The Red Book Carl G. Jung, 2012-12-17 In The Red Book compiled between 1914 and 1930 Jung develops his principal theories of archetypes the collective unconscious the process of individuation Liber Novus Carl G. Jung, 2009-10-13 The most influential unpublished work in the history of psychology When Carl Jung embarked on an extended self exploration he called his confrontation with the unconscious the heart of it was The Red Book a large illuminated volume he created between 1914 and 1930 Here he developed his principle theories of the archetypes the collective unconscious and the process of individuation that transformed psychotherapy from a practice concerned with treatment of the sick into a means for higher development of the personality While Jung considered The Red Book to be his most important work only a handful of people have ever seen it Now in a complete facsimile and translation it is available to scholars and the general public It is an astonishing example of calligraphy and art on a par with The Book of Kells and the illuminated manuscripts of William Blake This publication of The Red Book is a watershed that will cast new light on the making of modern psychology

Reading the Red Book Sanford L. Drob, 2023-03-28 The long awaited publication of C G Jung s Red Book in October 2009 was a signal event in the history of analytical psychology Hailed as the most important work in Jung s entire corpus it is as enigmatic as it is profound *Reading The Red Book* by Sanford L Drob provides a clear and comprehensive guide to The Red Book s narrative and thematic content and details The Red Book s significance not only for psychology but for the history of ideas *The Red Book: Reflections on C.G. Jung's Liber Novus* Thomas Kirsch, George Hogenson, 2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of The Red Book and to debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung s Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung s Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung s account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians The Red Book C. G. Jung, 2013-10-21 A portable edition of the famous Red Book text and essay The Red Book published to wide acclaim in 2009 contains the nucleus of C G Jung s later works It was here that he developed his principal theories of the

archetypes the collective unconscious and the process of individuation that would transform psychotherapy from treatment of the sick into a means for the higher development of the personality As Sara Corbett wrote in the New York Times The creation of one of modern history's true visionaries The Red Book is a singular work outside of categorization As an inquiry into what it means to be human it transcends the history of psychoanalysis and underscores Jung's place among revolutionary thinkers like Marx Orwell and of course Freud The Red Book A Reader's Edition features Sonu Shamdasani's introductory essay and the full translation of Jung's vital work in one volume

Jung's Red Book for Our Time Murray Stein ,Thomas Arzt,2021-09-25 The spiritual malaise regnant in today's disenchanted world presents a picture of a polar night of icy darkness as Max Weber

wrote already a century ago This collective dark night of the soul is driven by climate change related disasters rapid technological innovations and opaque geostrategic realignments In the wake of what policy analysts refer to as Westlessness the post modern age is characterized by incessant distractions urgent calls to responsibility and in humanly short deadlines which result in a general state of exhaustion and burnout The hovering sense of living in a time frame that is post histoire induces states of confusion on a personal level as well as in the realm of politics Totally missing is a grand narrative to guide humanity's vision in the midst of a world crisis Thinkers scholars and Jungian analysts are increasingly looking to C G Jung's monumental oeuvre The Red Book as a source for guidance to re-enchant the world and to find a new and deeper understanding of the homo religiosus The essays in this series on Jung's Red Book for Our Time Searching for Soul under Postmodern Conditions circle around this objective and offer countless points of entry into this inspiring work
