The Role of VR in Immersive Learning Experiences Ahmed Musa,2024-12-25 Virtual reality VR is revolutionizing education by creating immersive interactive environments that enhance learning This book explores how VR is being used to teach complex concepts simulate real world scenarios and make education more engaging and accessible From virtual field trips to hands on training in technical skills discover the transformative potential of VR in classrooms and beyond With insights into the latest developments and practical guidance for implementation this book is a valuable resource for educators administrators and tech enthusiasts

Methods and Materials for Teaching the Gifted Frances A. Karnes,Suzanne M. Bean,2021-09-23 The newly revised and updated fourth edition of Methods and Materials for Teaching the Gifted is an excellent introduction to gifted education and real world learning The chapters of this comprehensive textbook are written by respected leaders in the field of gifted education The authors review the unique needs of gifted learners and give current information on instructional planning and evaluation strategies for best practices and ongoing enhancement and support of gifted programs Chapters include topics such as differentiated curricular design extending learning through research writing challenging instructional units and developing leadership skills and innovative thinkers Instructional practices such as problem based learning technology literacy independent study simulation and gaming and more are addressed A special focus is given to using the Gifted Education Programming Standards and Common Core State

Standards The fourth edition provides updated information on funding sources and public relations strategies for gifted education programs It also includes updated lists of books teaching materials websites and other resources for teachers of the gifted

Learning Technologies for Transforming Large-Scale Teaching, Learning, and Assessment Demetrios Sampson, J. Michael Spector, Dirk Ifenthaler, Pedro Isaías, Stylianos Sergis, 2019-05-24 This volume provides a contemporary glance at the drastically expanding field of delivering large scale education to unprecedented numbers of learners It compiles papers presented at the CELDA Cognition and Exploratory Learning in the Digital Age conference which has a goal of continuing to address these challenges and promote the effective use of new tools and technologies to support teaching learning and assessment Given the emerging global trend to exploit the potential of existing digital technologies to improve the teaching learning and assessment experiences for all learners in real life contexts this topic is a unifying theme for this volume The book showcases how emerging educational technologies and innovative practices have been used to address core global educational challenges It provides state of the art insights and case studies of exploiting innovative learning technologies including Massive Open Online Courses and educational data analytics to address key global challenges spanning from online Teacher Education to large scale coding competence development This volume will be of interest to academics and professional practitioners working in the area of digital technology integration in teaching learning and assessment as well as those interested in specific conference themes e g designing and assessing learning in online environments assessing learning in complex domains and presenters invited speakers and participants of the CELDA conference

An Investigation of Learning and Experience Curves Frank Krawiec, John Thornton, Michael Edesess, 1980 This study assesses the applicability of learning and experience curves for predicting future costs of solar technologies and the major test case is the production economics of heliostats Alternative methods for estimating cost reductions in systems manufacture are discussed and procedures for using learning and experience curves to predict costs are outlined Because adequate production data often do not exist production histories of analogous products processes are analyzed and learning and aggregated cost curves for these surrogates estimated If the surrogate learning curves apply they can be used to estimate solar technology costs The steps involved in generating these cost estimates are given Second generation glass steel and inflated bubble heliostat design concepts developed by MDAC and GE respectively are described a costing scenario for 25 000 units yr is detailed surrogates for cost analysis are chosen learning and aggregate cost curves are estimated and aggregate cost curves for the GE and MDAC designs are estimated However an approach that combines a neoclassical production function with a learning by doing hypothesis is needed to yield a cost relation compatible with the historical learning curve and the traditional cost function of economic theory

Transdisciplinary Learning Experience Design Matthew Schmidt, Yvonne Earnshaw, Marisa Exter, Andrew Tawfik, Brad Hokanson, 2024-11-22 This book explores the evolving field of Learning Experience Design LXD It provides a multifaceted view of LXD incorporating perspectives from

