari investigates the relationship between modernization politics and Islam in Muslim majority countries such as Egypt Iraq Pakistan Tunisia and Turkey countries that were founded by secular rulers and have since undergone secularized politics Cesari argues that nation building processes in these states have not created liberal democracies in the Western mold but have instead spurred the politicization of Islam by turning it into a modern national ideology Looking closely at examples of Islamic dominance in political modernization this study provides a unique overview of the historical and political developments from the end of World War II to the Arab Spring that have made Islam the dominant force in the construction of the modern states and discusses Islam's impact on emerging democracies in the contemporary Middle East **Why It's Still Kicking Off Everywhere** Paul Mason, 2013-10-01 Originally published in 2012 to wide acclaim this updated edition Why It's Still Kicking Off Everywhere includes coverage of the most recent events in the wave of revolt and revolution sweeping the planet riots in Athens student occupations in the UK Quebec and Moscow the emergence of the Occupy Movement and the tumult of the Arab Spring Economic crisis social networking and a new political consciousness have come together to ignite a new generation of radicals BBC journalist and author Paul Mason combines the anecdotes gleaned through first hand reportage with political economic and historical analysis to tell the story of today's networked revolution Why It's Still Kicking Off Everywhere not only addresses contemporary struggles it provides insights into the future of global revolt *Online Activism* Amanda Vink, 2018-07-15 The growth of the Internet has changed almost every aspect of society and social activism is no exception Circulating petitions and organizing rallies is easier than ever but so is the illusion of creating change without putting in effort Readers learn the ways activism has changed in the Internet era The informative text is supplemented with detailed charts and annotated quotes presenting multiple points of view By learning more about online activism young adults can become more informed about how to take a stand on issues they are passionate about *The New Middle East* Fawaz A. The Political Economy of the Egyptian Revolution R. Roccu, 2013-11-22 While the 2011 Egyptian revolution has already become the subject of much debate the roots of the socio economic context which made the revolution possible have seldom been explored Roberto Roccu addresses this gap and in doing this provides the first detailed study of the deeper causes of the Egyptian revolution Relying on an innovative understanding of Antonio Gramsci's thought He argues that economic reforms implemented since the late 1980s provided the conditions for both the emergence of a capitalist oligarchy within the regime and an unprecedented rise in socio economic inequality in society at large These two processes substantially eroded any remnants of hegemony leaving the Mubarak regime ill equipped to face the global economic crisis By alienating sections of the ruling bloc while impoverishing vast strata of the population neoliberal reforms provided a necessary although by no means sufficient condition for the Egyptian revolution to occur Mediascapes of Ruined Geographies in the Global South Diego Granja do Amaral, A. Chukwudumebi Obute, 2023-08-15 This book undertakes an interdisciplinary and cross cultural interrogation of the Global South through the prisms of media and cultural studies It closely explores the quotidian re territorialization and brazen ruination of the material geographies of this vast expanse of the world by forces and proxies of neo colonialism and global capitalism of resource extraction We cite the ongoing expulsion of Palestinians from their homelands by occupational forces the emerging detritus dump across Mexico City and Lagos the infrastructural precariousness of the favelas of Brazil the unending resource war in the Democratic Republic of Congo DRC and the flagrant operation of the oil industry in the Niger Delta region of Nigeria as examples of this geographic cataclysm The centripetal forces of neo colonialism and resource extraction at full flight in the Global South aided by toxic hegemonic forces have overtly tossed some of the population to the peripheries of existence and the society at large As such this book additionally explores the resistance of the subalterns from the margins to this socio political malaise and further unmasks the knowledge production from these margins of the Global South This project is divided into five 5 parts of three essays each The first part examines the territorial contestation in the Middle East framed and expressed through films and literary lenses The second part examines the environmental burden of modern consumerism and urbanization on metropolis across Mexico Brazil and

Nigeria while the third part explores the attritional violence of resource extraction in the DRC Brazil and Nigeria via filmic and journalistic lenses The fourth part offers a swift response from the margins through ethnographic and journalistic interrogation of the subjectivity of the subalterns of Brazilian favelas and street artists The fifth part offers an engaging critique of the political climates of South Africa and Brazil that reinforce the environmental catastrophe of the regions of the world
