A Guide To The Packhorse Bridges Of England:

A Guide to the Packhorse Bridges of England Ernest Hinchliffe, 1994-01-01 The Bridges of Medieval England David Featherstone Harrison, 2004 Medieval bridges are startling achievements of civil engineering which prove the importance of road transport and the sophistication of the medieval economy The Bridges of Medieval England rewrites their history offering new insights into many aspects of the subject It has profound implications for our understanding of pre industrial economy and society challenging accepted accounts of the development of medieval trade and communications and showing continuities from the Anglo Saxon period to the eve of the Industrial Revolution Medieval Bridges of Southern England Marshall G. Hall, 2022-09-15 Throughout history rivers have been a hub for human settlement and have long been a key part of local livelihoods history and culture as well as still playing a present day role in providing services and leisure to people who live around them It is no coincidence that all four of the earliest human civilizations were formed on great rivers the Nile Euphrates Indus and Yellow rivers all saw great human aggregation along them The most ancient and vital architectural structures linked to the use of rivers are bridges There are a wide range of medieval bridge structures some very simple in their construction to amazing triumphs of design and engineering comparable with the great churches of the period They stand today as proof of the great importance of transport networks in the Middle Ages and of the size and sophistication of the medieval economy These bridges were built in some of the most difficult places across broad flood plains deep tidal waters and steep upland valleys and they withstood all but the most catastrophic floods Yet their beauty from simplistic to ornate remains for us to appreciate Medieval Bridges of Southern England has been organized geographically into tours and covers the governmental regions of Southwest England London and Southeast England There are exactly 100 bridges included There is an introduction and background information about the medieval period of English history at the beginning and there are beautiful full color photographs throughout the book Medieval Bridges of Middle England Marshall G. Hall,2024-03-15 Throughout history rivers have been a hub for human settlement and have long been a key part of local livelihoods history and culture as well as still playing a present day role in providing services and leisure to people who live around them It is no coincidence that all four of the earliest human civilizations were formed on great rivers the Nile Euphrates Indus and Yellow rivers all saw great human aggregation along them The most ancient and vital architectural structures linked to the use of rivers are bridges There are a wide range of medieval bridge structures some very simple in their construction to amazing triumphs of design and engineering comparable with the great churches of the period They stand today as proof of the great importance of transport networks in the Middle Ages and of the size and sophistication of the medieval economy These bridges were built in some of the most difficult places across broad flood plains deep tidal waters and steep upland valleys and they withstood all but the most catastrophic floods Yet their beauty from simplistic to ornate remains for us to appreciate Medieval Bridges of Middle England has been organized geographically into tours and

