

AMERICAN MILITARY TRAINING AIRCRAFT

*Fixed and Rotary-Wing
Trainers Since 1916*

E. R. JOHNSON
Drawings by LLOYD S. JONES

Foreword by WALTER J. BOYNE

American Military Training Aircraft Fixed And Rotary Wing Trainers Since 1916

Frederick Thomas Jane

American Military Training Aircraft Fixed And Rotary Wing Trainers Since 1916:

American Military Training Aircraft E.R. Johnson,2015-02-12 The U S did not become the world s foremost military air power by accident The learning curve World War I World War II the Korean War the Vietnam War the Gulf War and more recently the war on terror has been steep While climbing this curve the U S has not only produced superior military aircraft in greater numbers than its foes but has in due course out trained them too This book provides a comprehensive historical survey of U S military training aircraft including technical specifications drawings and photographs of each type of fixed and rotary wing design used over a 98 year period to accomplish the first step of the learning process the training of pilots and aircrews

American Military Training Aircraft E.R. Johnson,2015-03-04 The U S did not become the world s foremost military air power by accident The learning curve World War I World War II the Korean War the Vietnam War the Gulf War and more recently the war on terror has been steep While climbing this curve the U S has not only produced superior military aircraft in greater numbers than its foes but has in due course out trained them too This book provides a comprehensive historical survey of U S military training aircraft including technical specifications drawings and photographs of each type of fixed and rotary wing design used over a 98 year period to accomplish the first step of the learning process the training of pilots and aircrews

American Military Helicopters and Vertical/Short Landing and Takeoff Aircraft Since 1941 E.R. Johnson,Ted Williams,2021-11-29 Over the past eight decades developments in vertical lift aircraft both helicopters and vertical short takeoff and landing V STOL planes have given the American military unparalleled capabilities on the modern battlefield The U S has led the world in vertical lift technologies with the help of some of the brightest minds in this field Igor I Sikorsky Arthur M Young Frank N Piasecki Charles H Kaman and Stanley Hiller Jr to name a few and by having the industrial prowess to make their concepts reality This book provides a concise historical survey including technical specifications drawings and photographs of every type of helicopter and V STOL aircraft developed for the U S military from the earliest examples tested in 1941 and 1942 up to the newest prototypes

Air Force Magazine ,2015-07
Air Force and Space Digest ,2015-07
United States Marine Corps Aircraft Since 1913 E.R. Johnson,Lloyd S. Jones,2018-04-17 Among the world s military air arms United States Marine Corps Aviation occupies a unique tactical niche As the air component of a combined arms expeditionary force it exists primarily to support Marine combat forces on the ground in their amphibious assault mission From the Banana Wars of the 1920s to the present day War on Terror Marine aviation has undergone a lengthy fine tuning process not only in terms of warfare doctrines and tactics but also in the types of aircraft needed to accomplish the mission This comprehensive survey provides the history technical specifications drawings and photographs of every type of fixed and rotary wing aircraft used by Marine Air from its origins prior to World War I up to current operations

American Aircraft Development Second World War Legacy William J. Norton,2021-12-02 This volume focuses on the influence of America s Second World War aviation development and

experience subsequent aviation technological advances and world events in shaping American choices in military aircraft and associated weapons development during the few years following the war. It shows how air warfare weapons from the last conflict were carried forward and altered how new systems evolved from these and how the choices fared in the next war Korea. The period was one of remarkable progress in a short span of time via a great many aircraft and weapons programs and associated technological progress. These systems were of immense importance influencing and growing the engineering production and operational capabilities to be exploited for the next generation of weapons that soon followed. Emphasized is the innovative features or new technology and how these contributed to advancing American military aviation influencing the evolution of follow on models or types. Included are military prototype experimental and research aircraft that are equally important in understanding the history of American aircraft development. Combat employment progress and equipment adaptation during the Korean Conflict is then highlighted. Tabulated characteristics are provided of those aircraft that entered production or represented significant technological advances influencing others that follow.

La formation des aviateurs de la Royal Air Force et du Commonwealth 1934 - 1945 Frédéric Gil, 2025-01-25 Avant guerre les aviateurs de la RAF n'avaient quasiment aucune pratique du vol de nuit et sauf quelques équipages d'hydravions ils n'avaient pas formés pour naviguer sur de grandes distances en situation de couvre-feu. Entre juillet 1934 et novembre 1938 le gouvernement britannique approuve huit plans d'expansion de la RAF pour lesquels il faut former des milliers d'aviateurs. Former des aviateurs coûtait et coûte toujours extrêmement cher et demandait des années. Ne sachant pas quelles allaient être les pertes d'une guerre moderne ni l'expansion réelle de la RAF il était très difficile d'estimer les besoins. Malgré un effort énorme les hommes manquent dès les premiers combats de 1940 et les côles de la RAF se révèlent vulnérables aux attaques de la Luftwaffe. La formation des aviateurs a fortement voulu pour répondre aux attentes des unités opérationnelles ou pour s'adapter de nouvelles technologies avions quadrimoteurs aides de navigation radio et radar etc. Plus de 325 000 aviateurs du Commonwealth ont été formés pendant la guerre alors que la RAF ne disposait que de peine plus de 5 000 pilotes formés mi-1936. Peu de recherches ont été consacrées à la formation des aviateurs. Pourtant il est parfois difficile d'expliquer certaines décisions opérationnelles sans remonter l'origine du problème. Il est par exemple peu connu que près de quarante pour cent des avions produits par les usines britanniques au plus fort de la guerre étaient des avions de formation et que les pilotes de la RAF étaient majoritairement formés à l'étranger entre 1939 et 1945. Ce livre basé sur un travail de recherche de plusieurs années raconte cette histoire. Signifiant au sein d'une série d'ouvrages sur l'histoire des grands Commandements de la RAF durant la guerre il a pour principale ambition de présenter l'évolution programmes de formation des matériels et de leur technologie en se basant autant que possible sur des documents originaux.
