The Mystical Experience in Abraham Abulafia Moshe Idel, 1988 This book represents the first wide scale presentation of a major Jewish mystic the founder of the ecstatic Kabbalah It includes a description of the techniques employed by his master including the role of music There is a discussion of the characteristics of his mystical experience and the erotic imagery by which it was expressed Based on all the extant manuscript material of Abulafia this book opens the way to a new understanding of Jewish mysticism It points to the importance of the ecstatic Kabbalah for the later developments in mystical Judaism

An Existentialist Theory of the Human Spirit (Volume 2) Shlomo Giora Shoham, 2020-07-22 This second volume examines how sexual mores and behavior religious dogma and practice and literary creativity and authenticity have influenced and been influenced by the existentialist thought of Kierkegaard Heidegger Sartre Nietzsche Husserl and Buber and the writings of Camus Dostoevsky Beckett Shostakovich Berdyaev and Tillich It compares human and cultural attributes with the attributes of pagan and monotheistic Gods and Buddhist Gnostic Christian and Muslim mysticism with Jewish Kabbalah It explains society's harsh treatment of Vincent van Gogh and Antonin Artaud and analyzes the existentialist approach to existence absurdity human dialogue cosmology and quantum mechanics It will appeal to students and professionals in fields as diverse as philosophy psychology sociology anthropology religion law art drama literature cosmology and physics

Time and Eternity in Jewish Mysticism Brian Ogren, 2015-01-27 Time and eternity are concepts that have occupied an important place within Jewish mystical thought This present volume gives pride of place to these concepts and is one of the first works to bring together diverse voices on the subject It offers a multivalent picture of the topic of time and eternity not only by including contributions from an array of academics who are leaders in their fields but by proposing six diverse approaches to time and eternity in Jewish mysticism the theoretical approach to temporality philosophical definitions the idea of time and pre existence the idea of historical time the idea of experiential time and finally the idea of eternity beyond time This multivocal treatment of Jewish mysticism and time as based on variant academic approaches is novel and it should lay the groundwork for further discussion and exploration

Imagery Techniques in Modern Jewish Mysticism Daniel Reiser, 2018-07-09 This book analyzes and describes the development and aspects of imagery techniques a primary mode of mystical experience in twentieth century Jewish mysticism These techniques in contrast to linguistic techniques in medieval Kabbalah and in contrast to early

Hasidism have all the characteristics of a full screenplay a long and complicated plot woven together from many scenes a kind of a feature film Research on this development and nature of the imagery experience is carried out through comparison to similar developments in philosophy and psychology and is fruitfully contextualized within broader trends of western and eastern mysticism *Jewish Mysticism and Kabbalah* Frederick E. Greenspahn, 2011-11-01 Over the past generation scholars have devoted increasing attention to the diverse forms that Jewish mysticism has taken both in the past and today what was once called nonsense by Jewish scholars has generated important research and attention both within the academy and beyond as demonstrated by the popular fascination with figures such as Madonna and Demi Moore and the growing interest in spirituality In *Jewish Mysticism and Kabbalah* leading experts introduce the history of this scholarship as well as the most recent insights and debates that currently animate the field in a way that is accessible to a broad audience From mystical outpourings in ancient Palestine to the Kabbalah Centre and from attitudes towards gender to mystical contributions to Jewish messianic movements this volume explores the various expressions of Jewish mysticism from antiquity to the present day in an engaging style appropriate for students and non specialists alike **Studies in Medieval**

Jewish Intellectual and Social History David Engel, Lawrence H. Schiffman, Elliot R. Wolfson, 2012-01-20 For more than four decades Robert Chazan has been a copious source of original insights into the history and culture of medieval European Jewry challenging conventional wisdom with profound erudition and sober analysis In this volume thirteen leading Judaicists and medievalists engage subjects that have been of particular concern to Professor Chazan during his distinguished career the history of the Jewish communities in Western Christendom during the Middle Ages Jewish Christian interactions in medieval Europe medieval Jewish Biblical exegesis and religious literature and historical representations of the experience of medieval Jewry Taken together they offer a comprehensive portrait of the state of the field of medieval Jewish studies

"And They Shall Be One Flesh": On The Language of Mystical Union in Judaism Adam Afterman, 2016-08-29 In *And They Shall Be One Flesh* On the Language of Mystical Union in Judaism Adam Afterman offers an extensive study of mystical union and embodiment in Judaism Afterman argues that Philo was the first to articulate the notion of unio mystica in Judaism and is the source of the henosis mysticism in the later Neoplatonic tradition The study provides a detailed analysis of the Jewish medieval trends that developed different forms of mystical union and mystical embodiment through the divine name and spirit The book argues that the development of unitive mysticism in Judaism is the fruit of the creative synthesis of rabbinic Judaism and Hellenistic and Arab philosophy and a natural outcome of the theological articulation of the idea of monotheism itself Suffering Time: Philosophical, Kabbalistic, and Hasidic Reflections on Temporality Elliot R. Wolfson, 2021-05-25 No one theory of time is pursued in these essays but a major theme that threads them together is Wolfson's signature idea of the timeswerve as a linear circularity or a circular linearity expressions that are meant to avoid the conventional split between the two temporal modalities of the line and the circle The conception of time elicited by Wolfson from a host of philosophical

and mystical sources both Jewish and non Jewish buttresses the contention that it is precisely structural invariability that engenders interpretive variation This hermeneutical axiom is justified in turn by the presumption regarding the cadence of time as the constant return of what has always been what is yet to be The telling of time wells forth from the time of telling One cannot speak of the being of time consequently except from the standpoint of the time of being nor of the time of being except from the standpoint of the being of time

Western Esotericism and the Science of Religion International Association for the History of Religions. Congress, International Association for the History of Religions, 1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5 12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions

Hanegraaff,Jeffrey Kripal,2008-12-31 From rumours about gnostic orgies

in antiquity to the explicit erotic symbolism of alchemical texts from the subtly coded eroticism of medieval kabbalah to the sexual magic practiced by contemporary occultists and countercultural translations of Asian Tantra the history of Western esotericism is rich in references to the domains of eros and sexuality This volume which brings together an impressive array of top level specialists is the first to analyze the eroticism of the esoteric without sensationalism or cheap generalizations but on the basis of expert scholarship and attention to textual and historical detail While there are few other domains where the imagination may so easily run wild the various contributions seek to distinguish fact from fiction only to find that historical realities are sometimes even stranger than the fantasies In doing so they reveal the outlines of a largely unknown history spanning more than twenty centuries
