A History Of Group Study And Psychodynamic Organizations:

A History of Group Study and Psychodynamic Organizations Amy Louise Fraher, 2004 Many people hold a piece of the puzzle of group relations yet few people are able to put them together in a meaningful way In this breakthrough study Amy L. Fraher provides the most comprehensive account yet written of the history of institutes of group study The book draws on original documents as well as extensive interviews with key practitioners The result is a fascinating story of the complex dynamics of organizational life Developing the construct of idea organizations organizations designed to generate intellectual concepts rather than to produce goods or services Fraher examines the psychodynamic workings of the National Training Laboratories Tavistock and A K Rice Institutes as well as early psychoanalytic societies She shows how the innovatory forces that energize these idea organizations can become the focus of inter group rivalries creating a cycle that puts the organizations themselves at risk Fraher details the cycle of idea organizations through the contributions of experts in the field such as David Armstrong Gordon Lawrence Isabel Menzies Lyth Laurence Gould Eric Miller and Kathleen Pogue White and others She also uses A K Rice's previously unavailable field notes and director's reports to provide a documented overview of group relations theory and conference methodology not offered since Rice's own Learning for Leadership in 1965 This is an accessible and absorbing study suitable both for experts and those new to the study of groups

Being a Systems Psychodynamic Scholar Frans Cilliers, 2019-12-17 This Festschrift has been compiled by Sanchen Henning in honour of the work of Professor Frans Cilliers On behalf of colleagues and friends in South Africa and abroad she illustrates their appreciation and respect for his role as scholar in Systems Psychodynamics He produced various pioneering research projects in Organisational Psychology as his field of study through the Systems Psychodynamic lens A specific feature and

contribution of the book is the application of Systems Psychodynamics to organisational matters and leadership consulting as well as to the lived experiences of postgraduate students and academics The chapters include themes relevant on individual group and organisational levels and are intended to contribute to the body of knowledge in the field Containment, Organisations and the Working Task Tiago Mendes,R. D. Hinshelwood,2024-07-25 With close attention to Wilfred Bion's influence on the literature about groups and organisations this book explores how containment has been transposed from the clinical setting to enlighten the work being carried out by psychodynamic practitioners and researchers especially within organisations In the first part contributors explore the origins of containment comparing and contrasting it with similar concepts such as holding A second part is devoted to addressing the implications of utilising psychoanalytic ideas beyond the couch and bringing them to the social field of groups and organisations The early days of such ideas as well as the wide range of methods applied are also addressed in this section with the aim of giving the reader a more comprehensive base for the application of psychoanalytic knowledge Finally the third part provides a detailed view of the different applications of containment in consulting leadership therapeutic communities and group relations Drawing on their own experiences the authors highlight how psychoanalytic concepts impact their own practice contributing to a collection that will prove essential for psychoanalysts managers policymakers consultants and researchers in a wide range of professional and clinical settings

Thinking Through Crisis Amy L. Fraher,2011-04-04 Bridging the gap between theory and practice this strikingly original analysis of the complex dynamics of high risk fields demonstrates that teamwork is more important than technical prowess in averting disasters Thinking Through Crisis narrates critical incidents from initiation to resolution in five elegantly constructed case studies the USS Greeneville collision the Hillsborough football crush the American Airlines flight 587 in flight break up the Bristol Royal Infirmary pediatric fatalities and the US Airways flight 1549 Hudson River landing Drawing on a variety of theoretical and real world perspectives this vivid well documented book provides innovative ways to understand risk management develop new models of crisis decision making enhance socially responsible leadership and encourage deep questioning of the behavior of individuals and groups in complex systems Its insights will resonate with professionals in a wide range of fields and with a general audience interested in understanding crises in complex systems

Finding a Place to Stand Edward R Shapiro, 2020-04-29 What stands between us and authoritarianism seems increasingly fragile Democratic practices are under attack by foreign intrusion into elections voter suppression restricts citizen participation Nations are turning to autocratic leaders in the face of rapid social change Democratic values and open society can only be preserved if citizens can discover and claim their voices We access society through our organisations yet the collective voices and irrationalities of these organisations do not currently offer clear pathways for individuals to locate themselves How can we move through the mounting chaos of our social systems through our multiple roles in groups and institutions to find a voice that matters What kind of perspective will allow institutional leaders to facilitate the discovery of active citizenship and support engagement This book draws on psychodynamic systems thinking to offer a new understanding of the journey from being an individual to joining society as a citizen With detailed stories the steps and the conscious and unconscious linkages from being a family member to entering outside groups to taking up and making sense of institutional roles illuminate the process of claiming the citizen role With the help of leaders who recognise and utilise the dynamics of social systems there may be hope for us as citizens to use our institutional experiences to discover a place to stand

