Central American Biodiversity Falk Huettmann, 2015-08-04 This book highlights key results and lessons learnt from two field sites La Suerte in Costa Rica and Ometepe Nicaragua It provides long term data on species abundance and distribution Primates receive specific attention in this book as they are flagship species and good indicators for the health of an ecosystem but as well a money maker Many primate species are sensitive to habitat alteration and are often hunted out first But they play an important role as seed dispersal agents for the regeneration of the forest The book then compares results from the two field sites with regional trends and explores potential solutions such as REDD This book strongly calls for new approaches in conservation it makes the case for looking beyond the pure species biology and classic conservation angle and to take into account the economic and political realities

Taxonomic revision of the olingos (Bassaricyon), with description of a new species, the Olinguito Kristofer M. Helgen, C. Miguel Pinto, Roland Kays, Lauren E. Helgen, Mirian T. N. Tsuchiya, Aleta Quinn, Don E. Wilson, Jes?s E. Maldonado, 2013-08-15 This paper presents the first comprehensive taxonomic revision of the olingos *Bassaricyon* based on most available museum specimens with data derived from anatomy mitochondrial and nuclear DNA fieldwork and geographic range modeling Olingos are forest living

arboreal nocturnal frugivorous and solitary and have one young at a time Four olingo species can be recognized including a Central American species *B. gabbii* and lowland species with eastern cis Andean *B. alleni* and western trans Andean *B. medius* distributions Surprisingly the sister lineage to all previously described species of *Bassaricyon* is an Andean cloud forest species which we call the Olinguito that has never been previously described *Bassaricyon neblina* sp. n. endemic to Colombia and Ecuador is the smallest living member of the family Procyonidae and the first new species of Carnivora named in the American continents in 35 years We describe four subspecies of Olinguito across the Northern Andes

GIS Methodologies for Developing Conservation Strategies Basil G. Savitsky,Thomas E. Lacher, Jr.,1998-04-28 Tropical habitats may contain more than a third of the world s plant and animal species Costa Rica alone is home to one of the highest levels of biodiversity per unit area in the world and stands at center stage in worldwide conservation efforts Within such regions the use of state of the art digital mapping technologies sophisticated techniques that are relatively inexpensive and accessible represents the future of conservation planning and policy These methods which employ satellites to obtain visual data on landscapes allow environmental scientists to monitor encroachment on indigenous territories trace park boundaries through unmarked wilderness and identify wildlife habitats in regions where humans have limited access Focusing on the rich biodiversity of Costa Rica the contributors demonstrate the use of geographic information systems GIS to enhance conservation efforts They give an overview of the spatial nature of conservation and management and the current status of digital mapping in Costa Rica a review of the basic principles behind digital mapping technologies a series of case studies using these technologies at a variety of scales and for a range of conservation and management activities and the results of the Costa Rican gap analysis

project GIS Methodologies for Developing Conservation Strategies provides powerful tools for those involved in decision making about the natural environment particularly in developing nations like Costa Rica where such technologies have not yet been widely adopted For specialists in such areas as geography conservation biology and wildlife and natural resource management the combination of conceptual background and case examples make the book a crucial addition to the literature

Sport Hunting of Migratory Birds, Issuance of Annual Regulations ,1975 **Rio Grande and Tributaries, Rio Puerco and Rio Salado Dam Construction** ,1977 **Chasing Neotropical Birds** Bob Thornton,Vera Thornton,2010-07-22 This book is for anyone who loves nature photography or birding A fine introduction to the beauty and diversity of this region Southeastern Naturalist From Belize to Brazil the forests of the American neotropics are home to an astonishing array of birds over 3 700 different species or nearly forty percent of all the birds on earth Birding enthusiasts Vera and Bob Thornton have spent fifteen years photographing these special and exotic birds in the rainforests of eleven different countries of Central and South America In this book you ll find more than a hundred spectacular color photographs they took during their travels along with a highly entertaining account of their adventures and misadventures in chasing these exotic neotropicals The birds pictured here are among the Thorntons personal favorites birds that in their words either dazzled us with their beauty or charmed us by their behavior or in a few cases simply challenged us by the mystique of their rarity This latter category includes such elusive and sought after birds as the Black crowned Antpitta the Zigzag Heron the Rufous vented Ground Cuckoo the Bare necked Umbrellabird and the monkey eating Harpy Eagle In the accompanying text Bob Thornton engagingly describes the challenges as well as the magic of negotiating the neotropical rainforests in search of colorful birds to photograph For those who would like to follow in the Thorntons footsteps there are also helpful tips about photographic gear and techniques preferred places to see the birds lodging and guides For everyone who enjoys excellent nature photography Chasing Neotropical Birds is a must have volume **Forests for the Future** Paul Wolvekamp,1999 Aimed at policy makers and practitioners this work looks at how local and indigenous communities can maintain the balance between their societies and their forest environments when faced with increasing external pressures rising populations and growing demands for basic needs and cash While efforts by governments or coporations to restore and manage forest environments are often non existent or ineffective there frequently exists within communities who depend on forests a wealth of knowledge about rational land use and environmental protection **Nature Canada** ,2004 The Lost and Left Behind Terry Glavin,2013-01-25 Ecologists are calling the age we live in the Sixth Great Extinction The world is losing more than animal and plant species We are also losing the vast human legacy of languages and with it ways of living seeing and knowing Glavin sets off in pursuit of the very things we re losing a distinct species every ten minutes a unique vegetable variety every six hours an entire language every two weeks Along the way he encounters some of the world s wonderful rare things a mysterious Sino Tibetan song language a Malayan tiger the last of its kind and a strange tomato that tastes just like black

