lamppost to stop his momentum and turn himself around to face the Sulcrum He caught the blade neatly and deftly turned it in his hand his fingers clenched around the metal hilt Still in motion he launched himself off the pole and met the Sulcrum as it hurtled toward him The blade sank deep into the weak point just below the Sulcrum s chin and stuck out the other side Kael gave the blade a violent twist left then right and stepped sideways as the forward momentum of the Sulcrum s body continued past him and rammed into the glass window of the very store Kael had been standing in front of just minutes earlier Shards of glass flew in all directions as the heavy metal body of the Sulcrum came to a halt in the middle of the now destroyed store display The woman stared at the machine s head as it fell at Kael s feet For a moment Kael stood with his arm still outstretched blade extended outward muscles tensed and bulging and his chest heaving as he worked to catch his breath His eyes were glued to the woman A second later he vaulted towards her grabbed her by the hand and began running away from the storefront as fast as he could drag his baggage behind him She was small and couldn t keep up with him Frustrated he stopped She immediately slammed into the back of him Ow Damn you Where are you taking me she yelled at him Away from here he yelled back Without saying another word he picked her up like she was a sack of potatoes dumped her over his shoulder and ran down the street with her bouncing against his back She wound her fingers into his shirt and held on tight to try and stop the mind numbing bounce of her head I w want to kn know where the hell you re t t taking me she shrieked her words coming out in gasps as her stomach bounced painfully against his shoulder Just as the last word was leaving her lips the Sulcrum exploded in a massive ball of fire that sent bricks glass metal and parts of mannequins flying across the street Kael kept running The woman was too winded to scream when the explosion ripped through the store Sirens howled in the distance fire trucks and police cars already trying to make their way through the city streets to get to the odd scene that citizens had surely reported Only minutes had passed since the Sulcrum s arrival but there was enough chaos and damage on the street to make it look like a terrorist attack Another explosion rocked the atmosphere the sound reverberating off the tall buildings around them The Sulcrum s head exploding just minutes after the body s self destruct Kael kept running He had to get as far away from the scene as possible as fast as possible He ran a mile before he finally stopped and put the woman down Tears streaked her cheeks and her nose was red and wet from crying She wobbled on her feet and shoved her long blonde hair out of her face to get a good look at him Kael was barely panting from the long run Running with her weight on his shoulder hadn t even winded him His luminous green eyes stared down into her face assessing her emotions and her physical state What the hell was that that thing back there she demanded A Sulcrum he answered succinctly He reached for her hand She snatched it out of his way so that he couldn t take hold of it He frowned You must come with me The hell you say I don t have to go anywhere with you You nearly got me killed back there He reached for her hand again Again she moved out of his grasp I want to know why the man in that armor was trying to kill you and why you are running with me There s no time for that We have to get as far away as possible as fast as possible Every

delay could mean the death of us Why And why we Why do I have to go with you What the hell is going on She ended in a near scream of fury and frustration The Sulcrum is not a man It s a machine A very deadly one Kael explained The woman glanced at him nervously She looked dazed confused and he could smell the terror thrumming through her bloodstream You ve been imprinted he stated Wha What does that mean It means that you are in danger You must come with me Her eyes were beautiful He d just noticed Deep as a crystal clear blue spring on Trinoor Her hair the color of the corn silk he d seen stripped from the ears in the farmers market Skin fair smooth and clear Next to his 6 5 frame she was tiny probably no more than 5 4 Not that it mattered She was under his protection now Like it or not he couldn t leave her She opened her mouth to say something but the words were cut short when he grabbed her by the hand and pulled her down the side street We must get out of sight She tried to twist her hand out of his but his grip was too firm Why should I come with you She yelled the words at the back of his head He turned abruptly and put a large hand over her mouth to shut her up Leaning down close so she could look into the depth of his eyes he said very clearly If you want to remain alive you will follow me to the ends of your planet if need be without hesitation and without argument Her eyes were wide with fear and he could feel her heart thrumming hard against his abdomen The energy of it beat the air between them reaching out to strum his nervous system His senses were at high alert and he could see everything about her smell everything feel everything like no human ever could I m going to let go now And you re going to be good and not scream If you hold me back any longer I will have no choice but to leave you behind to protect myself If I do that you will die Do you understand She nodded feebly her cheeks pinched up above the meat of his palm She looked like a pathetic little cartoon character on some earth show When he didn t let go she nodded more emphatically and grunted something from beneath his hand He slowly lifted a few fingers She didn t scream so he withdrew his hand but he remained vigilante She gasped once for breath straightened her shirt swallowed hard and nodded again Alright I m following you Kael assessed her eyes to determine her truth Satisfied that she would give him no more trouble he looked around at his surroundings Microwave and cell phone towers jutted from the tall building next to the abandoned one they stood beside He turned and peered into the distance The energy plant was too far away This building would have to do for now He went to the door and looked through the glass A small hallway led to an empty lobby He jimmied the door and stepped inside Old broken glass crunched beneath his boots He pulled the girl in behind him and closed the door locked it and turned back to look around at the graffiti covered walls What is this place the girl asked from behind him An abandoned office building he said How do you know I observe Moving silently his senses heightened and alert he led her upstairs to the third floor Glancing around as he went he eased down the hallway until they came to a small room at the end of the hall The girl followed him inside but when he closed the door behind them she seemed wary and nervous Kael ignored her and assessed the room from ceiling to floor then went and peered out the dirty window at the street beyond Satisfied that he would not be battling his way through any more Sulcrums at least for a short while he turned to the only

