Resources in Education ,1998 **Recarbonization of the Biosphere** Rattan Lal,Klaus Lorenz,Reinhard F. Hüttel,Bernd Uwe Schneider,Joachim von Braun,2012-03-30 Human activities are significantly modifying the natural global carbon C cycles and concomitantly influence climate ecosystems and state and function of the Earth system Ever increasing amounts of carbon dioxide CO₂ are added to the atmosphere by fossil fuel combustion but the biosphere is a potential C sink Thus a comprehensive understanding of C cycling in the biosphere is crucial for identifying and managing biospheric C sinks Ecosystems with large C stocks which must be protected and sustainably managed are wetlands peatlands tropical rainforests tropical savannas grasslands degraded desertified lands agricultural lands and urban lands However land based sinks require long term management and a protection strategy because C stocks grow with a progressive improvement in ecosystem health *Sustainable Development in Africa* Walter Leal Filho,Rudi Pretorius,Luiza Olim de Sousa,2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and

private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

Thinking Geographically Alaric Maude,2023-12-22 This book explains how the concepts of geography can teach young people to think geographically deeply and ethically Thinking Geographically demonstrates how the concepts of place space environment and interconnection teach students new ways of perceiving and understanding the world the concepts of scale and time teach them ways of analysing the world while the concepts of sustainability and wellbeing show them how to evaluate and reflect on what they observe and all eight concepts develop their higher order and critical thinking To further support teachers this book includes a chapter on how to teach for conceptual understanding as well as two chapters that illustrate the application of geographical thinking to an understanding of the effects of land cover change and the problem of regional inequality Rich with practical examples this book is an essential resource for geography teachers whether already teaching or studying to become one and for those who teach them

A Post-Exotic Anthropology of Soqatra, Volume II Serge D. Elie,2020-06-22 This two volume book offers a panoramic explanatory narrative of Soqatra Island s rediscovery based on the global significance of its endemic biodiversity The first volume *A Post Exotic Anthropology of Soqatra A Mesography of an Indigenous Polity in Yemen* initiated the analytical inventory of the four key vectors of Soqatra s transition process through a discussion of the first two economic disarticulation and political incorporation This volume *A Post Exotic Anthropology of Soqatra Cultural Environmental Annexation of an Indigenous Community* completes the analytical inventory by exploring the other two pivotal vectors of transition cultural modernization and environmental annexation These two vectors encompass the critical sociocultural spheres and environmental domains in which Soqatra s transformation process is unfolding The origin of these vectors is situated within Soqatra s long history of exogenous mediations by external actors and their symbolic appropriation of the island into an imaginative geography The legacy is a symbolic curse which has made Soqatra into an ideal playground for fantasist cultural or environmental experiments Accordingly this volume undertakes first a systematic inventory of the communal effects engendered within the domains of cultural modernization dissonant linguistic attitudes alienating consumption practices divergent religious affiliations and differentiating economic aspirations Second it anatomizes the process of environmental annexation through the reconstruction of the formulation and implementation process of a biodiversity conservation and sustainable development experiment in which the island and its residents are appropriated into an anachronistic paradigm a pastoral ecotopia as a blueprint of their future
