The Early Christian World Philip Francis Esler,2000 The Early Christian World presents an exhaustive erudite and lavishly illustrated treatment of the first Christian centuries from the Jewish War and fall of the Temple to the final abolition of paganism by Theodosius **The Monastic World** Andrew Jotischky,2025-01-14 A major new history of medieval monasticism from the fourth to the sixteenth century From the late Roman Empire onwards monasteries and convents were a common sight throughout Europe But who were monasteries for What kind of people founded and maintained them And how did monasticism change over the thousand years or so of the Middle Ages Andrew Jotischky traces the history of monastic life from its origins in the fourth century to the sixteenth He shows how religious houses sheltered the poor and elderly cared for the sick and educated the young They were centres of intellectual life that owned property and exercised power but also gave rise to new developments in theology music and art This book brings together the Orthodox and western stories as well as the experiences of women to show the full picture of medieval monasticism for the first time It is a fascinating wide ranging account that broadens our understanding of life in holy orders as never before Studia Patristica F. Young,P. Parvis,2006 Papers presented at the Fourteenth International Conference on Patristic Studies held in Oxford 2003 see also Studia Patristica 40 41 42 and 43 The successive sets of Studia Patristica contain papers delivered at the International Conferences on Patristic Studies which meet for a week once every four years in Oxford they are held under the aegis of the Theology Faculty of the University Members of these conferences come from all over the world and most offer papers These range over the whole field both East and West from the second century to a section on the *Nachleben* of the Fathers The majority are short papers dealing with some small and manageable point they raise and sometimes resolve questions about the authenticity of documents dates of events and such like and some unveil new texts The smaller number of longer papers put such matters into context and indicate wider trends The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject *Historical Handbook of Major Biblical Interpreters* Donald K. McKim,1998 Contributors from both historical and biblical studies profile the methods perspectives and seminal works of major biblical interpreters from the second century to the late twentieth century Includes introductory essays for each period and bibliographies of each interpreter *Early Christian Monastic Literature and the Babylonian Talmud* Michal Bar-Asher Siegal,2013-12-23 This book examines literary analogies in Christian and Jewish sources culminating in an in depth analysis of connections between Christian monastic texts and Babylonian Talmudic traditions **Wandering Monks, Virgins, and**

Pilgrims Maribel Dietz, 2010-11-01 Dietz finds that this period of Christianity witnessed an explosion of travel as men and women took to the roads seeking spiritual meaning in a life of itinerancy This book is essential reading for those who study the history of monasticism for it was a monastic context that religious travel first claimed an essential place within Christianity

The Blue Sapphire of the Mind Douglas E. Christie, 2012-12-04 There are no unsacred places the poet Wendell Berry has written There are only sacred places and desecrated places What might it mean to behold the world with such depth and feeling that it is no longer possible to imagine it as something separate from ourselves or to live without regard for its well being To understand the work of seeing things as an utterly involving moral and spiritual act Such questions have long occupied the center of contemplative spiritual traditions In *The Blue Sapphire of the Mind* Douglas E Christie proposes a distinctively contemplative approach to ecological thought and practice that can help restore our sense of the earth as a sacred place Drawing on the insights of the early Christian monastics as well as the ecological writings of Henry David Thoreau Aldo Leopold Annie Dillard and many others Christie argues that at the most basic level it is the quality of our attention to the natural world that must change if we are to learn how to live in a sustainable relationship with other living organisms and with one another He notes that in this uniquely challenging historical moment there is a deep and pervasive hunger for a less fragmented and more integrated way of apprehending and inhabiting the living world and for a way of responding to the ecological crisis that expresses our deepest moral and spiritual values Christie explores how the wisdom of ancient and modern contemplative traditions can inspire both an honest reckoning with the destructive patterns of thought and behavior that have contributed so much to our current crisis and a greater sense of care and responsibility for all living beings These traditions can help us cultivate the simple spacious awareness of the enduring beauty and wholeness of the natural world that will be necessary if we are to live with greater purpose and meaning and with less harm to our planet