desk that sat to one side of the room He crossed the room and sat down slowly in the dust covered swivel chair The girl looked around the room Why would anyone leave their office furniture behind You ask a lot of questions She shrugged I ve always been curious by nature Questions can get you answers that you won t like to hear She shrugged again Maybe Maybe not You didn t see me running from that big robot thing did you His eyes narrowed She spoke the truth She was the only one who had stood her ground Not that sticking around had been the smart choice I know Tae Kwon Do Been studying it since I was five years old she said as she looked out the dirt smeared window It teaches you to be bold There s a difference between boldness and stupidity Kael replied She turned to frown at him her arms going across her chest The position of her forearms thrust her breasts even higher revealing a tiny bit of cleavage above her sweater Her breath hung in the air reminding him of just how cold she must be The building s windows were mostly broken out allowing for little shelter against the elements How old are you he asked Twenty seven Your name She hesitated her gaze turning toward the floor You first My name is Kael Kyle she repeated Sounds like a perfectly harmless name But you re not harmless And you re not human either are you Kah ell he corrected her pronunciation All drawn together in a subtle way And what makes you think I m not human Well for starters a man appeared out of thin air and called you master and then this big shiny chrome thing stepped out of the crowd and tried to break you in half Now I know the military as advanced as we ve become with our drones and weapons and such doesn t have anything like that hulk and as far as I know humans can t appear out of thin air Not to mention the sword that morphed out of its arm and then morphed back into an arm and then back into a sword like magic Plus my friend swears aliens have been visiting us for ages and maybe you re one of them coming back to visit or coming back to find something or take something Kael stood up effectively cutting off her speech She took a step backward He stopped I m not going to hurt you She repositioned her legs Kael noticed that she had shifted her center of gravity and she was now on the balls of her feet Your Tae Kwon Do is no match for me We ll see about that she retorted Now if you don t start talking I m going to speed dial my cousin who s a New York cop and you ll be apprehended taken to a secret government facility where I m sure you ll be more than happy to talk Kael s mouth twitched at the corners as he held back a laugh You don t bluff well You have no cousin who s a cop Her chin lifted and he saw the glint of defiance in her eyes How do you know that Because I can tell when someone is lying She opened her mouth to say something then clamped it shut again He smiled in satisfaction You and I are in danger I plan on keeping us safe But I must remind you that if you limit me in any way I will have no choice but to abandon you and leave you to fend for yourself You ve seen what a Sulcrum can do so I suggest you work with me not against me She gulped hard but kept her gaze firmly on his Now your name please Sarah Connor His frown deepened into a scowl He was losing patience with this female Your real name he growled as he took a menacing step toward her She gulped again and took a step backward Her back butted against the wall stopping her from escaping Okay Eva My name is Eva She said the words in a rushed desperate near squeal Blurring the lines between First Contact Space Fleet Hard Science Fiction Alien

unlocked with clues from the book That added an extra bit of fun to it as well Sara BestIndieBooks com <http://thehyperspaceproject.com> Excerpt Karg woke to the sound of explosions rocking the ship Karg Get to Bay One we re about to have company Arya s voice demanded over his com badge Karg fell out of bed onto his knees The rumble of multiple blasts to the hull rang through his room What what s going on Arya Karg Get your arsk to Bay One Now The sounds of explosions on the bridge almost drowned out Arya s voice Raiders Frek Karg grumbled He flew out of the door into the corridor driving a passing Meth into the wall as they collided The Meth crewmember stumbled to his feet in his cumbersome environmental suit and continued on his way Karg was too distracted to apologize He hopped down the hallway attempting to get a foot into his boot and still shaking off his grogginess He finally got his feet stuffed into his boots before rounding the corner into Bay One The fury of plasma blasts hitting the hull reverberated through the hangar like a giant drum I m in Bay One What the hetek is going on out there Karg waited for what seemed like forever for an answer The silence on the com had him worried Finally Arya replied Raiders Everywhere Too small and fast Can t get a clear shot Can t outrun them Suddenly Karg s com badge screeched and whined Then a strange voice broke in Captain of the Ashok surrender and I may let your crew live Karg waited tensely through the long pause Arya didn t appear to be responding to the raider s demands Let me talk to Arnon the voice demanded On the bridge Arya sat tall and straight in the Captain s chair glaring at the main view screen An unkempt scarred face stared back at her Typical raider scum in need of a good bath and some manners At least over the vid link she was spared from his stench All her training and time spent watching Argos command the ship had prepared her for this moment Raider baskurt This is Captain Arya of the Ashok I have been lenient with you so far but do not try my patience Perhaps you have heard about how we recently destroyed a Mok tu Star Killer Leave now or suffer the same fate The commander of the raiders smirked Yeah I ve heard of you alright And I ve heard about that weapon of yours A weapon of that power would be worth a lot of credits Way I hear it that weapon could probably rip apart a whole planet The fact that a craft that small can unleash that kind of power has me shakin in my boots The commander gave a sarcastic laugh The thing is that weapon may be scary powerful when it s launched but right now it s sitting safely aboard your ship Now surrender before I take your ship apart piece by piece Arya s mind raced They knew about the hyperspace ship but they thought it was still aboard the Ashok How could she use that to her advantage And Arnon How did they know Arnon I ve called your bluff missy the commander chided Time to pay up Commander Scumbag she began taunting him with insults I do not negotiate with raiders and especially not with the likes of you You have ballusks I ll give you that I can t believe you would threaten the ship carrying the biggest baddest weapon around What the hetek were you thinking You re such a patuke I have nothing more to say to you You re not even worth the effort of killing Get out of my way and I will let you live And before you go making another brilliant decision in your colorful yet undoubtedly short career I ask you how sure are you that this weapon can t be fired from within the walls of this vessel Are you willing to bet your life on it The commander s reply was long in coming The smaller raider

