Atlas of Imagined Places Matt Brown,Rhys B. Davies,2021-09-28 WINNER Edward Stanford Travel Writing Awards 2022 Illustrated Travel Book of the Year HIGHLY COMMENDED British Cartographic Society Awards 2022 From Stephen King s Salem s Lot to the superhero land of

Wakanda from Lilliput of Gulliver's Travels to Springfield in The Simpsons this is a wondrous atlas of imagined places around the world. Locations from film, tv, literature, myths, comics, and video games are plotted in a series of beautiful vintage-looking maps. The maps feature fictional buildings, towns, cities, and countries, plus mountains, rivers, oceans, and seas. Ever wondered where the Bates Motel was based? Or Bedford Falls in It's a Wonderful Life? The authors have taken years to research the likely geography of thousands of popular culture locations that have become almost real to us. Sometimes these are easy to work out, but other times a bit of detective work is needed, and the authors have been those detectives. By looking at the maps, you'll find that the revolution at Animal Farm happened next to Winnie the Pooh's home. Each location has an extended index entry plus coordinates so you can find it on the maps. Illuminating essays accompanying the maps give a great insight into the stories behind the imaginary places, from Harry Potter's wizardry to Stone Age Bedrock in the Flintstones. A stunning map collection of invented geography and topography drawn from the world's imagination. Fascinating and beautiful, this is an essential book for any popular culture fan and map enthusiast.

The Girl Who Drank the Moon - Literature Kit Gr. 5-6 Cindy Long, 2021-03-16 Several stories come together in a climactic battle between a witch, a bog monster, a dragon, and a powerful girl in order to save the villages from an impending volcanic eruption. The worksheets are easy to use and not too overwhelming for student comprehension. Students imagine having Luna's magical powers and brainstorm ways they would use it. Become familiar with unfamiliar words by determining their root word. Put yourselves into the mind of the villagers to determine why they would continue to sacrifice a child each year. Identify similes and metaphors used in the chapters. Draw the map that Luna created using detailed descriptions from the chapters. Identify key vocabulary words from the novel using synonyms, antonyms, and word associations. Aligned to your State Standards and written to Bloom's Taxonomy, our worksheets incorporate a variety of scaffolding strategies along with additional crossword, word search, comprehension quiz, and answer key. About the Novel: The Girl Who Drank the Moon follows the tale of Luna, who must quickly overcome the obstacles that were hidden from her in order to save the ones she loves. In the Protectorate village, each year the Elders sacrifice a newborn baby to the witch who lives in the forest. This sacrifice ensures the Protectorate's safety for another year. What the villagers don't know is that there is no witch at least not an evil one living in the forest. Not knowing why these babies are left to die, the witch Xan finds them and takes them to nearby villages to be raised. To sustain them on this journey, Xan feeds the babies starlight. One year, Xan mistakenly feeds the baby moonlight, which fills the child with magic. Xan decides to raise the girl herself in order to keep those around her safe from her magic. She names the child Luna. The story follows Luna as she grows and discovers her magic while also coming head-to-head with the real evil of the forest.

The Teach Like a Champion Guide to the Science of Reading Doug Lemov, Colleen Driggs, Erica Woolway, 2025-07-29 The most comprehensive and practical guide to understanding and applying the science of reading to improve literacy instruction. After effectively teaching phonics in the early grades, what does the science of reading tell us should happen in literacy classes? The Teach Like a Champion Guide to the Science of Reading by Doug Lemov, Erica Woolway, and Colleen Driggs addresses the pressing challenges educators face in effectively incorporating the Science of Reading into their instruction once students already know how to decode. By offering actionable guidance grounded in seven evidence-based principles, this book helps teachers elevate their instructional practices and better prepare students to be lifelong readers and thinkers. Grounded in proven classroom instruction, the book focuses on techniques that can allow teachers to use the science as effectively and actionably as possible. The Teach Like a Champion Guide to the Science of Reading is enhanced with more than 50 video clips from the classroom and covers ways to practically apply the Science of Reading. The book describes the often overlooked role of fluency in reading comprehension, even into the high school years, the profound importance of managing and socializing attention in an age of technology, the central role of background knowledge in understanding text, and the doubly important role of teaching vocabulary as a form of knowledge. It adds a discussion of how writing can make students better readers and how important it is that reading classes focus on reading actual books, great ones ideally. And it closes with a discussion of close reading and the challenge of preparing students to rise to the challenge of complex text. Inside the book: An innovative approach to building and reinforcing background knowledge in reading. Over 50 video demonstrations of effective teaching techniques. Sample lesson plans and materials for immediate classroom application. The Teach Like a Champion Guide to the Science of Reading is essential for educators, literacy coaches, and administrators who aim to foster rigorous literacy instruction in their classrooms and schools. This guide shows you how to implement techniques that ensure students find joy in reading and become better, wiser, more engaged, and more motivated readers both in their classrooms and in their lives beyond.