Sacred Fictions Lynda L. Coon, 2010-11-24 Late antique and early medieval hagiographic texts present holy women as simultaneously pious and corrupt hideous and beautiful exemplars of depravity and models of sanctity In *Sacred Fictions* Lynda Coon unpacks these paradoxical representations to reveal the construction and circumscription of women's roles in the early Christian centuries Coon discerns three distinct paradigms for female sanctity in saints' lives and patristic and monastic writings Women are recurrently figured as repentant desert hermits wealthy widows or cloistered ascetic nuns and biblical discourse informs the narrative content rhetorical strategies and symbolic meanings of these texts in complex and multivalent ways If hagiographers made their women saints walk on water resurrect the dead or consecrate the Eucharist they also curbed the power of women by teaching that the daughters of Eve must make their bodies impenetrable through militant chastity or spiritual exile and must eradicate self-indulgence through ascetic attire or philanthropy The windows the sacred fiction of holy women open on the past are far from transparent driven by both literary invention and moral imperative the stories they tell helped shape Western gender constructs that have survived into modern times

The

Making of Syriac Jerusalem Catalin-Stefan Popa, 2023-05-31 This book discusses hagiographic historiographical hymnological and theological sources that contributed to the formation of the sacred picture of the physical as well as metaphysical Jerusalem in the literature of two Eastern Christian denominations East and West Syrians Popa analyses the question of Syrian beliefs about the Holy City their interaction with holy places and how they travelled in the Holy Land He also explores how they imagined and reflected the theology of this itinerary through literature in Late Antiquity and the Middle Ages set alongside a well defined local tradition that was at times at odds with Jerusalem Even though the image of Jerusalem as a land of sacred spaces is unanimously accepted in the history of Christianity there were also various competing positions and attitudes This often promoted the attempt at mitigating and replacing Jerusalem s sacred centrality to the Christian experience with local sacred heritage which is also explored in this study Popa argues that despite this rhetoric of artificial boundaries the general picture epitomises a fluid and animated intersection of Syriac Christians with the Holy City especially in the medieval era and the subsequent period through a standardised process of pilgrimage well integrated in the custom of advanced Christian life and monastic canon The Making of Syriac Jerusalem is suitable for students and scholars working on the history literature and theology of Syriac Christianity in the late antique and medieval periods *Theodoret of Cyrrhus* Theresa Urbainczyk, 2002 Authoritatively places the fifth century bishop Theodoret and his work in the proper historical and literary context *The Monk and the Book* Megan Hale Williams, 2008-09-15 In the West monastic ideals and scholastic pursuits are complementary monks are popularly imagined copying classics preserving learning through the Middle Ages and establishing the first universities But this dual identity is not without its contradictions While monasticism emphasizes the virtues of poverty chastity and humility the scholar by contrast requires expensive infrastructure a library a workplace and the means of disseminating his work In *The Monk and the Book* Megan Hale Williams argues that Saint Jerome was the first to represent biblical study as a mode of asceticism appropriate for an inhabitant of a Christian monastery thus pioneering the enduring linkage of monastic identities and institutions with scholarship Revisiting Jerome with the analytical tools of recent cultural history including the work of Bourdieu Foucault and Roger Chartier Williams proposes new interpretations that remove obstacles to understanding the life and legacy of the saint Examining issues such as the construction of Jerome s literary persona the form and contents of his library and the intellectual framework of his commentaries Williams shows that Jerome s textual and exegetical work on the Hebrew scriptures helped to construct a new culture of learning This fusion of the identities of scholar and monk Williams shows continues to reverberate in the culture of the modern university Williams has written a fascinating study which provides a series of striking insights into the career of one of the most colorful and influential figures in Christian antiquity Jerome s Latin Bible would become the foundational text for the intellectual development of the West providing words for the deepest aspirations and most intensely held convictions of an entire civilization Williams s book does much to illumine the circumstances in which that fundamental text was

