the importance of the issue of territory Each case study is accompanied by a map that shows the distribution of selected groups in terms of standard bands of intensity Studying Religions with the Iron Curtain Closed and Opened ,2015-03-31 Studying Religions with the Iron Curtain Closed and Open The Academic Study of Religion in Eastern Europe offers an account of the research focused on the origins development and the current situation of the Study of Religions in the 20th century in countries such as the Czech Republic Poland Slovakia Hungary Estonia Latvia Ukraine and Russia Special attention is devoted to the ideological influences determining the interpretation of religion especially connected with the rise of Marxist Leninist criticism of religion Defining the Sovereign Community Nadya Nedelsky, 2012-02-28 Though they shared a state for most of the twentieth century when the Czechs and Slovaks split in 1993 they founded their new states on different definitions of sovereignty The Czech Constitution employs a civic model founding the state in the name of the citizens of the Czech Republic while the Slovak Constitution uses the more exclusive ethnic model and speaks in the voice of the Slovak Nation Defining the Sovereign Community asks two central questions First why did the two states define sovereignty so differently Second what impact have these choices had on individual and minority rights and participation in the two states Nadya Nedelsky examines how the Czechs and Slovaks understood nationhood over the course of a century and a half and finds that their views have been remarkably resilient over time. These enduring perspectives on nationhood shaped how the two states defined sovereignty after the Velvet Revolution which in turn strongly affected the status of the Hungarian minority in Slovakia and the Roma minority in the Czech Republic Neither state has secured civic equality but the nature of the discrimination against minorities differs Using the civic definition of sovereignty offers stronger support for civil and minority rights than an ethnic model does Nedelsky's conclusions challenge much analysis of the region which tends to explain ethnic politics by focusing on postcommunist factors especially the role of opportunistic political leaders Defining the Sovereign Community instead examines the undervalued historical roots of political culture and the role of current constitutional definitions of sovereignty Looking ahead Nedelsky offers crucial evidence that nationalism may remain strong in Slovakia and the Czech Republic even in the face of democratization and EU integration and is an important threat to both

Vanished History Tomas Sniegon, 2014-05-01 Bohemia and Moravia today part of the Czech Republic was the first territory with a majority of non German speakers occupied by Hitler's Third Reich on the eve of the World War II Tens of thousands of Jewish inhabitants in the so called Protectorate of Bohemia and Moravia soon felt the tragic consequences of Nazi racial politics Not all Czechs however remained passive bystanders during the genocide After the destruction of Czechoslovakia in 1938 39 Slovakia became a formally independent but fully subordinate satellite of Germany Despite the fact it was not occupied until 1944 Slovakia paid Germany to deport its own Jewish citizens to extermination camps About 270 000 out of the 360 000 Czech and Slovak casualties of World War II were victims of the Holocaust Despite these statistics the Holocaust vanished almost entirely from post war Czechoslovak and later Czech and Slovak historical cultures

The communist dictatorship carried the main responsibility for this disappearance yet the situation has not changed much since the fall of the communist regime The main questions of this study are how and why the Holocaust was excluded from the Czech and Slovak history
