implies social service which is qualified by memories of the guru and what they are believed to embody Hegemony is reflected in the fact that social service in such movements often ominously imbibes right wing or far right Hinduism They propose a model of Hindu inspired social transformation involving faith building into and transforming the civil society The book discusses in a nuanced way several Hindu inspired faith movements of various hues which have made national and international impact This topical book is of interest to students and researchers in the fields of sociology anthropology social work and social psychology with a special interest in the study of religious movements *Religion 21st Century* M.
