Globalization, Mass Education and Technical and Vocational Education and Training Miriam Preckler Galguera, 2018-06-05 This book assesses the influence of the international organization UNESCO on the development of national Technical and Vocational Education and Training TVET systems in the Southern African Community Region SADC focusing particularly on Botswana and Namibia Designed around UNESCO s Better Education for Africa s Rise BEAR project the study is an excellent example of applied policy research Analysis is from the perspective of key stakeholders including UNESCO headquarters and field offices Ministries of Education and of Labor employers and employees education and training institutions international partners and more Both qualitative and quantitative evidence are used to provide a comparative overview and the author also reveals the current state of data on skills Readers will discover common goals and challenges across the nations but also a common lack of action to measure the

impact and influence that UNESCO's programs have had at a national level prior to this study. Were the newly implemented educational policies successful or not? If the public policies failed, why was that? These chapters shed light on such questions and how UNESCO's contribution influenced the national development processes in the context of globalization processes and trends of global mass education. The book has much to offer for both scholars and those working in UN agencies or national governments who seek to develop education systems and better link them to the world of work. **Leabhar Na H-Uidhri**

,1870 *Earth Observations and Geospatial Science in Service of Sustainable Development Goals* Souleye Wade, 2019-11-30. This book provides a unique insight into the research and recent developments undertaken among the African Remote Sensing community in regard to the environment. It includes reports of the latest research outcomes in the field of remote sensing and geospatial information technologies, analyses, discussions around operational topics such as capacity building, Spatial Data Infrastructure (SDI) applications of advanced remote sensing technologies (LiDAR, Hyperspectral) in Africa, big data, space policy and topics of high actuality in the field of climate changes, ocean and coastal zone management, early warning systems, natural resources management or geospatial science for sustainable development goals. The book comprises the contributions of the AARSE (African Association of Remote Sensing of the Environment) international conference, which is conducted biennially across Africa alternately with the AfricaGIS conference. It is the premier forum in Africa for research on remote sensing technologies and geospatial information science, gathering leading scholars from the remote sensing and related communities. The conference is co-organised by the Arab Academy of Science and Technology in partnership with the National Authority for Remote Sensing and Space Sciences (NARSS) of Egypt and continues a long series of successful AARSE conferences which started in 1996 in Harare, Zimbabwe and has been held in Abidjan, Côte d'Ivoire in 1998, Cape Town, South Africa in 2000, Abuja, Nigeria in 2002, Nairobi, Kenya in 2004, Cairo, Egypt in 2006, Accra, Ghana in 2008, Addis Ababa, Ethiopia in 2010, El Jadida, Morocco in 2012, Johannesburg, South Africa in 2014 and in Kampala, Uganda in 2016.
