country that have stimulated art practices and appreciation For so long an exclusively Western narrative has dominated Art and popular media portrays the Gulf s accomplishments in development and modernity with suspicion Thanks to the UAE s espousal of the Internet and online communities over the last decade this book is particularly timely Following the pandemic a wider understanding of global art discourses values and perceptions are increasingly welcomed Art from the UAE bridges the local and the global giving a voice and a visual presence to a country s contemporary art tradition that has been widely overlooked The UAE has a distinct visual arts tradition that relates to a broader and inclusive understanding of art centered on development and change
