Mates,2016-04-29 The Encyclopedia of Cremation is the first major reference resource focused on cremation Spanning many world cultures it documents regional histories ideological movements and leading individuals that fostered cremation whilst also presenting cremation as a universal practice Tracing ancient and classical cremation sites historical and contemporary cremation processes and procedures of both scientific and legal kind the encyclopedia also includes sections on specific cremation rituals architecture art and text Features in the volume include a general introduction and editorial introductions to sub sections by Douglas Davies an international specialist in death studies appendices of world cremation statistics and a chronology of cremation cross referencing pathways through the entries via the index individual entry bibliographies and illustrations This major international reference work is also an essential source book for students on the growing number of death studies courses and wider studies in religion anthropology or sociology *Shopping Malls and Other Sacred Spaces* Jon Pahl,2008-12-29 Christian historian Sidney Mead has observed In America space has played the part that time has played in older cultures of the world In Shopping Malls and Other Sacred Spaces Jon Pahl examines this provocative statement in conversation with what he calls the spatial character of American theology He argues that places are always imaginatively constructed by the human beings who inhabit them Sometimes this spatial theology works to our benefit other times it poses spiritual risks What happens when our banal clothing of the sacred violates our genuine need for comfort and intimacy Or when we remember that the fleeting pleasures

of a shopping trip or a Disneyland escape are designed to fill someone else's pocket rather than the spiritual emptiness in our own hearts Pahl develops several ways to clothe the divine from within the Christian tradition He introduces a theology of place that reveals aspects of God's character through biblical metaphors drawn from physical spaces such as the true vine the rock and the living water Accessible and thought provoking this enlightening book provides a better grasp of our particularly American way of lending religious significance to spaces of all kinds **Talking Book Topics**, 2009 The Friend, 1840 *Library Journal* Melvil Dewey, Richard Rogers Bowker, L.
