Brett King, Wayne Viney, William Douglas Woody, 2009 A History of Psychology Ideas and Context Fourth Edition is a comprehensive history of psychology tracing psychological thought from antiquity through early twenty first century developments The opening chapters present the reader with a dynamic framework for exploring psychology in the context of historiography and philosophical issues The text provides in depth coverage to the intellectual trends that preceded the formal founding of psychology in the late 1870s coupled with an analysis of the major systems of thought and the key developments in the history of basic and applied psychology The final chapter focuses on major trends in psychology from the latter half of the twentieth century to the early twentieth first century *Psychology of Sustainability* Robert G. Jones, 2014-07-11 Psychology of Sustainability An Applied Perspective examines the many psychological factors that lead to human behavioral effects on the environment Each chapter will apply elements from a basic research area into the context of criteria specific to sustainability Increased interest has led many universities to offer courses on Psychology of Sustainability This book is the perfect text to provide an introduction to the subject Throughout the book readers will find new ways of framing questions related to human adaptability and evolutionary psychology Psychology of Sustainability is ideal for students or professionals who are looking to contribute to the conversation **Portraits of Pioneers in Psychology** Gregory A. Kimble, Michael Wertheimer, 2000-11-01 This fourth

book in the series continues the tradition of the popular earlier volumes by offering lively and entertaining information about some of contemporary psychology's most illustrious ancestors. The 21 chapters, many of them written by today's most visible and eminent authors, concentrate on the lives and achievements of major psychologists from a variety of areas. Created for undergraduate and graduate courses in the history of psychology, the variety of pioneers represented provides enough flexibility to also use it as a supplemental reader in other psychology courses. Each of the five volumes in this series contains different profiles, thereby bringing more than 100 of the pioneers in psychology more vividly to life. **Origin and**

**Development of Scientific Psychology in Different Parts of the World** Hiroshi Imada, 2002. When and under what influences did scientific psychology originate in different parts of the world? What are the intra and international regional sources of influence that have affected its development into the present form? These questions were applied to three regions and three countries, which were as follows: the names of the authors in charge are in parentheses. Latin American countries: Juan Jose Sanchez Soza, Mexico; Scandinavian countries: Ingvar Lundberg, Sweden; German speaking countries: Lothar Sprung, Germany; Spain: Helio Carpintero, Spain; China: Qicheng Jing and Fu Xiaolan, China; and Japan: Tadasu Oyama, Japan. Visual presentations including maps of these regions, countries, tables showing the pedigrees of scientific psychology and chronological tables with names of psychologists and affiliations illustrate the stream of influences both temporally and spatially. These figures and tables are also used to look forward to the psychology of the 21st century. This special issue is based on the symposium held at XXVII International Congress of Psychology in Stockholm in 2000. **Psychology of the 21st century** This special issue is based on the symposium held at XXVII International Congress of Psychology in Stockholm in 2000.