produced and reminds us that great ideas like great people have particular origins and their own complex settings Eamon Duffy New York Review of Books Selected Prose Works Saint Ephraem (Syrus), Saint Ephrem the Syrian, Edward G. Mathews, Jr., 2010-04 This volume presents for the first time in the Fathers of the Church series the work of an early Christian writer who did not write in either Greek or Latin It offers new English translations of selected prose works by St Ephrem the Syrian c A D 309 373 **The Madness of King Nebuchadnezzar** M. H. Henze, 1999 This study of Nebuchadnezzar's madness in Daniel 4 demonstrates how the elements which the biblical author borrowed from Ancient Near Eastern myth commanded the attention of early Jewish and Christian exegetes *Global History, Visual Culture and Itinerancies* Francisco José Díaz Marcilla, Jorge Tomás García, Yvette Sobral dos Santos, 2020-11-18 National studies have demonstrated their inability to correctly understand global phenomena and the way in which they affect societies This chronologically ambitious book investigates methodological and theoretical issues from Roman times to the present in terms of globalization In this context one of the most relevant parameters of change emerges the itinerancy of culture and knowledge Therefore this volume argues that itinerant agents carry with them cultural baggage transporting and transmitting it to other spaces In this way interconnection begins producing active changes in global history and visual culture Contributions to this book focus on comparative studies the evolution of global phenomena historical processes in their diachrony regional studies changing economies cultural continuities and methodological questions on globalization among others In addition the book opens with a contribution from Professor Peter Burke **Architecture and Asceticism: Cultural interaction between Syria and Georgia in Late Antiquity** Emma Loosley Leeming, 2018-06-12 In Architecture and Asceticism Loosley Leeming presents the first interdisciplinary exploration of Late Antique Syrian Georgian relations available in English The author takes an interdisciplinary approach and examines the question from archaeological art historical literary and theological viewpoints to try and explore the relationship as thoroughly as possible Taking the Georgian belief that Thirteen Syrian Fathers introduced monasticism to the country in the sixth century as a starting point this volume explores the evidence for trade cultural and religious relations between Syria and the Kingdom of Kartli what is now eastern Georgia between the fourth and seventh centuries CE It considers whether there is any evidence to support the medieval texts and tries to place this posited relationship within a wider regional context **Christianity in Roman Scythia** Ionuț Holubeanu, 2024-01-15 At present there is no scholarly consensus on the ecclesiastical organization in the Roman province of Scythia 4th 7th centuries This volume proposes a new interpretation of some of the historical evidence concerning the evolution of the see of Tomi a great metropolis first with suffragan bishoprics outside Roman Scythia and then inside it and later an autocephalous archbishopric Though there are also many unclear aspects regarding the evolution of monastic life in the province this book reveals that in contrast with the development of the monastic infrastructure in Roman Scythia a spiritual decline began in the mid 5th century **Psalms Through the Centuries,**

Writing and Holiness Derek Krueger, 2013-04-03 Drawing on comparative literature ritual and performance studies and the history of asceticism Derek Krueger explores how early Christian writers came to view writing as salvific as worship through the production of art Exploring the emergence of new and distinctly Christian ideas about authorship in late antiquity Writing and Holiness probes saints lives and hymns produced in the Greek East to reveal how the ascetic call to imitate Christ's humility rendered artistic and literary creativity problematic In claiming authority and power hagiographers appeared to violate the saintly practices that they sought to promote Christian writers meditated within their texts on these tensions and ultimately developed a new set of answers to the question What is an author Each of the texts examined here used writing as a technique for the representation of holiness Some are narrative representations of saints that facilitate veneration others are collections of accounts of miracles composed to publicize a shrine Rather than viewing an author's piety as a barrier to historical inquiry Krueger argues that consideration of writing as a form of piety opens windows onto new modes of practice He interprets Christian authors as participants in the religious system they described as devotees monastics and faithful emulators of the saints and he shows how their literary practice integrated authorship into other Christian practices such as asceticism devotion pilgrimage liturgy and sacrifice In considering the distinctly literary contributions to the formation of Christian piety in late antiquity Writing and Holiness uncovers Christian literary theories with implications for both Eastern and Western medieval literatures
