In the Matter of Josef Mengele Neal M. Sher, 1992 **I am Your Father** Mark Stibbe, 2012-09-12 We live in an increasingly fatherless society Fatherless children are far more likely to be criminals or victims In January 2009 Mark quit as the senior leader of a successful and progressive Anglican congregation to found a ministry called The Father s House dedicated to taking the Father s love to the fatherless The task of the family of God is to take the Father s love to the fatherless To do this those who are already members of God s family need to have their father wounds healed This book will help those with hearts broken by their earthly fathers to find in their Heavenly Father the love of all loves In Part 1 Mark describes the different ways in which fathers can hurt their children In Part 2 he goes deeper defining the wound as the orphan heart and describing the main symptoms of this condition in peoples lives In Part 3 he shows how Christians can find true healing through experiencing the Spirit of adoption

The Creation and Inheritance of Digital Afterlives Debra J. Bassett, 2022-01-01 This book explores how social networking platforms such as Facebook Twitter and WhatsApp accidentally enable and nurture the creation of digital afterlives and importantly the effect this digital inheritance has on the bereaved Debra J Bassett offers a holistic exploration of this phenomenon and presents qualitative data from three groups of participants service providers digital creators and digital inheritors For the bereaved loss of data lack of control or digital obsolescence can lead to a second loss and this book introduces the theory of the fear of second loss Bassett argues that digital afterlives challenge and disrupt existing grief theories suggesting how these theories might be expanded to accommodate digital inheritance This interdisciplinary book will be of interest to sociologists cyber psychologists philosophers death scholars and grief counsellors But Bassett s book can also be seen as a canary in the coal mine for the intentional Digital Afterlife Industry DAI and their race to monetise the dead This book provides an

understanding of the profound effects uncontrollable timed posthumous messages and the creation of thanabots could have on the bereaved and Bassett's conception of a Digital Do Not Reanimate DDNR order and a voluntary code of conduct could provide a useful addition to the DAI. Even in the digital societies of the West we are far from immortal but perhaps the question we really need to ask is who wants to live forever. **I Wish He Was Dead** Jan Jencomb, 2011-10-11 Since Emma Kay was born almost nine years ago I have kept pictorial records both still and video of her life growth and activities. We soon began to lose confidence in our judicial system especially as it relates to the male spouse in divorce proceedings. The Internet had a site for a local attorney which gave instructions on getting the male spouse out of the house corner him so he will be forced to touch the female spouse to get past her. She played her cards to the limit after that signing papers for a restraining order. The separation agreement was already written but the dates in the agreement were all wrong. My son was set up and trapped. He lost his home businesses and didn't see his daughter for five weeks. The hatred, anger and emotional abuse she continued to show exceeded any behavior I had ever witnessed. Her emotional abuse to her daughter and to me was inconceivable, incomprehensible and inexcusable. I started keeping written documentation more than six months prior to her actual drama. I started my documentation as a therapeutic value for me. It was much later that I decided to document everything I could in a book. I hope it will be of some help to other unsuspecting husbands. **Digital Legacy and**

Interaction Cristiano Maciel, Vinícius Carvalho Pereira, 2013-10-12 The views of leading researchers on the emerging topic of post mortem digital legacy and posthumous interaction are explored in this book which combines the technical, cultural and legal aspects associated with this new branch of HCI. The technical aspects of emerging technologies both for the web and mobile platforms are analysed and useful information is provided for system development, requirements engineering and data management and storage. The authors address the cultural aspects of virtual identity, ethical problems, cross culture differences regarding memories and death, bereavement, taboos and beliefs and the visual verbal representations of death. The legal aspects covered include regulation, property, privacy and conflicts between international and local jurisdictions. The coverage of Digital Legacy and Interaction Post Mortem Issues is relevant to the development of systems that consider the influence of death, bereavement and mortality on Human Computer Interaction. The interdisciplinary approach that guides this book is intended to foster enriching and innovative discussions amongst HCI scholars and professionals. Cristiano Maciel and Vinícius Carvalho Pereira are researchers at LAVI Laboratory of Interactive Virtual Environments and professors at UFMT Federal University of Mato Grosso, Brazil. Who Killed Mom? Steve Burgess, 2011 Annotation A Globe Mail Top 100 Selection One of Canada s funniest writers Steve Burgess tackles his mother s life and death in a profound entertaining story Memoir biography and outrageous comedy make for a perfect blend in the debut book from acclaimed writer Telling the tale of his mother s life and death and along the way laying bare his own struggles as a troubled teenager Burgess delivers a moving meditation on life and family The author s mother Joan barely survived her thirteenth birthday a rare disorder had made it almost impossible for her to swallow food Her battle to survive this illness was the first in a lifelong struggle with the demons of her upbringing As she raised her five children of whom the author is the youngest Joan revealed herself to be a strong and remarkably complex woman despite being a sick parent This is the story of her family Joan herself her husband a charming United Church minister and their children including the alarmingly delinquent Steve Who Killed Mom brims with uproarious anecdotes and one liners Whether he s relating how an ice cream product saved him from a gruesome death on the Trans Canada sizing up the rebranding efforts of a woeful Manitoba motel or depicting daily life in a retirement community Burgess infuses his tales with plenty of humour But beneath the book s hilarity is a penetrating examination of eternal themes family mortality fate and the enduring value of love
