A Lifetime Deal Alien Encounters:

Alien Encounters Judy L. Clarke, 2011-06-21 Aliens first visited Judy Clarke in 1952 when she was just nine months old. Since then the visits have occurred approximately once every two years and though she does not recall every detail she does carry physical reminders and specific vivid memories. Fear is often associated with beings not of the human world but in this Clarke's experiences are very different. In *Alien Encounters A Lifetime Deal* writer, counselor, healer, and nurse Judy L. Clarke reveals her enlightening lifelong relationship with aliens in exacting evidence-laden detail. She helps us to recognize the truth in our hearts and souls and see that there is nothing to fear. The powers that be in our world, steeped as they are in ignorance, aggression, and greed, are quick to react to the stories of abductees with laughter, ridicule, disbelief, and horror. By that measure, it is clear humans are not ready for the greater destiny shared by the many beings dwelling beyond earth in space and in the spiritual plane. But the aliens in our skies are patiently waiting for us, watching us, and yes, implanting a select few of us with special gifts to help us be better people. Gifts like kindness, healing, empathy, creativity, clairvoyance, clairaudience, telepathy, and closeness to the God within. Clarke's experiences, shown encounter by encounter and lesson by lesson, lead us to understand that if we open our eyes, hearts, and minds, light will shine. If we ask, we may indeed receive. *Alien Encounter* Dirk Schulze-Makuch, 2013-09-18 It has been nearly 100 years since the Apollo moon landings when Jack and Vladimir, two astronauts on a mission to Venus, discover a mysterious void related to indigenous life on the planet. Subsequently, more voids are detected on Earth, Mars, Titan, and quite ominously inside a planetoid emerging from the Kuiper belt. Jack is sent to investigate the voids in the Solar System and intercept the planetoid which, as it becomes increasingly clear, is inhabited by alien life forms. Jack and his crew will have little time to understand their alien biochemistry, abilities, behavior patterns, resilience, and technology but also how these life forms relate to the voids. Humankind's first encounter with these exotic life forms couldn't be more fateful, becoming a race against time to save life on Earth and to reveal the true nature of the voids which seem to be intrinsically related to life and the universe itself. In this novel, the author combines many topics related to state-of-the-art research in the field of astrobiology with fictional elements to produce a thrilling page-turner. This new version significantly develops the astrobiological denouement of the plot and features an extensive non-technical appendix where the underlying science is presented and discussed. From the reviews of the first edition: *Voids of Eternity: Alien Encounter*. Here's a thrilling yarn in the best hard SF tradition of Asimov, James Hogan, and Ben Bova, written by a scientist who knows all about the possibilities of life in the solar system and beyond. Dirk Schulze-Makuch weaves into his book all the astrobiological themes he's worked on in recent years: speculation about creatures in the atmosphere of Venus and on and under the surface of Mars and Titan, together with some well-informed Eastern philosophy and a cracking good space battle. A great first novel from a rising talent. Highly recommended. David Darling on amazon.com, 2009. The research interests of Dr. Schulze-Makuch, currently a professor at Washington State University, focus on evolutionary adaptation strategies of

organisms in their natural environment particularly extreme environments such as found on other planetary bodies Dirk Schulze Makuch is best known for his publications on extraterrestrial life being coauthor of three books on the topic We Are Not Alone Why We Have Already Found Extraterrestrial Life 2010 Cosmic Biology How Life could Evolve on Other Worlds 2010 and Life in the Universe Expectations and Constraints 2004 In 2011 he published with Paul Davies A One Way Mission to Mars Colonizing the Red Planet and in 2012 with David Darling Megacatastrophes Nine Strange Ways the World Could End
