A Life In Our Times:

A Life in Our Times John Kenneth Galbraith, 2019-07-31 In his memoirs John Kenneth Galbraith recalls amusingly even brilliantly the important and low moments in his life the men and women he met who were great only interesting entertaining or even absurd Galbraith studied agriculture in his native Canada and agricultural economics at UC Berkeley He taught at the University of California served briefly in FDR's administration and went on to Harvard In Cambridge England he discovered the new economics of John Maynard Keynes During World War II in Washington he held the key job of organizing and administering the system of wartime price controls After the war Galbraith directed the survey that interrogated former Nazi leaders to assess the effects of the air war on the German economy He then worked for the State Department as administrator for economic affairs in the occupied countries and served as an editor of *Fortune* when the magazine employed some of the best writers around Galbraith returned to Harvard in 1948 and wrote three of the most influential books on economics of his time *The Affluent Society* *The New Industrial State* and *Economics and the Public Purpose* In these lively memoirs the author relates all of this and more his two major political campaigns with Adlai E Stevenson for whom he was adviser and speech writer and John F Kennedy for whom he campaigned across the country his years as ambassador in India and his long opposition to the Vietnam war And he shares the lessons learned from these experiences On every subject Mr Galbraith is succinct and witty The book is full of strong opinion and proceeds by the vehicle of anecdote The serious business of the book is to trace the steps of its author's astonishingly varied and useful life Mr Galbraith's vigor of expression as well as an account of a period of gloom and psychotherapy prevents the writing from ever sounding impersonal That serious business is also to set the record straight on what his books were about and how he evolved his theory of *The Affluent Society* and *The New Industrial State* as two of his most important works were named on why the bombing of Germany during World War II was less than useless why it was patently unnecessary to wage atomic warfare on Japan and why he came to be a dissenter on the war in Vietnam On inflation On the secular priesthood that once presided at the State Department And enchantingly on such movers and shakers he came to know well as the New Dealer Leon Henderson Paul Baran the most interesting economist I have ever known Bernard M Baruch Adlai E Stevenson John F Kennedy and Lyndon B Johnson Christopher Lehmann Haupt *The New York Times* As a raconteur and a literary stylist Galbraith stands with the best As entertainment the book is a total success Its charm comes from the combination of Mr Galbraith's smooth comic timing and his not always charitable wit James Fallows *The New York Times* Galbraith ranks with the most entertaining and provocative political writers in America in this century Without Galbraith the political literature of our time would be far drearier Gaddis Smith *Foreign Affairs* Galbraith has assembled a well nigh complete record of what he has been up to professionally at least since leaving his family's Ontario farm The account is fascinating The narrative consistently holds the distinctive Galbraith style that makes all his books read like a nippy breeze Geoffrey Colvin *Christian Science Monitor*

Social Research for our Times Claire Cameron, Alison Koslowski, Alison Lamont, Peter Moss, 2023-11-14 For 50 years researchers at UCL's Thomas Coram Research Unit have been undertaking ground breaking policy relevant social research. Their main focus has been social issues affecting children, young people and families and the services provided for them. Social Research for our Times brings together different generations of researchers from the Unit to share some of the most important results of their studies. Two sections focus on the main findings and conclusions from research into children and children services and on family life, minoritised groups and gender. A third is then devoted to the innovative methods that have been developed and used to undertake research in these complex areas. Running through the book is a key strategic question: what should be the relationship between research and policy? Or put another way: what does policy relevant research mean? This perennial question has gained new importance in the post Covid, post Brexit world that we have entered, making this text a timely intervention for sharing decades of experience. Taking a unique opportunity to reflect on research context as well as research findings, this book will be of interest to researchers, teachers, students and those involved in policy making both in and beyond dedicated research units and can be read as a whole or sampled for individual standalone chapters.

Looking for Gandhi in our Times Varsha Das, The book is a fascinating personal account of Gandhiji and his ideas as he translated them into his own life and encouraged others to translate their beliefs into their lives. Some of the key notions propagated by Gandhiji have been outlined in simple and practical terms such as the idea of education for personal spiritual and skills development. Also, this book emphasizes the important role that Kasturba played in the liberation movement in India and in South Africa. She is not depicted as the woman behind a great man but rather as an activist and leader in her own right. Her strong personality comes through the stories in this book.

