Non-Western Encounters with Democratization Christopher K. Lamont, Jan van der Harst, 2016-03-09 Non Western Encounters with Democratization offers diverse perspectives on democracy and transition spanning the Middle East and North Africa to East Asia This unique collection of essays drawn from contextually rich case studies presents readers with a variety of non western encounters with democracy and provides important insights into the dramatic political and social transformations in these regions over the past decades The book offers a deeper understanding of democratization and challenges the image of western democracy as a universal model to which non western societies aspire Taking the events of the Arab Spring as the starting point international contributors look at why the uprisings that rapidly spread across North Africa and the Middle East had a strong resonance in East Asia but failed to inspire similar revolts Through direct engagement with non western experiences of political transition the book demonstrates a unique coherence across two regions relatively under explored in democratization literature **Seoul** Ross King, 2018-02-28 Seoul is a colossus both in its physical presence and the demand it places on any intellectual effort to understand it How did it come to be How can a city this immense work Underlying its spectacle and incongruities is a city that might be described as ill at ease with its own past

The bitter rifts of Japanese colonization persist as does the troubled aftermath of the Korean War and its divisions the economic Miracle on the Han that followed is crosscut by memories of the violent dictatorship that drove it In Seoul author Ross King interrogates this contested history and its physical remnants tacking between the city s historiography and architecture with attention to monuments streets and other urban spaces The book s structuring device is the dichotomy of erasure and memory as necessary preconditions for reinvention King traces this phenomenon from the old dynasties to the Japanese regime and wartime destruction he then follows the equally destructive reinvention of Korea under dictatorship to the brilliant city of the present with its extraordinary explosion of creativity and ideas the post 1991 Hallyu the Korean Wave The final chapter returns to questions of forgetting and memory but now as conditions of possibility for what would seem to underlie the present trajectory of this extraordinary city and culture Seoul can be read King suggests in the context of the hybrid ideas that have characterized Korean cultural history It may be their present eruption that accounts for the city of contradictions that confronts the contemporary observer and that most extraordinary of Korean phenomena the rise of an alternative virtual world eclipsing both city and nation Has the very idea of Korea been reinvented even as the weakly defined nation state slips away

Bullying and Violence in South Korea Trent Bax,2017-02-10 This book provides a fully contextualised multidisciplinary examination of bullying and violence in South Korean society Bullying and violence has been a pressing societal issue since 2011 having been labelled as a social evil to be eradicated by the government However the issue has been incorrectly confined to schools when in fact it is widespread in society and in professional settings as Bax argues in this original new text Through twenty in depth case studies and original case material from a Juvenile Detention Centre Bax examines the historical cultural political and social contexts of bullying and violence to better understand the nature of these crimes the perpetrators and how they come together in the broader cultural landscape within which the individual the family the school and the community are embedded

The East Asian World-System Eugene N. Anderson,2019-06-04 This book studies the East Asian world system and its dynastic cycles as they were influenced by climate and demographic change diseases the expansion of trade and the rise of science and technology By studying the history of East Asia until the beginning of the 20th century and offering a comparative perspective on East Asian countries including China Japan and Korea it describes the historical evolution of the East Asian world system as being the result of good or poor management of the respective populations and environments Lastly the book discusses how the East Asian regions have become integrated into a single world system by a combination of trade commerce and military action Given its scope the book will appeal to scholars of history sociology political science and environmental studies and to anyone interested in learning about the effects of climate change on the dynamic development of societies

Nation-States and Nationalisms Sinisa Malesevic,2013-10-11 Despite many predictions made over the last two hundred years that nation states and nationalism are transient phenomena that will eventually fade away the historical record and contemporary events show otherwise Nationalism still remains the most popular potent and resilient ideological discourse and the nation state the only legitimate mode of territorial rule This innovative and concise book provides an in depth analysis of the processes involved in the emergence formation expansion and transformation of nation states and nationalisms as they are understood today Sinisa Malesevic examines the historical predecessors of nation states from hunting and gathering bands through city states to modernizing empires and explores the historical rise of organizational and ideological powers that eventually gave birth to the modern nation state The book also investigates the ways in which nationalist ideologies were able to envelop the microcosm of family kin residential and friendship networks Other important topics covered along the way include the relationships between nationalism and violence the routine character of nationalist experience and the impacts of globalization and religious revivals on the transformation of nationalisms and nation states This insightful analysis of nationalisms and nation states through time and space will appeal to scholars and students in sociology politics history anthropology international relations and geography

[Crossing Nuclear Thresholds](#) Jeannie L. Johnson,Kerry M. Kartchner,Marilyn J. Maines,2018-04-25 This book applies the cutting edge socio cultural model Cultural Topography Analytic Framework CTAF pioneered in the authors earlier volume *Strategic Culture and Weapons of Mass Destruction Culturally Based Insights into Comparative National Security Policymaking* Palgrave Macmillan 2009 with an eye towards isolating those vectors of nuclear decision making on which the US might exert influence within a foreign state The case studies included in this volume tackle a number of the nuclear challenges termed nuclear thresholds likely to be faced by the US and identify the most promising points of leverage available to American

policymakers in ameliorating a wide range of over the horizon nuclear challenges Because near and medium term nuclear thresholds are likely to involve both allies and adversaries simultaneously meaning that US response will require strategies tailored to both the perception of threat experienced by the actors in question the value the actors place on their relationship with the US and the domestic context driving decision making This volume offers a nuanced look at each actor s identity national norms values and perceptual lens in order to offer culturally focused insights into behavior and intentions
