Zapata, Manel Lacorte, 2017-09-01

This book is the first volume to be devoted to the examination of the application of the multiliteracies pedagogical framework to the teaching of Spanish to heritage language learners in higher education institutions in the United States. The Hispanic population is a growing minority and the presence of heritage speakers can be observed in second language Spanish classes in all levels of education which presents unique challenges for practitioners. This collection focuses on differing populations of learners in educational settings in a variety of geographical areas such as Arizona, California, Maryland, Massachusetts, Ohio, Tennessee, and Texas. The studies included in the volume offer invaluable data and methodological insights into the instructional advantages of multiliteracies pedagogies in heritage language classrooms and they will appeal to Spanish practitioners and researchers as well as those interested in the education and practice of heritage languages.

Profiles of Dual Language Education in the 21st Century M. Beatriz Arias, Molly Fee, 2018-09-14 In the last 20 years dual language education programs have increased in number and expanded in range. Whereas once they were predominantly focused at the elementary level, they now span from pre K through to high school. This book examines the key attributes of successful dual language programs as well as the challenges and opportunities involved in extending the dual language instructional model to pre K and secondary settings. Chapter authors, who are themselves both researchers and practitioners, explore the latest research and policy implications for implementation of dual language in three different contexts within a school: a dual language school and a dual language district. This book will be of interest to teachers, teacher educators, professional development specialists, policymakers, administrators, and researchers.
