A Life And Death Decision A Life And Death Decision:

Life and Death Decisions Sheldon Ekland-Olson, 2014-11-12 Issues of Life and Death such as abortion assisted suicide capital punishment and others are among the most contentious in many societies Whose rights are protected How do these rights and protections change over time and who makes those decisions Based on the author's award winning and hugely popular undergraduate course at the University of Texas this book explores these questions and the fundamentally sociological processes which underlie the quest for morality and justice in human societies The Author's goal is not to advocate any particular moral high ground but to shed light on the social movements and social processes which are at the root of these seemingly personal moral questions Under 200 printed pages this slim paperback is priced and sized to be easily assigned in a variety of undergraduate courses that touch on the social bases underlying these contested and contentious issues

Deciding Who Lives Renee R. Anspach, 1993 In a probing look at the reality of everyday choices in neonatal intensive care units sociologist Renee Anspach explores the life and death dilemmas that have fueled much national debate Anspach considers the roles of parents doctors nurses and bioethicists in deciding the fate of terminally ill or malformed newborns

Life and Death Decision Making Baruch A. Brody, 1988 Integrating theory with case studies this book examines the practical application of moral theory in clinical decision making through 40 composite cases based on actual clinical experience Complex realistic and challenging these examples contain the multiplicity of factors faced in clinical crises making this a superb exploration of the ways in which theory relates to actual life or death situations First Response: The Life-and-Death Decisions of Paramedics

Sultan Manzil Alanazi, Talal Manzil Alanazi, Abdullah Matar Alanazi, Tariq Rabeh Al-Mutairi, The world of emergency medical services EMS is frenzied and every second matters Paramedics and emergency responders are the gatekeepers of life and death and often make decisions that affect the lives of others with little more than a fraction of seconds The gravity of these decisions the outcome is immediate and irreversible is the crucible in which these professionals are forged This book *The Crucible of Emergency Care The Life and Death Decisions of Paramedics* is an examination of that high stakes setting It honors those that take the route of dealing reaction clarifying the valor expertise and strength necessary to work through one of the most serious minutes an individual may ever confront While the book is damn near all about the technical aspects of the job it's also a meditation on the mental fortitude and emotional endurance required to make decisions that can literally be the difference between life and death Throughout these pages readers will meet people who have endured who have triaged the dying stabilized the critically injured comforted the frightened all in the space of a few moments They will learn about the gasping preparations and extensive training that enable paramedics to act at a moment's notice and the complex moral and ethical dilemmas that can surface when the pressure is on and stakes are highest For paramedics making such sacrifices is not an afterthought it is part and parcel of the profession But at its heart this book is about the people behind the uniforms the grit empathy and expertise that paramedics

bring to every emergency The demands of the work are great yet the calling to help others is often greater

Practical Decision Making in Health Care Ethics Raymond J. Devettere, 2009-12-04 For nearly fifteen years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field Devettere's approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making This third edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV AIDS research in Africa This edition also includes a new chapter on the latest social and political issues in American health care Devettere's engaging text relies on commonsense moral concepts and avoids academic jargon It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics

End-of-life Decisions Maurice Steinberg, Stuart J. Youngner, 1998 In recent years the lens of the media has narrowed issues of euthanasia and assisted suicide to a drama involving two players Dr Kevorkian and the law This has left suffering patients and their families unrecognized and isolated when facing the most painful life decision Here at last is a book that addresses the role of psychiatry in dealing with a major controversial topic in American medicine today treatment decisions at the end of life *End of Life Decisions A Psychosocial Perspective* acknowledges and explores the role psychiatrists can play as advisers to the terminally ill and their loved ones It describes the wide range of emotional and psychiatric issues faced by the patient family and physician that affect choices patients make to limit treatment or seek physician assistance in dying A distinguished group of contributors all of whom have extensive experience dealing with end of life issues in clinical practice address topics that may not have been considered previously From dealing with issues of terminal illnesses in children to making difficult treatment decisions for patients with AIDS from judging the competency of clinically depressed patients for making sound decisions to understanding the influence of family dynamics economic forces and language differences on doctor patient communication the book uses specific case studies and data to explore the role of professionals in end of life decisions *End of Life Decisions* strikes a careful balance between the need for patient autonomy and the challenge to make well formulated treatment decisions This book will heighten modern medicine's and society's consciousness concerning the difficult challenges faced by patients and their families when making end of life decisions

Decision Science and Technology James Shanteau, Barbara A. Mellers, David A. Schum, 2012-12-06 *Decision Science and Technology* is a compilation of chapters written in honor of a remarkable man Ward Edwards Among Ward's many

contributions are two significant accomplishments either of which would have been enough for a very distinguished career First Ward is the founder of behavioral decision theory This interdisciplinary discipline addresses the question of how people actually confront decisions as opposed to the question of how they should make decisions Second Ward laid the groundwork for sound normative systems by noticing which tasks humans can do well and which tasks computers should perform This volume organized into five parts reflects those accomplishments and more The book is divided into four sections Behavioral Decision Theory examines theoretical descriptions and empirical findings about human decision making Decision Analysis examines topics in decision analysis Decision in Society explores issues in societal decision making The final section Historical Notes provides some historical perspectives on the development of the decision theory Within these sections major multi disciplinary scholars in decision theory have written chapters exploring some very bold themes in the field as an examination of the book s contents will show The main reason for the health of the Decision Analysis field is its close links between theory and applications that have characterized it over the years In this volume the chapters by Barron and Barrett Fishburn Fryback Keeney Moreno Pericchi and Kadane Howard Phillips Slovic and Gregory Winkler and above all von Winterfeldt focus on those links Decision science originally developed out of concern with real decision problems and applied work such as is represented in this volume will help the field to remain strong
