A History Of The Arab Peoples:

A History of the Arab Peoples Albert Habib Hourani, Albert Hourani, 2002 Chronicles the history of Arab civilization looking at the beauty of the great mosques the importance attached to education the achievements of Arab science the role of women internal conflicts and the Palestinian question *A History of the Arab Peoples* Albert Hourani, 2013-01-01 In a bestselling work of profound and lasting importance the late Albert Hourani told the definitive history of the Arab peoples from the seventh century when the new religion of Islam began to spread from the Arabian peninsula westwards to the present day It is a masterly distillation of a lifetime of scholarship and a unique insight into a perpetually troubled region This updated edition by Malise Ruthven adds a substantial new chapter which includes recent events such as 9 11 the US invasion of Iraq and its bloody aftermath the fall of the Mubarak and Ben Ali regimes in Egypt and Tunisia and the incipient civil war in Syria bringing Hourani's magisterial History up to date Ruthven suggests that while Hourani can hardly have been expected to predict in detail the massive upheavals that have shaken the Arab world recently he would not have been entirely surprised given the persistence of the kin patronage networks he describes in his book and the challenges now posed to them by a new media aware generation of dissatisfied youth In a new biographical preface Malise Ruthven shows how Hourani's perspectives on Arab history were shaped by his unique background as an English born Arab Christian with roots in the Levant *A History of the Arab Peoples* Albert Hourani, 1991 This history of the countries where Arabic is the main language of speech and culture stretching from Morocco to Iraq covers the period from the 7th to the 10th century when the new religion of Islam carried the Arabic language with it and created an Arabic Muslim world The story is carried up to the 1980s and the author shows how Arab history is intertwined with some of the great processes of world history [History of the Arab Peoples](#) Albert Hourani, 1991 Encyclopedic and panoramic in its scope this fascinating work chronicles the rich spiritual political and cultural institutions of Arab history through 13 centuries [A History of the Arab Peoples](#) Bryan Gibson, 2017-07-15 Albert Hourani's *A History of the Arab Peoples* is unsurpassed as an overview of Arab history from the rise of Islam to the late twentieth century Going far beyond political history it provides a deep analysis of social cultural and economic structures **An Analysis of Albert Hourani's A History of the Arab Peoples** Brown, Bryan Gibson, 2017-07-05 Albert Hourani's *A History of the Arab Peoples* is unsurpassed as an overview of Arab history from the rise of Islam to the late twentieth century Going far beyond political history it provides a deep analysis of social cultural and economic structures **An Analysis of Albert Hourani's A History of the Arab Peoples** Brown, Bryan Gibson, 2017-07-05 Few works of history make as well structured a case for the importance of studying continuity rather than change than Albert Hourani's *A History of the Arab Peoples* Hourani's work had three major aims to refute the idea that Arab society stagnated between 1000 and 1800 to study the period through the lens of diverse Arab rather than Muslim history and to stress intellectual and cultural continuity All of these intentions were the product of the author's evaluation of a great mass of secondary sources

many of them devoted to arguing for ideas that contradicted his and it demanded considerable skill to synthesize from them a coherent and well evidenced counter argument Hourani was able to do this largely because his grasp of the relevance and adequacy of his predecessors arguments was second to none his achievement lies in his ability to reject the reasoning of other historians while still making good use of their evidence In this task he was aided by an interpretative skill almost equal to his powers of evaluation A History of the Arab Peoples is also a monument to the importance of properly understanding the meaning of available evidence

A Short History of the Arab Peoples John Bagot Glubb,1969

Arabs Tim Mackintosh-Smith,2019-04-30 A riveting comprehensive history of the Arab peoples and tribes that explores the role of language as a cultural touchstone This kaleidoscopic book covers almost 3 000 years of Arab history and shines a light on the footloose Arab peoples and tribes who conquered lands and disseminated their language and culture over vast distances Tracing this process to the origins of the Arabic language rather than the advent of Islam Tim Mackintosh Smith begins his narrative more than a thousand years before Muhammad and focuses on how Arabic both spoken and written has functioned as a vital source of shared cultural identity over the millennia Mackintosh Smith reveals how linguistic developments from pre Islamic poetry to the growth of script Muhammad s use of writing and the later problems of printing Arabic have helped and hindered the progress of Arab history and investigates how even in today s politically fractured post Arab Spring environment Arabic itself is still a source of unity and disunity

Formation of the Arab Nation (RLE: The Arab Nation) A Duri, 2012-08-21 This book is a comprehensive examination of the historical process of social formation that gave rise to the communal consciousness of the Arab nation and determined its sense of identity. It aims to provide a historical context for the assessment of prevailing concepts and suggests hypotheses for the development of modern Arab consciousness. The book firstly traces Arab origins and the formation of Arab societies after the emergence of Islam, assessing the perspectives and factors that shaped the rise of the Arab nation in both practical and intellectual terms. It then examines the beginning of the Arab awakening and the course of its development in the latter half of the nineteenth century and the first two decades of the twentieth, focusing on the emergence of a nationalist perspective in the development of intellectual positions on patriotism and Arabism.
