Kao, 2010 This book explains how corporate social responsibility is linked to long term sustainability of an economy and that the activities of an organization should not be only for its self interest but must also be honed for the benefit of common good A major approach the book advocates is corporate decision makers in an organization should work towards earning the trust of stakeholders rather than focus on short term profitability It also emphasizes the importance of recognizing and rewarding the contribution and commitment by participants of an organization Written by academics and consultants this book will be of interest to academicians media professionals organizational participants entrepreneurs and general public **The Global in the Local** Xin Zhang, 2023-04-04 The story of globalization in the nineteenth and early

twentieth centuries as experienced by ordinary people in the Chinese river town of Zhenjiang Fear swept Zhenjiang as British soldiers gathered outside the city walls in the summer of 1842 Already suspicious of foreigners locals had also heard of the suffering the British inflicted two months earlier in Zhapu A wave of suicides and mercy killings ensued rather than leave their families to the invaders hundreds of women killed themselves and their children or died at the hands of male family members British observers decried an Asian culture of ritual suicide In reality the event was sui generis a tragic result of colliding local and global forces in nineteenth century China Xin Zhang's groundbreaking history examines the intense negotiations between local societies and global changes that created modern China In the nineteenth and early twentieth centuries world historic political economic and technological developments transformed the textures of everyday life in places like Zhenjiang a midsize river town in China's prosperous Lower Yangzi region Drawing on rare primary sources including handwritten diaries and other personal writings Zhang offers a ground level view of globalization in the city We see civilians coping with the traumatic international encounters of the Opium War Zhenjiang brokers bankrolling Shanghai's ascendance as a cosmopolitan commercial hub and merchants shipping goods to market for the first time on steamships Far from passive recipients the Chinese leveraged resisted and made change for themselves Indeed *The Global in the Local* argues that globalization is inevitably refracted through local particularities **Coercive Commerce** Stacie A.

Kent, 2024-12-11 In 1842 the Qing Empire signed a watershed commercial treaty with Great Britain beginning a century long period in which geopolitical and global economic entanglements intruded on Qing territory and governance Previously understood as an era of semi colonialism Stacie A Kent reframes this century of intervention by shedding light on the generative force of global capital Based on extensive research conducted with British and Chinese government archives *Coercive Commerce* shows how commercial treaties and the regulatory regime that grew out of them catalyzed a revised arts of governance in Qing administered China Capital which had long been present in Chinese merchants pocket books came to shape and even govern Chinese statecraft during the treaty era This book contends that Qing administrators alternately resisted and adapted to this new reality through taxation systems such as transit passes and the Imperial Maritime Customs Service by reorganizing Chinese territory into space where global circuits of capital could circulate and reproduce at ever greater scale Offering a deep dive into the coercive nature of capitalism and the historically specific ways global capital reproduction took root in Qing China this book will interest historians of capital and modern China alike This book delivers on its promise to recast how Qing China was impacted by nineteenth century imperialism By including treaties commercial statistics and tax regulation to the list of technologies designed to coercively incorporate China into a globalized capitalist economy Kent expertly uncovers hidden forces that utterly transformed the Qing empire C Patterson Giersch Wellesley College This is a wonderfully original study that rethinks the history of capitalist transformation in nineteenth century China through the lens of capital's circulatory needs and its viral effects on the practices norms and institutions of commercial

The History of

China, **The Suicide of Miss Xi** Bryna Goodman, 2021-07-13 A suicide scandal in Shanghai reveals the social fault lines of democratic visions in China's troubled Republic in the early 1920s On September 8 1922 the body of Xi Shangzhen was found hanging in the Shanghai newspaper office where she worked Although her death occurred outside of Chinese jurisdiction her US educated employer Tang Jiezhi was kidnapped by Chinese authorities and put on trial In the unfolding scandal novelists filmmakers suffragists reformers and even a founding member of the Chinese Communist Party seized upon the case as emblematic of deep social problems Xi's family claimed that Tang had pressured her to be his concubine his conviction instead for financial fraud only stirred further controversy The creation of a republic ten years earlier had inspired a vision of popular sovereignty and citizenship premised upon gender equality and legal reform After the quick suppression of the first Chinese parliament commercial circles took up the banner of democracy in their pursuit of wealth But Bryna Goodman shows the suicide of an educated new woman exposed the emptiness of republican democracy after a flash of

speculative finance gripped the city In the shadow of economic crisis Tang's trial also exposed the frailty of legal mechanisms in a political landscape fragmented by warlords and enclaves of foreign colonial rule The Suicide of Miss Xi opens a window onto how urban Chinese in the early twentieth century navigated China's early passage through democratic populism in an ill-fated moment of possibility between empire and party dictatorship Xi Shangzhen became a symbol of the failures of the Chinese Republic as well as the broken promises of citizen's rights gender equality and financial prosperity betokened by liberal democracy and capitalism

The Road Taken Sung Hee Ru, 2025-09-01 Traces China's transformations with a focus on China's incorporation process in the nineteenth century which help to grasp the historical origins of China's capitalism As Europe's colonial powers reached China in the nineteenth century they became so strong that China could no longer ignore them Given that the unprecedented geographical expansion of the European system undermined a China centered world order and brought unprecedented changes to Chinese society an intriguing question why and how the Chinese empire entered into the capitalist world economy has attracted increasing attention among historians historical sociologists and world systems researchers Yet there has been no comprehensive monograph touching on China's incorporation process into the capitalist world economy To rectify this *The Road Taken* investigates China's incorporation process Incorporation studies based on world systems analysis aims to illustrate the long term integration process of external arenas into the capitalist world economy Ru traces China's transformations with a focus on how incorporation process unfolded over the course of a century 1780s 1890s which represents a watershed era in the relations between China and the capitalist world