cherry ice cream And he finds hope in the most unlikely places a macaw roost in Costa Rica a relic community of Norse whalers and the vault beneath the Royal Botanic Gardens at Kew A fresh narrative take on the usual doom and gloom environmentalism The Lost and Left Behind draws upon zoology biology ecology anthropology and mythology to uncover the hidden story of a long human struggle to conserve the living things of the world A thoughtful and engaging book Times Literary Supplement A wise and eloquent writer whose clear eyed intelligence explores our conflicted relationship with nature What Glavin has to tell is urgent important and well said Ronald Wright author of A Short History of Progress An urgent necessary book Glavin writes with both passion and authority Mark Abley author of Spoken Here Travels Among Threatened Languages

The Birds of North America ,1995 **Culture and Customs of Costa Rica** Chalene Helmuth,2000-06-30 Costa Rica the spectacularly beautiful Latin American nation stands out from its neighbors in its political climate economic stability and social progressiveness Culture and Customs of Costa Rica is a superlative introduction to the modern Costa Rica which Costa Ricans compare in many ways to the United States Helmuth who spent her formative years in Costa Rica provides an outstanding overview of this unusual and dynamic nation s place in Latin America Featured topics include Costa Rica s Legacy of social reform Religion Social customs Media Literature Art and the performing arts Written with the highest scholarly standards but easily accessible to students and general readers this well written source goes far beyond the travel guide fare in providing in depth information on this fascinating country Culture and Customs of Costa Rica begins with a discussion of how the country is unique in Latin America including its incredible biodiversity ethnic makeup history education policies and women s roles A chapter on religion covers indigenous faiths and focuses on the predominant Catholicism Costa Rican social customs such as national traits cuisine family roles and sports are presented engagingly Chapters on media literature and the arts bring to light Costa Rican institutions and cultural figures Informative appendices and a glossary round out the text

Allegheny National Forest (N.F.), West Branch of Tionesta ,2007 Thinking like a Parrot Alan B. Bond,Judy Diamond,2019-07-02 From two experts on wild parrot cognition a close look at the intelligence social behavior and conservation of these widely threatened birds People form enduring emotional bonds with other animal species such as dogs cats and horses For the most part these are domesticated animals with one notable exception many people form close and supportive relationships with parrots even though these amusing and curious birds remain thoroughly wild creatures What enables this unique group of animals to form social bonds with people and what does this mean for their survival In Thinking like a Parrot Alan B Bond and Judy Diamond look beyond much of the standard work on captive parrots to the mischievous inquisitive and astonishingly vocal parrots of the wild Focusing on the psychology and ecology of wild parrots Bond and Diamond document their distinctive social behavior sophisticated cognition and extraordinary vocal abilities Also included are short vignettes field notes on the natural history and behavior of both rare and widely distributed species from the neotropical crimson fronted parakeet to New Zealand s flightless ground dwelling kakapo

This composite approach makes clear that the behavior of captive parrots is grounded in the birds wild ecology and evolution revealing that parrots ability to bond with people is an evolutionary accident a by product of the intense sociality and flexible behavior that characterize their lives Despite their adaptability and intelligence however nearly all large parrot species are rare threatened or endangered To successfully manage and restore these wild populations Bond and Diamond argue we must develop a fuller understanding of their biology and the complex set of ecological and behavioral traits that has led to their vulnerability Spanning the global distribution of parrot species Thinking like a Parrot is rich with surprising insights into parrot intelligence flexibility and even in the face of threats resilience