Management of Team Leadership in Extreme Context George B. Graen, Joan A. Graen, 2013-03-01 The proper balance of managerial administrative control and managerial team leadership depends upon the work context After organizational procedures are designed by work process engineers managers and their direct reports in the business units are charged to save our ship SOS by their employers Their ships their business units often were built for calm seas Unfortunately turbulent seas may happen unexpectedly and stress their ships and crews Under extreme conditions the sea may put their ships squarely in harm's way If they are not well prepared their chances of survival are few and none This book is about managing and being managed under conditions of extreme contexts where only the special teams survive and prosper

Learning from Action R D Hinshelwood, Luca Mingarelli, 2022-07-28 Since the early 1990s Enrico Pedriali with R D Hinshelwood organised workshops in Italy known as the learning from action workshops This novel approach evolved from applying the principles of therapeutic communities to a group relations form of experiential conference The group relation tradition however does not focus particularly on mental health organisations and

tends to focus on senior management issues of leadership and authority In contrast the learning from action workshops are tailored to the care workers engaged in the direct work in particular for those working with clients and patients with significant problems with verbal and symbolic communication The workshops also include an element of research into the unconscious messaging systems employed in making relations which contribute to therapeutic and other mental health care services There are also chapters on a related form of workshop the living and learning experience which was established primarily for learning about therapeutic communities which bring further insight to working practices The book brings together a community of 21 authors Giada Boletti Louisa Diana Brunner Davide Catullo Heather Churchill John Diamond Donna M Elmendorf Giovanni Foresti Rex Haigh R D Hinshelwood Yuko Kawai Eriko Koga Jan Lees Simona Masnata Luca Mingarelli Gilad Ovadia Mario Perini Barbara Rawlings Antonio Sama Edward R Shapiro Lili Valko and Zsolt Zalka It will be a must read for those working in mental health care The information within will be of use to those new to the profession for whom there is often very little preparation or reading material and also to more senior members to use not only for their own development but also in training and research activities in mental health

Group Analysis: Working with Staff, Teams and Organizations Aleksandra Novakovic, David Vincent, 2019-02-12 Featuring contributions from a range of organizational contexts *Group Analysis Working with Staff Teams and Organizations* identifies the key features to group analytic practice as well as how different theoretical orientations such as Systemic and Tavistock Consultancy approaches can be incorporated into the process The book addresses two essential features of group analysis the exploration of unconscious dynamics in groups and the shifts of observational attention between the group as a whole the individual in the group and the group in the individual Including perspectives from both organizational consultancy and reflective practice chapters feature analysis with groups and subgroups in a range of settings including a forensic psychiatric hospital a children s hospice an Anglican religious community and the management team of a global organization *Group Analysis Working with Staff Teams and Organizations* is a major contribution to the developing literature on group analysis It will be of great interest to psychotherapists organizational consultants facilitators of reflective practice groups coaches trainees in these disciplines and any professionals who work with staff teams and organizations

W.R. Bion as Clinician R. D. Hinshelwood, 2022-12-29 Underpinned by rigorous close readings of his oeuvre this book provides a comprehensive guide to the development practice and evolution of Wilfred Bion s clinical psychoanalytic work Starting with the significance of Kant during Bion s years as a student the author traces the key influences on Bion in his psychoanalytic and personal development progressing through Bion s particularly productive pre psychoanalytic work based on social field theory his well known elaboration of Klein s schizoid mechanisms known as the theory of containment all the while with his deeply thoughtful clinical approach inspired latterly by an understanding of literary creativity Extending this unique emphasis on Bion s clinical work rather than his theory Hinshelwood also explores how Bion s early traumatic experiences helped shape his attitudes and approach to

effective clinical work With comprehensive coverage of the key tenets of Bion's work this should be essential reading for psychoanalysts and psychotherapists in practice and in training who seek a clear guide to the practical applications of his theory

Corporate Social Performance Agata Stachowicz-Stanusch, 2015-08-01 Corporate Social Performance Paradoxes Pitfalls and Pathways to the Better World is authored by a range of international experts with a diversity of backgrounds and perspectives and provides a collection of ideas examples and solutions on CSP implementation and problems that occur in this area of consideration The last decade had abundant corporate national and international ethical and financial scandals and crises After this epoch of moral catastrophes stakeholders expect that corporations which are considered as the most powerful institutions today and which have enormous impact on our planet's ecosystems and social networks will take more active roles as citizens within society and in the fight against some of the most pressing problems in the world such as poverty environmental degradation defending human rights corruption and pandemic diseases Although Corporate Social Performance CSP has been a prominent concept in management literature and in the business world in recent years it remains a fact that many business leaders still only pay lip service to CSR or are merely reacting to peer pressure by introducing it into their organizations Bevan et al 2004 4 So do really companies do well by doing good or maybe companies engage in CSR in order to offset corporate social irresponsibility Kotchen and Moony 2012 p 4 I hope that we would agree that companies and CSR only by working together guarantee their own survival and we the society and the planet will be much obliged Thom 2009 p 3