instructional design educational technology and beyond reflecting the transdisciplinary nature of this design approach This edited volume responds to the growing recognition of LXD as a distinct area of study and practice within instructional design especially in the context of rapid technological advancements and changing educational landscapes The subject of this work is Learning Experience Design a field integrating multidisciplinary knowledge and techniques to create effective enjoyable and meaningful learning experiences The book delves into participatory and co design innovative LXD methods learning focused usability research and theoretical and conceptual advancements in LXD It features design cases that provide real world insights and applications making the content rich and relatable for researchers and practitioners alike Readers will find the sections on participatory design innovative methodologies and the transdisciplinary synergies of particular interest These areas represent areas of LXD that are in need of further investigation so as to better illuminate how learning experiences can be conceptualized implemented and evaluated The edited volume s inclusion of learning focused usability research offers readers further insights into how learners interact with designed learning experiences highlighting how insights from such studies can lead to ongoing improvements and foster considerations for future designs The main benefit readers will derive from this work is a deep nuanced understanding of current and emerging trends in LXD Practitioners will gain a wealth of practical strategies and insights to apply in their own work scholars and students will discover a rich source of theoretical and empirical knowledge to advance both research and practice The book serves as a catalyst for innovation and cross disciplinary collaboration inspiring readers to explore new territories in the learning experience design This book offers a comprehensive insightful and forward looking exploration of the field It will complement the growing corpus of LXD literature providing both breadth and depth on this dynamic and influential approach to learning design

Gomo Learning Playbook Mike P. O'Brien, 2020-09-01 A Practical Guide to Learning Experience Creation with Gomo Learning Authoring Onboard new users to creating learning using Gomo Learning Authoring What is gomo learning Gomo Learning is an online agile learning authoring system that offers a complete learning experience development platform This agile approach to learning and training using Gomo Learning is shaped by interactions and collaboration with participants during the learning process Developing new learning pathways Gomo Learning tightens iterations between stakeholders and developers for faster development timelines and more fluid dynamic results for learners and organizations Why this Playbook SmarterMedium works with customers and partners pushing the development of innovative learning experiences to find new ways to engage employees Our collaborations and discoveries using the Gomo Learning Authoring tools have spawned novel ideas and new ways of working with customers What we have learned along the way powers the approach lessons and expertise within this playbook Who is the Playbook for This playbook is geared to organizations moving and embracing technologies like Gomo Learning and transforming traditional learning processes to create new learning experiences For any organization onboarding to Gomo Learning this playbook presents the tools and practical how tos to develop and author

content providing a walkthrough of the concepts and benefits of new learning approaches supported by step by step content features and functionality New Masterclass Content for 2020 Inclusive Learning Continuous Scroll Content Post Course Surveys Crafting Learning Stories Create an Always on Learning Experience In addition we ve expanded our coverage of learning to include a new section on translation and localization of learning experiences

Research Anthology on Emerging Technologies and Ethical Implications in Human Enhancement Management Association, Information Resources,2020-12-18 Along with the introduction of technology in nearly every facet of human life comes the question of the ethical side of using technology to improve the human condition whether that be physically or mentally The capabilities of human enhancement technologies have created a dual sided approach to discussing human enhancement the critical approach of attempting to reach human perfection and the ethics within that idea and the endless capabilities of technology that have greatly impacted the medical field It is essential to discuss both aspects within these emerging technologies whether as separate entities or as cohesive units Ranging from disease detection and treatment to implants and prosthetics to robotics and genetic engineering human enhancement technologies are widespread and multi purposed By going beyond the capabilities of human hands these technologies have propelled modern medicine and healthcare to new levels that have allowed humans to face new treatments or assistive technologies not seen before The Research Anthology on Emerging Technologies and Ethical Implications in Human Enhancement covers the primary technologies and tools being used in medicine and healthcare along with discussions on the ethics of enhancing the human body Topics covered include prosthetics and implants robotics human disorders diseases and treatments and smart technologies along with law and theory This publication serves as a valuable reference work for doctors medical professionals researchers students professionals and practitioners involved in fields that include ethics medicine computer science robotics genetics assistive technologies nanotechnology biomedical engineering and biotechnology

Design, Utilization, and Analysis of Simulations and Game-Based Educational Worlds Ferdig, Richard E.,2013-05-31 Games and simulations have emerged as new and effective tools for educational learning by providing interactivity and integration with online resources that are typically unavailable with traditional educational resources Design Utilization and Analysis of Simulations and Game Based Educational Worlds presents developments and evaluations of games and computer mediated simulations in order to showcase a better understanding of the role of electronic games in multiple studies This book is useful for researchers practitioners and policymakers to gain a deeper comprehension of the relationship between research and practice of electronic gaming and simulations in the educational environment