Legends of Our Times Morgan Baillargeon, Leslie Tepper, 2011-11-01 Throughout the world the cowboy is an instantly recognized symbol of the North American West. *Legends of Our Times* breaks the stereotype of cowboys and Indians to show an almost unknown side of the West. It tells the story of some of the first cowboys, Native peoples of the northern Plains and Plateau. Through stories, poetry, art and reminiscences in this lavishly illustrated work, Native people invite the reader on a fascinating journey into the world of ranching and rodeo. The book also presents the special relationship between Native people and animals such as the horse, buffalo, deer and dog, which have always played an important role in Native spiritual and economic life. By the mid nineteenth century, Native people were highly valued for their skills in horse breeding and herding and could take advantage of new economic opportunities in the emerging ranching industry. Faced with limited resources, competition for land and control by governments and Indian agents, many Native people still managed to develop their own herds or to find work as cowboys. As the ways of the Old West changed, new forms of entertainment and sport evolved. Impresarios such as Buffalo Bill Cody invented the Wild West show, employing Native actors and stunt performers to dramatize scenes from the history of the West.

and to demonstrate the friendly competitions that cowboys enjoyed at the end of a long round up or cattle drive The popularity of rodeos also grew within Native communities and arenas were built on many reserves Native rodeos are still held while many Native competitors ride in professional rodeos as well Today Plains and Plateau peoples proudly continue a long tradition of cowboying Legends of Our Times is a celebration of their rich contribution to ranching and rodeo life

Intuitive Reiki for Our Times Amy Z. Rowland, 2006-06-02 Most Western Reiki practitioners are taught Reiki without acknowledgment of the integral role intuition can play in helping to heal a client Rowland shows practitioners how to inventory their intuitive abilities and offers fully illustrated practical techniques that certified Reiki practitioners and teachers can readily apply in their own practices **The Book For Our Time!** Willy Jeanne Louis De Smedt, 2023-11-22 Is it still possible to write something new and valuable about the Revelation The subject of Revelation has always been an intriguing one for both believers and non believers who for centuries have devoted themselves to studying and examining it Consequently many scholars have shared their view about it but almost all of them appear to be in contrast with one another Indeed never in time existed a continuous interpretation as every reader approaches the text from a distinct perspective Nonetheless it has always been evident that the key to Revelations lies within the pages of the Holy Scriptures With this notion in mind *The Book For Our Time* a translation of the original manuscript published in 1872 was written in order to research and understand along with readers to find the true end and fulfilment of Revelation and in so doing bring a sense of purpose to those who read it Willy Louis Jeanne De Smedt 8 2 1931 25 8 2017 Born in Belgium he moved with his parents to the Democratic Republic of the Congo where he attended a Catholic School Always serious about religion he wished to become a priest but eventually decided not to pursue his dream After moving to South Africa where he qualified as a millwright at Iscor Willy started working as a math teacher at the Military Technical College During a service in the New Apostolic Church Willy heard and learned about the Day of The First Resurrection That s when the project of *The Book For Our time* started to take form from his desire to inform people about the salvation plan of God He died in 2017 due to Leukemia *Modern Republican* David L. Stebenne, 2006-10-20 This book is an original important and interesting contribution to the literature on President Eisenhower and on American history in the years before and after World War II It will make a difference in the way historians and political scientists think about a critical period of national history Too few books have that sort of impact Michael A McGerr author of *A Fierce Discontent* The Rise and Fall of the Progressive Movement in America 1870 1920 Arthur Larson was the chief architect of moderate conservatism one of the most influential and least studied political forces in U S history During the Eisenhower administration Larson held three major posts Under Secretary of Labor Director of the United States Information Agency and chief presidential speechwriter In each of these

roles Larson's most important achievement was to explain clearly and cogently what the administration stood for on matters foreign and domestic. Larson's views were put forth most forcefully in *A Republican Looks at His Party* published in 1956. Larson and his book provided the Eisenhower administration with the vision thing. His limitations and disappointments also help explain Eisenhower era conservatism. They illuminate the extent to which there was a gap between what the Modern Republicans believed and what they said and were able to accomplish and why those beliefs, values and achievements did not always mesh. Larson's ultimately unsuccessful efforts to prevent the rise of the New Right are especially enlightening for they help to clarify why the party of Dwight Eisenhower in the 1950s gradually became the party of the more conservative Ronald Reagan by the 1980s. Modern Republican will enlighten readers who want to understand more fully the historical context of today's divisive political arena.
