so beautiful everyone wishes to experience it but it is not without challenges in every relationship Relationships are always filled with ups and downs and in such times the strength of both love and understanding is tested Long distance relationships unlike relationships where the partners get to see each other frequently is more demanding It would take double efforts understanding trust and commitment to maintain them However there are many people in a long distance relationship that managed to keep it going regardless of the hurdles It just needs the effort of both parties and things will go smoothly If you re the only one striving to make things work then chances are your relationship will come to an end eventually Stay in a relationship where both parties are willing to fight for the blooming and thriving of the relationship As the saying goes it takes two to tango There are times when relationships start as short distanced but due to certain life changes such as work transfers new job offers or educational purposes one partner is made to move away from another and serious adjustments will have to be made Many relationships may even end due to this reason but there are many equally that do thrive as a result of joint efforts If you re looking for ways to revive and keep your long distance relationship blooming then this book is for you
