Mother Teresa Gezim Alphon, 2006-10-16 Mother Teresa was one of the most written about and publicised women in modern times Apart from Pope John Paul II she was arguably the most advertised religious celebrity in the last quarter of the twentieth century During her lifetime as well as posthumously Mother Teresa continues to generate a huge level of interest and heated debate Gezim Alphon explores the significance of Mother Teresa to the mass media to celebrity culture to the Church and to various political groups A section explores the ways different vested interests have sought to appropriate her after her death and also examines Mother Teresa's own attitude to her childhood and to the Balkan conflicts in the 1980s and 1990s This book sheds a new and fascinating light upon this remarkable and influential woman which will intrigue followers of Mother Teresa and those who study the vagaries of stardom and celebrity culture

The Science and Theology of Godly Love Matthew T. Lee,Amos Yong,2012-06-15 Arguing that there are ways to move beyond the limitations of methodological atheism without compromising scientific objectivity the essays gathered in The Science and Theology of Godly Love explore the potential for collaboration between social science and theology They do so within the context of the interdisciplinary study of Godly Love which examines the perceived experience of loving God being loved by God and thereby being motivated to engage in selfless service to others This volume serves as an introduction to and a call for further research in this new field of study offering ten methodological perspectives on the study of Godly Love written by leading social scientists and theologians Drawing on the work of Douglas Porpora and others the contributors contend that agnosticism is the appropriate methodological stance when religious experience is under the microscope Godly Love does not force a theistic explanation on data instead these essays show that it sensitizes researchers so that they can take seriously the faith and beliefs of those they study without the assumption that these theologies represent an incontestable truth

A Manual for Creating Atheists Peter Boghossian,2014-07-01 For thousands of years the faithful have honed proselytizing strategies and talked people into believing the truth of one holy book or another Indeed the faithful often view converting others as an obligation of their faith and are trained from an early age to spread their unique brand of religion The result is a world broken in large part by unquestioned faith As an urgently needed counter to this tried and true tradition of religious evangelism A Manual for Creating Atheists offers the first ever guide not for talking people into faith but for talking them out of it Peter Boghossian draws on the tools he has developed and used for more than 20 years as a philosopher and educator to teach how to engage the faithful in conversations that will help them value reason and rationality cast doubt on their religious beliefs mistrust their faith abandon superstition and irrationality and ultimately embrace reason

Phenomenology of the Icon Stephanie Rumpza, 2023-08-31 How can something finite mediate an infinite God Weaving patristics theology art history aesthetics and religious practice with the hermeneutic phenomenology of Hans George Gadamer and Jean Luc Marion Stephanie Rumpza proposes a new answer to this paradox by offering a fresh and original approach to the Byzantine icon She demonstrates the power and relevance of the phenomenological method to integrate hermeneutic aesthetics and divine transcendence notably how the material and visual dimensions of the icon are illuminated by traditional practices of prayer Rumpza's study targets a problem that is a major fault line in the continental philosophy of religion the integrity of finite beings in relation to a God that transcends them For philosophers her book demonstrates the relevance of a cherished religious practice of Eastern Christianity For art historians she proposes a novel philosophical paradigm for understanding the icon as it is approached in practice **Focus On: 100 Most Popular English Emigrants to the United States** Wikipedia contributors, Focus On: 100 Most Popular Deaths from Pneumonia Wikipedia contributors, Teresa of Calcutta Jon M.