vessels zipped around the Ashok like betiks on a syrup tree continuing to fly hit and run maneuvers The constant plasma blasts were beginning to weaken the Ashok s defenses Finally the commander s voice broke the silence I understand You have principles You don t negotiate with raiders That s one of your principles But you see I don t have any of them principles Life s much simpler that way Know what I m say n The commander grinned one gold tooth shining amidst his decaying food encrusted teeth It s a shame that a pretty thing like you is going to have to die but now you re trying my patience Sirok sent a message to Arya s console with his wireless neural interface The raiders had made it through the Ashok s collapsing shields and had blown off the outer door to Bay One With the shields failing and the hull breached there was nothing to stop them from entering the ship Arya severed communications with the raiders and the view screen went blank The time for posturing was over The raiders in this sector were notoriously dangerous and most likely one of the main reasons so few ever returned from Demented Space Sirok you have the con Patch everything through to my PDU Arya held up her personal data unit a handy do about anything reconfigurable on the fly mobile gadget that she seldom left behind Tell Karg I m headed down there and get everyone you can to Bay One We need to stop them from getting into the rest of the ship Aye Captain Sirok busily typed on his console His holo display showed a diagram of the ship alongside a roster of the crew and their current locations Arya turned as she entered the transport tube Lock down the bridge The tube doors slid shut with a whoosh and the tube sped down to the bay level Sirok broadcasted a message to all hands ordering them to defend the hangar bay The bridge grew quiet The bombardment had ceased The raiders were now focused on taking the ship Sirok put a priority one lockdown in place sealing off the bridge Arya would be able to command the ship through her encrypted mobile data unit but if all else failed Sirok would have to take over command from the bridge The protective mucus covering Sirok s body oozed faster It was a natural bodily function for a Kymirian under stress a vestige of his ancestry that allowed them to move quickly and replace the antibacterial covering at a more rapid rate His nerves were beginning to get the best of him and he could feel it in the thinning mucus running down his face He knew that even with the bridge locked out the raiders could disable the engines and other systems if they infiltrated the ship Arya slid to a stop next to Karg in Bay One The force field in the bay was holding but through the translucent wall of static the ominous presence of the raiders was apparent A boarding party was nearing the field spreading into several groups A handful of crewmembers ran into the bay behind Arya Two Meths a couple of Arisian ensigns and Kyrk Arya frowned That s it That s all of you Hull breach in the aft section Kyrk responded Five of the crew were there when it happened Three didn t make it The other two are trapped Arya was all business Sket It will have to do Take cover We draw the line here Do you understand Yes Sir the crew replied in true military fashion In front of them the glove of an armored space suit pierced through the force field Karg They re coming through They must be using a field modulator Another hand came through the force field a pistol aimed and at the ready Plasma blasts ricocheted off the metal crate in front of them as they ducked Open fire Arya commanded as she popped up and fired several rounds at the

*The Complete Sermons of C. H. Spurgeon, Book 1 (Vol. 1-3)* C. H. Spurgeon, 2015-03-22 The story of Charles Haddon Spurgeon s life is nothing less than titanic Within 2 years and 6 months of accepting the pastorate of the New Park Street Chapel as a boy of 19 the Sunday service grew from 242 to over 7 000 in attendance What can account for the meteoric rise in popularity Why did so many wish to hear his sermons It is the same reason why one ought to study the sermons of Spurgeon to this day in a famished land of moralism he preached the bread of Jesus Christ Containing the first three volumes of the sixty three volumes published from the Metropolitan Tabernacle pulpit this book holds 164 sermons as plump as a
