A Handbook of Intrauterine Insemination Godwin I. Meniru, Peter R. Brinsden, Ian L. Craft, 1997-07-31 Approximately 15% of couples experience difficulty in conceiving and a proportion of them may require assisted conception treatment to alleviate continuing infertility. The contributing authors are all experienced practitioners and researchers in reproductive medicine and have created a manual that will be useful to a full range of professionals involved in the provision of care for infertile couples, such as clinicians, andrologists, embryologists, other scientists, nurses, counsellors, psychotherapists, and managerial staff.
