Samsung Galaxy S20 & S20 Plus Edmund Embury,2020-10-10 Samsung Galaxy S20 S20 Plus2020 2021 User s Guide to Master Your Samsung Galaxy 40 Best Tips and Tricks for your Android Phone IncludedThe company decided to reboot its flagship lineup stepping from the Galaxy S10 directly to the Galaxy S20 By naming the new model S20 Samsung first of all broke the associative link of its products with the lineup of its main competitor Apple iPhone The company was constantly in the role of catching up releasing its flagship with a similar index with a delay of half a year

Let me remind you that the iPhone 11 was introduced back in September 2019 and the Galaxy S11 would again feel a bit late. In addition in the new line for the first time since the announcement of the Galaxy S6 Edge in 2015 Samsung has changed a key design element of its flagships almost completely eliminating the curved display edges. Samsung Galaxy S20 became the first smartphone in the S line which lost the 3.5 mm jack but received support for eSIM built in SIM card. Also for the first time in many years the company changed the matrix of its cameras to a new sensor from Sony the IMX555 model. And of course this is the first time a new display with a refresh rate of 120 Hz is used. I disagree with those who don't see much change in the Galaxy S20 over previous models. These differences exist and they are quite serious. Rather the question is different isn't the new model a step forward and two steps back? There is a lot of criticism on the web about new products especially the Galaxy S20 Ultra. You will learn from our book Samsung S20 S20 Plus and S20 Ultra Everything you need to know about the newest smartphone.
