Everybody thinks Tara Doucet has the perfect life. But Tara's life is anything but perfect. Her dear Grammy Claire has just passed away, her mom is depressed and distant, and she and her sister Riley can't agree on anything. But when mysterious and dazzling butterflies begin to follow her around after Grammy Claire's funeral, Tara knows in her heart that her grandmother has left her one final mystery to solve. Tara finds a stack of keys and detailed letters from Grammy Claire. Note by note, Tara learns unexpected truths about her grandmother's life. As the letters grow more ominous and the clues harder to decipher, Tara realizes that the secrets she must uncover could lead to grave danger. And when Tara and Riley are swept away to the beautiful islands of Chuuk to hear their grandmother's will, Tara discovers the most shocking truth of all: one that will change her life forever. Wish Girl Nikki Loftin, 2015-02-24 A dying girl gives a boy the strength to live in this lyrical novel that will break your heart and lift your spirit. Peter Stone's parents and siblings are extroverts, musicians, and yellers, and the louder they get, the less Peter talks or even moves until he practically fits his last name. When his family moves to the Texas Hill Country, though, Peter finds a tranquil natural valley where he can at last hear himself think. There he meets a girl his age, Annie Blythe. Annie tells Peter she's a wish girl. But Annie isn't just any wish girl; she's a Make-A-Wish Girl. And in two weeks, she will begin a dangerous treatment to try and stop her cancer from spreading. Left alone, the disease will kill her. But the treatment may cause serious, lasting damage to her brain. Annie and Peter hatch a plan to escape into the valley, which they begin to think is magical. But the pair soon discovers that the valley and life may have other plans for them. And sometimes wishes come true in ways they would never expect.

Nightingale's Nest Nikki Loftin, 2014-02-20 A powerful novel about friendship and family that calls to mind *Bridge to Terabithia*. Twelve-year-old John Fischer Jr., or Little John, as he's always been known, is spending his summer helping his father with his tree removal business, clearing brush for Mr. King, the wealthy owner of a chain of Texas dollar stores. When he hears a beautiful song that transfixes him, he follows the melody and finds not a bird but a young girl sitting in the branches of a tall sycamore tree. There's something magical about this girl, Gayle, especially her soaring singing voice. And Little John's friendship with Gayle quickly becomes the one bright spot in his life, for his home is dominated by sorrow over his sister's death and his parents' ever-tightening financial difficulties. But then Mr. King draws Little John into an impossible choice: forced to choose between his family's survival and a betrayal of Gayle that puts her future in jeopardy. Inspired by a Hans Christian Andersen story, *Nightingale's Nest* is an unforgettable novel about a boy with the weight of the world on his shoulders and a girl with the gift of healing in her voice. *The Time of the Fireflies*

Australian mammal taxa is marginally fewer than for birds the proportion of endemic extinct and threatened mammal taxa is far greater These authoritative reviews represent an important foundation for understanding the current status fate and future of the nature of Australia This book considers all species and subspecies of Australian mammals including those of external territories and territorial seas For all the mammal taxa about 300 species and subspecies considered Extinct Threatened Near Threatened or Data Deficient the size and trend of their population is presented along with information on geographic range and trend and relevant biological and ecological data The book also presents the current conservation status of each taxon under Australian legislation what additional information is needed for managers and the required management actions Recovery plans where they exist are evaluated The voluntary participation of more than 200 mammal experts has ensured that the conservation status and information are as accurate as possible and allowed considerable unpublished data to be included All accounts include maps based on the latest data from Australian state and territory agencies from published scientific literature and other sources The Action Plan concludes that 29 Australian mammal species have become extinct and 63 species are threatened and require urgent conservation action However it also shows that where guided by sound knowledge management capability and resourcing and longer term commitment there have been some notable conservation success stories and the conservation status of some species has greatly improved over the past few decades The Action Plan for Australian Mammals 2012 makes a major contribution to the conservation of a wonderful legacy that is a significant part of Australia s heritage For such a legacy to endure our society must be more aware of and empathetic with our distinctively Australian environment and particularly its marvellous mammal fauna relevant information must be readily accessible environmental policy and law must be based on sound evidence those with responsibility for environmental management must be aware of what priority actions they should take the urgency for action and consequences of inaction must be clear and the opportunity for hope and success must be recognised It is in this spirit that this account is offered