Core Principles of Assessment and Therapeutic Communication with Children, Parents and Families Ruth Schmidt Neven, 2010-06-10 Informed by a psychodynamic perspective this book provides an integrated approach to working with children parents and families that can be applied by all professionals in a variety of settings

An Introduction to Systems Psychodynamics David Lawlor, Mannie Sher, 2021-12-13 This book provides an introduction to systems psychodynamic theory and its application to organisational consultancy research and training outlining systems dynamics methods and their historical and theoretical developments Systems Psychodynamics is an emerging field of social science the boundaries of which are continually being refined and re defined The systems designation refers to open systems concepts that provide the framing perspective for understanding the structural aspects of organisational systems These include its design division of labour levels of authority and reporting relationships the nature of work tasks processes and activities its mission and primary task and the nature and patterning of the organisation's task and sentient boundaries and the transactions across them This book presents a critical appraisal of the systems psychodynamics paradigm and its application to present day social and organisational difficulties showing how a holistic approach to organisational and social problems can offer a fresh perspective on difficult issues Bringing together the theory and practice of systems psychodynamics for the first time this book provides an examination of the systems psychodynamics paradigm in action This book gives an accessible and thorough guide to understanding and using systems psychodynamic ideas for

analysts managers policy makers consultants and researchers in a wide range of professional and clinical settings The Psychodynamics of Organizations Larry Hirschhorn, Carole K. Barnett, 1993 Author note Larry Hirschhorn is Principal of the Center for Applied Research Inc a faculty member at the William Alanson White Institute's Program on Organizational Development and Consultation and the author of several books including *The Workplace Within* Carole K Barnett is a Ph D candidate in the Organizational Psychology Program at the University of Michigan and co editor of *Globalizing Management Creating and Leading the Competitive Organization* Architecture From the Outside In Robert Gutman, 2012-04-17 Architecture and sociology have been fickle friends over the past half century in the 1960s architects relied on sociological data for design solutions and sociologists were courted by the most prestigious design schools to lecture and teach Twenty years later at the height of postmodernism it was passe to be concerned with the sociological aspects of architecture Currently the rising importance of sustainability in building not to mention an economical crisis brought on in part by a real estate bubble have forced architects to consider themselves in a less autonomous way perhaps bringing the profession full circle back to a close relationship with sociology Through all these rises and dips Robert Gutman was a strong and steady voice for both architecture and sociology Gutman a sociologist by training infiltrated architecture's ranks in the mid 1960s and never looked back A teacher for over four decades at Princeton's School of Architecture Gutman wrote about architecture and taught generations of future architects all while maintaining an outsider status that allowed him to see the architectural profession in an insightful unique way *Leading Contemporary Organizations* Amy L. Fraher, 2020-05-28 Why do organizations fail What hinders otherwise responsible leaders from recognizing looming disasters What prevents well intentioned people from responding properly to an emerging crisis Using systems psychodynamics to analyze an array of international crises Amy L Fraher explores ethical challenges at Silicon Valley tech companies the Wall Street implosions that led to the 2008 financial industry crash and a wide range of social crises policy failures and natural disasters offering a crisis management philosophy applicable in diverse settings Rather than viewing crises as anomalies that cannot be anticipated Fraher persuasively argues that crises can and should be embraced as naturally occurring by products of any organization's change management processes If leaders do not proactively manage organizational change they will inevitably manage crisis instead This accessible textbook will appeal to business students and researchers studying leadership change and crisis as well as progressive minded business leaders keen to improve their own organizations **The Handbook of Conflict Resolution** Peter T. Coleman, Morton Deutsch, Eric C. Marcus, 2014-02-28 Praise for *The Handbook of Conflict Resolution* This handbook is a classic It helps connect the research of academia to the practical realities of peacemaking and peacebuilding like no other It is both comprehensive and deeply informed on topics vital to the field like power gender cooperation emotion and trust It now sits prominently on my bookshelf Leymah Gbowee Nobel Peace Prize Laureate *The Handbook of Conflict Resolution* offers an astonishing array of insightful articles on theory and practice by leading scholars

and practitioners Students professors and professionals alike can learn a great deal from studying this Handbook William Ury Director Global Negotiation Project Harvard University coauthor Getting to Yes and author The Third Side Morton Deutsch Peter Coleman and Eric Marcus put together a handbook that will be helpful to many I hope the book will reach well beyond North America to contribute to the growing worldwide interest in the constructive resolution of conflict This book offers instructive ways to make this commitment a reality George J Mitchell Former majority leader of the United States Senate former chairman of the Peace Negotiations in Northern Ireland and the International Fact Finding Committee on Violence in the Middle East chairman of the board Walt Disney Company senior fellow at the School of International and Public Affairs Columbia University Let s be honest This book is just too big to carry around in your hand But that s because it is loaded with the most critical essays linking the theory and practice of conflict resolution The Handbook of Conflict Resolution is heavy on content and should be a well referenced resource on the desk of every mediator as it is on mine Johnston Barkat Assistant Secretary General Ombudsman and Mediation Services United Nations