covers the governmental regions of East of England East Midlands and West Midlands There are 62 bridges included and beautiful full color photographs of each bridge are included A brief history is incorporated with each bridge Additionally information about the construction materials used and unique features are related as well as historically relevant documents and images Directions to each bridge and local attractions are also given There are literally hundreds of bridges in England that meet the criteria for inclusion in this roll of honor for senior bridges They vary vastly in size style and materials Most are stone and a very few are brick We have lost many of our older bridges to the ravages of time and the modern practice of culvertisation and urban development A few of our older bridges remain though and their beauty and pivotal role in our history is starting to be recognized An Encyclopaedia of British Bridges David McFetrich, 2019-04-30 An already impressive reference work has been made significantly more valuable a well illustrated alphabetized compendium of notable bridges The Happy Pontist Bridges have a universal appeal as examples of man's mastery of nature from picturesque packhorse bridges to great spans stretching across broad estuaries and the development of the technology that allows ever more audacious constructions is never ending Of the million or more bridges throughout Great Britain David McFetrich has selected those that are significant in terms of their design construction or location or of their connections with people or events of history His definitive book contains 1 600 separate entries for individual bridge sites or related groups of bridges covering more than 2 000 different structures 165 general entries about different types of bridge and such topics as collapses and failures and a summary of about 200 record holding bridges in 50 different categories. The concise text is supported by more than 900 illustrations and diagrams The result is a fascinating and readily accessible compendium The Institute of Civil Engineers ICA is also on board A valuable resource to use if you plan to visit some of these structures while on holiday or are merely planning a day out East Yorkshire Family History Society Well written and researched and eminently readable Because of the ubiquity of bridges throughout Great Britain this volume should have wide appeal NZ Crown Mines Full of details covering the many bridges around the UK I found it fascinating to see the variety of bridges around Britain even the ones not railway related Rail Advent The Penguin Guide to the Landscape of England and Wales Paul Coones, John Patten, 1986 Cycling Touring Guide: Northern England Harold Briercliffe, 2012-06-28 The revised edition of the classic cycling guide of 1947 by Harold Briercliffe Used as the inspiration for the Britain by Bike television series and a vital part of the award winning Britain by Bike book by Jane Eastoe the original book is reproduced along with suggested cycling routes in the northern England region for today s cyclists Harold Briercliffe was the Alfred Wainwright of cycling and his books provide great insight into cycling in various parts of the UK in the 1940s Harold's fascinating description of the towns villages and roads of Britain at the time is a joy for all those who love these isles and especially for cyclists looking for inspiration Many roads have changed over the decades and are now too busy for enjoyable cycling so Mark Jarman along with Sustrans have made suggestions for alternative routes in the region for today s cyclists The book includes the original

photographs taken by Harold Briercliffe and the original illustrations The Cycling Tourng Guide Northern England covers cycle routes in the Lake District the Yorkshire Dales and the North East Coast plus shorter tours around the Ribble Valley Forest of Bowland around Pendle Hill Bronte Country Lancashire Coast Lunedale and the Pennine Link It also covers shorter trips around the Plain of York and from Pool to Richmond The cycle routes vary in length from half day and day long trips to weekend and week long tours The Companion Guide to the Lake District Frank Welsh, 1997 England's Lake District is thoroughly explored in this knowledgeable guide Frank Welsh is the consummate guide and companion writing with wit and intelligence and leaving hardly a stone unturned He covers both the less visited and in his view unappreciated parts of the Lake District as well as those which no visitor will want to miss Back cover The Penguin Guide to England and Wales, 1991 Penguin Books, Frank Dawes, 1991 **Discovering Green Lanes** Valerie Belsey, 2001 This is the essential handbook for anyone interested in green lanes Valerie Belsey shows how to identify them on the ground how to recognise them on antique maps and how to locate documents and other records which will reveal who used them in past times She also discusses their ecological value the current controversy about who should be able to use them and how to get involved in restoring and protecting lanes in your area Discovering Green Lanes includes useful contact information key dates in highway history and sample survey forms for recording wildlife in your local green lane The Macmillan Guide to the *United Kingdom 1978-79* NA NA,2015-12-25 The Time Team Guide to the Archaeological Sites of Britain & **Ireland** Tim Taylor, 2005 Channel 4 s perenially popular Time Team take us on an archaeological sight seeing tour of Britain and Ireland Region by region they select the most interesting and important sites which are open to public visitors some familiar to all others relatively unknown **Bridges** Richard Hayman, 2020-02-20 From the monumental splendour of Tower Bridge and the august span at Westminster to the engineering masterpieces at Ironbridge and the Forth bridges comprise some of the most recognisable landmarks in Britain Whether the smallest arch or the largest overpass each has a rich architectural economic social and sometimes even religious history This beautifully illustrated introduction by Richard Hayman explains how piety built and maintained bridges in the Middle Ages how economic forces inspired a new generation of road bridges in the eighteenth century such as the Menai Bridge in North Wales and how technological prowess gave us soaring Victorian railway viaducts and the concrete road bridges of the twentieth century **British Book News** British Council, 1993 Includes no 53a British wartime books for young people A Guide to the Historical and Archaeological Publications of Societies in England and Wales, 1901-1933 Edward Lindsay Carson Mullins, University of London.
